HEALTH RESTORED!!

FOR THE CURE OF DYSPEPSIA OR INDIGESTION, BILIOUS AND NERVOUS HEADACHE, CONSTIPATION, DIARRHOEA, GOUT, RHEUMATISM, GRAVEL FLATULENCY, &c.

THIS PREPARATION is made from the best Turkey Rhubarb, and possesses all its valuable properties, combined with such aromatics as will be found materially to assist in its operation, and is thereby rendered an exceedingly useful medicine in a variety of affections where a cordial aperient is deemed requisite.

As a medicine, Rhubarb (the Turkey) has for a considerable period held a high place in the medical world, and has thus far proved itself eminently deserving its great reputation, through the valuable properties universally conceded to be peculiar to it, when procured in its pure state.

In cases of Dyspepsia or Indigestion, it is an invaluable remedy; and as a preventive (the various diseases arising from that very disagreeable complaint, holds a high place in the estimation of the medical profession.

In cases where griping pains affect the stomach and bowels, this preparation is strongly recommended, whilst it also will be found a good carminative in relieving Flatulency. To persons afflicted with Gout, (and it has enjoyed high praise from those who have already experienced its good qualities,) it is confidently offered, as it can at all times be taken when a cooling purgative would otherwise be attended with danger.

This preparation cannot be too strongly recommended to the many thousands now suffering from Dyspepsia or Indigestion, and its consequences. Bilious and Nervous Headache, Diarrhoea, Constipation, Gout Rheumatism, Flatulency, Gravel, &c., as the utmost reliance can be placed on it, both as to its innocent nature and highly curative qualities.

SANCTIONED AND PATRONIZED BY THE MOST EMINENT OF THE MEDICAL PROFESSION.

"By merely pouring water on a tea-spoonful of this Aperient, a cooling and grateful effervescing beverage is obtained, resembling Soda Water to the taste, and imparting to the constitution all the benefits of the celebrated Seltzer Waters of Germany."

TARRANT'S EFFERVESCENT

SELTZER APERIENT.

"Of all prescriptions made up with a view to alterative effect, none can be compared with Mineral Waters."—John Bell, M. D., F. P., &c.

"These waters revive the languishing circulation, give a new direction to the vital energies—re-establish the perspiratory action of the skin, bring back to their physiological type the vitiated or suppressed secretions, provoke salutary evacuation, either by urine or stool, or by transpiration; they bring about in the animal economy an intimate transmutation—a profound change."—Patissier.

MEDICAL MEN of eminence commend in the highest terms the preparation known as "Tarrant's Effervescent Seltzer Aperient." Could the numerous flattering testimonials which its successful and valuable medicinal powers have elicited from the most distinguished Physicians be here submitted for inspection or would the columns of a newspaper permit their insertion, proofs of its efficacy Undeniable and Unimpeachable would be exhibited, to satisfy the incredulous and dispel the doubt of even the most sceptical, and it would stand forth to the world in triumphal success, (as in truth it is) the most agreeable, refreshing and effectual medicine ever offered for the cure of those diseases which are engendered under the heat of a Tropical Sun. In the practice of Physicians, this Aperient has entirely superceded the Seidlitz Powders, on account of its superior medicinal properties—its mild though sure effect upon the system—its agreeable flavor and the certainty of its positive preservation from dampness. The ease and quickness with which the Seltzer Aperient may be prepared—its delightful effervescence and gentle action upon the bowels are qualities which likewise claim for it a superiority and must without fail, enlist in its favor the friendship and patronage of all who have ever tasted the beneficial operation of this deservedly celebrated Aperient. The unanimity with which medical men join in its praise, is a sure guarantee that it is deserving of the character they have given it in the numerous testimonials received by the proprietor.

Its success in Bilious Affections, Dyspepsia or Indigestion, Heartburn, Febrile Disorders, Gout, Acidity of the Stomach, &c., and all the various complaints caused by the sudden changes of temperature, so usual in warm latitudes has been so great, that it has been highly recommended, and has in consequence been generally prescribed, and the most satisfactory results have invariably followed. In a torpid state of the Liver, its action upon the system has been so beneficial that its energies have been revived and its healthy tone restored.

Planters and residents at a distance from medical advice, would find the Seltzer Aperient an useful and in fact an indispensable addition to their medicine chest, and would obtain by its introduction into their families, a remedy possessing high medical properties, and which would in the various ailments natural to their climate exert a salutary influence upon the system debilitated by the excessive heat, and assist in restoring the languishing circulation to an active and healthy condition. Its virtues have been found wholly unimpaired even on shipboard nor have they been lessened in any climate to which it has been sent. This is a valuable property and deserves the careful notice and attention of travellers and others.

In the Seltzer Aperient, such improvements have been made as are calculated to increase its efficiency by the addition in greater quantities of those ingredients, which impregnate the original spring, and which are esteemed the most valuable, and the rejection of those which have been found unnecessary or injurious in their tendency; thus is in the opinion of intelligent Physicians rendering this preparation superior or more healthy restoring than the natural waters.

Creole Table Mustard.

PREPARED BY LARROQUE.

THIS Mustard is, both to taste and odor, of the most pleasant kind, and has over all other preparations of the sort an indisputable superiority. In the first place, it is in no way heating, which is a very just cause of complaint in other table mustard. 2d—It stimulates the appetite. 3d—This preparation does not contain any ingredients capable of neutralizing constituent parts of the mustard seed, (Sinapis Nigra) which most of the manufacturers are ignorant of, and do not scruple to add to their preparations very strong acids and the most alkaline salts. Some even go as far as to make use of mustard of which the most essential oily substance is extracted and make up for the deficiency with other sediments, and give to those worthless powders an artificial tart by adding to it carbonat of ammoniac and strongly spiced substances. You can detect the same so injurious to health, by the long continued heat it leaves in the throat and palate, whilst the tart of the genuine article is almost as soon destroyed as felt.

