MISCELLANEOUS.

AYER'S
AGUE CURE,
FOR THE PRESENT YEAR OF

Intermittent Fever, or Ague and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache, or Sick Headache, and Bilious Fevers, indeed for the whole class of diseases originating in biliary derangements, induced by the malaria of miasmatic countries.

No one remedy is better skilled for by the consumers of the American people than a cure and safeguard for Fever and Ague. Such we can now confidently offer, with a perfect certainty that it will withstand the assaults, and with assurance, founded on proof, that no harm can arise from its use in any quantity.

That which results from or promotes this disorder must be of immense service in the country where it prevails. Prevention is better than cure, for the pain and misery which he must run in violent attacks of this baleful disease. The "Ague" expels the miasmatic poison of Fever and Ague from the system and prevents the development of the disease, if taken on the first approach of premonitory symptoms. It is not only the best remedy ever yet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of every purse, and in bilious districts, where Fever and Ague prevails, every body should have it and keep it freely both for cure and protection. It is hoped that every one will place it within the reach of all the poor as well as the rich. A great superiority of this remedy over any other ever discovered for the operation of a certain cure of intermittents is, that it contains no quinine or mercury, therefore cannot produce no quinine or other injurious effects whatever upon the constitution. These cured by it are left as healthy as if they had never had the disease.

Fever and Ague is not alone the consequence of the miasmatic poison. A great variety of disorders arise from its imitation. Among which are Dysentery, Rheumatism, Gout, Headache, Blindness, Toothache, Deafness, Cataracts, Asthma, Palpitation, Painful affection of the Spleen, Hypochon, Pain in the Bowels, Colic, Paralysis and Derangement of the Stomach, all of which, when originating in this cause, yet in the intermittent form, or become periodical. The "Ague" expels the poison from the blood, and consequently cures them all alike. It is an invaluable protection to immigrants and persons traveling or temporarily residing in the malarious districts. It takes considerably or daily while exposed to the infection, that will be conveyed from the system, and cannot accumulate in such last quantity to ripen into disease. Hence it is even more valuable for protection than cure, and few will ever suffer from intermittents if they avail themselves of the protection this remedy affords

Ayer's Cathartic Pills,
FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their gentle purgative operation cleanses, purifies and invigorates every portion of the human organism, correcting its diseased action, and restoring its healthy children. As a consequence of their prompt action, the invalid who is bowed down with pain and physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below will be pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Costiveness, Rheumatism, Headache arising from Disordered Stomach, Nausea, Indigestion, Pain in the Side and Back, Jaundice, Dropsy, Flatulency, Loss of Appetite, Jaundice, and children hundred complaints arising from a low state of the body or obstruction of its functions. They are an excellent alternative for the prevention of the blood and the restoration of tone and strength to the system debilitated by disease.

Ayer's Cherry Pectoral,
FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind will be apparent to every observer, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. Why may inferior remedies trust upon the community so long after Ayer's has been introduced, this has gained friends by every trial, confirmed beneficial on the afflicted, and proved to be a remedy of great value, and proved cures too numerous and too remarkable to be forgotten.

I TAKE pleasure in announcing that Messrs. MANDEVILLE & McKENNEY are my authorized agents in this city to make contracts for the use of

MY INVENTION

I will only say here that I make the same capital, the same reduction, the same steam power, the same expenses, very much more cotton, gins and feeds twice the cotton, to spin it; that, with the addition of one hand, I can spin about half when the increased value of the yarns the first year will be, and when the extended by surplus labor of the plantation, in little gins of 5 to 10 horses, and two hands, or three field-hands, I DOUBLE, OR MORE THAN DOUBLE THE PLANTER'S NET INCOME.

We spin the best yarns in the world. The danger from fire of the gin house is unmingly reduced, with many other advantages too tedious to mention, and what is of great importance is, that all this is fully demonstrated by its successful daily operation on the plantation of Col. Geo. S. Yerger, near Tayse City.

Planters desiring more full particulars are referred to my agents, as above.

Applicants for agencies will please address them, inclosing testimonials.