EDUCATION.

MANDEVILLE COLLEGE.

THE course of studies pursued in this establishment is now complete. The number of Professors has increased with the number of Students. Its American and Creole patrons may feel no hesitation in having created an institution which rivals the best Colleges of the North. The facility of acquiring not only a theoretical but also a practical knowledge of English and French is peculiar to this College, these languages being spoken both in the class rooms and during recreation. The course of studies embraces the different branches of the Mathematics, the English, French, Spanish, Latin and Greek languages, Logic, Rhetoric, History, Geography, Penmanship, Stenography, Drawing, Music and Fencing.

The clothing, washing, food and play ground, are with the Directors objects of particular care and attention.

The breezes of the Lake, its salutary baths, the walks in the surrounding woods, fishing and gymnastic exercises, preserve the students in a state of almost uninterrupted health.

ROBERT PALFREY, Esq. a31 At the City Bank, is Agent for the College.

ORLEANS HIGH SCHOOL.

(Lycée d'Orléans.)

ESPLANADE STREET.

THIS institution, opened in April 1845, and conducted by Professors EVERETT, WYNDHAM and MERVOYER, occupies spacious and well ventilated buildings in a part of the city which the purity of the air and the nearly total absence of sickness render highly eligible as the seat of an educational establishment.

Boarding pupils pay twenty dollars per month. This fee includes washing and tuition in all the branches.

Half Boarders pay fifteen dollars per month, and Day Scholars six, nine or twelve dollars per month, according to their proficiency.

The system of education embraces the grammar and literature of the English, French, Spanish, Latin and Greek languages, History, Rhetoric, Poetry, Mythology, Geography the use of the Globes, Book-keeping, Arithmetic, algebra, geometry, plain and spherical Trigonometry, Surveying Natural Philosophy, Moral Philosophy, etc. etc.

The branches of learning set forth above are taught by Professors Wyndham, Everett and Mervoyer, and by Assistant Instructors, selected for their long experience and eminent skill in the business of teaching.

Such pupils as desire it, may, at their own expense, receive instruction within the walls of the institution in Drawing, Music, Dancing and Fencing. The school is attended for these purposes by the most distinguished masters in the city.

All necessary books and stationery are furnished by the parents, or by the institution at the expense of the parents.

For the stricter observance of the minor rules of discipline, the proprietors of the school are assisted by two Ushers, whose special duty it is to enforce correctness of deportment in the sleeping rooms, study rooms and play grounds.

No interference whatsoever on the part of parents or guardians in the regulations of the institution is tolerated.

The Statutes, containing the rules of discipline, course of studies, terms, &c., may be had in English or in French, at the School or at the principal Book stores in the city. jy8

DAY AND BOARDING SCHOOL FOR YOUNG LADIES,

Founded in 1802 by Madame Lumm, and conducted since 1841 by Madame Dusnavaux.

(Rampart street, corner of Bienville.)

THE course of instruction pursued in this establishment is both solid and varied, extending from the elements of reading and grammar to the study of literature and the elements of the sciences indispensable to a polished education.

The pupils are distributed into seven classes, suited to their different ages and capacities.

The French and English languages are cultivated with equal attention, and a good opportunity is afforded for their free and familiar use in conversation by the intercourse of Creoles with Americans.

Vocal and Instrumental music is taught by ladies, exclusively attached to the establishment, and their constant presence is a guarantee of unremitting attention, both to lessons and practice.

Examinations in music take place from November to April, on the 1st Saturday of each month. At the end of May, general examination and distribution of prizes.

L. BOYER'S CLASSICAL AND COMMERCIAL INSTITUTION, No. 120 Casa Calvo street.

(between Dauphine and Burgundy streets.)

THIS institution, the oldest scholastic establishment in New Orleans, is well known and highly distinguished for the success which has accompanied it ever since its foundation, a considerable number of pupils who have quitted it to enter on the great scene of life, having already acquired some distinction in the various avocations to which they have devoted themselves.

Boyer's Institution is conducted in one of the largest Mansions in the city, occupying a fine central position being well ventilated and in other respects perfectly salubrious.

The range of studies which engages the attention of the pupils extends over all the branches of Learning which are necessary to a useful, polite and finished education; from primary instruction to the more abstruse subjects which are specially the province of a collegiate course—Discipline so necessary to the youthful mind in a due perception of the duties incumbent on it in its future relation with society, is a conspicuous feature of the establishment, being at the same time severe and considerate, whilst the solicitude of the Principal regarding the moral training of the youths committed to his charge, is, though strict, yet paternal.

The English language, daily becoming more and more evident, as of the greatest possible importance to all living in this community, is, in Boyer's Institution, attended to with more than ordinary care, the Professors engaged in this branch being gentlemen of undoubted attainments and long accustomed to Tuition.

BRANCHES OF TUITION:

The English, French, Spanish and Latin Languages, History, Geography, Mathematics, Elements of Natural Philosophy, Astronomy, &c. &c.

TERMS:

Boarders	$20 per month.
Half Boarders	15 "
Day Scholars	6 and 10 per month.

No deduction is made for absence. A month once commenced must be paid in full. Books, paper, &c. form separate charges. d10
