# INSTITUTIONS.

[illegible] ...the comfort and better accommodation of pupils, he has fitted up a large, additional class room.

To give manliness of character to the pupil, to improve the carriage and promote his personal activity, a gentleman from Paris, of high military skill and experience is employed to give instructions in MILITARY TACTICS and the excercises of the GYMNASIUM. To ensure the physical advantages of Military training and Gymnastic exercises, combined with unremitting attention to the intellectual improvement and scholastic duties of the pupil, is quite unnecessary to an intelligent public.

All the branches of a liberal education are taught on the most approved plan by the best masters, and no extra charges are made for military instruction; the use of globes, philosophical apparatus, &c; pupils, however, who join the military classes are required to have a uniform dress for review days and to furnish themselves with muskets.

P. S.—Boys boarding in the family have the advantage of two hours additional instruction in the evenings, one hour by an English and the other by a French teacher.

☞ WANTED—An additional ENGLISH TEACHER. Apply personally at No 155 Canal street. n12—3m

### INSTITUTION FOR YOUNG LADIES,

CONDUCTED BY MRS. P. ARPIN.

Nos. 197 and 199 ESPLANADE ST., BET. ST. LOUIS AND CONTI.

MRS. P. ARPIN, begs leave to inform parents that she has enlarged the local of her Institution, by adding to the house she already occupied, the adjoining one which is exclusively appropriated to the School. She is now ready to receive boarding and half-boarding pupils.

Mrs. P. A. has neglected nothing to make her Institution equal, if not superior, in every respect to any school in this city. She has obtained the assistance of a sufficient number of ladies and skilful professors; the conduct and studies of the pupils will receive the most assiduous attention, in order to insure their rapid and study progress.

INSTRUCTION.—The course of instruction, which is as complete as possible, is carried on in both the FRENCH and ENGLISH languages. It comprises READING, WRITING, GRAMMAR, ARITHMETIC, GEOGRAPHY, HISTORY, LITERATURE, the ELEMENTS of those sciences which are connected with female education, etc.

MADAME ARPIN, surpervises in person the instruction of the pupils in the rudiments of knowledge; she is seconded in the English department by a competent instructress who devotes the whole of her time to this object. The other branches of study are conducted under the guidance of MR. ORTON, Professor of English, MR. L. SIRET, Professor of French Grammar and Literature, and MR. P. ARPIN, who attends particularly to the departments of Geography, History, Sciences, etc.

ACCOMPLISHMENTS.—Particular attention is also paid to the accomplishments essential to a finished education. Instruction on the Piano is given by MME. P. BOYER, whose experience and success in teaching are fully appreciated by parents. The Harp is taught by MME. P. LAVILLEBEUVRE.

Instruction in singing by M. BROCARD, and drawing by M JAUME.

Dancing will be taught by a competent professor.

Embroidery and other needle work are acquired under the personal superintendence of the Directress.

DISCIPLINE.—During school hours, a mild and active discipline is constantly exercised over the children by the directress, aided by the efficient cooperation of two assistants. The pupils are subjected to the vigilant supervision of these ladies who will employ every means to improve their morals and correct their demeanor. In short no labor is spared to impart to the pupils and particularly, to the boarding scholars, a solid and well grounded education.

N. B.—Young Ladies who are not regular pupils, may join the Class of Literature, History and Science, conducted by MR. ARPIN. This department will embrace all the branches of knowledge which constitute a good education.

### G. BOYER'S CLASSICAL AND COMMERCIAL INSTITUTION No. 148 Conti Street,

(between Dauphine and Burgundy streets.)

THIS Institution the oldest scholastic establishment in New Orleans, is well known and highly distinguished for the success which has accompanied it ever since its foundation. A considerable number of pupils who have quitted it to enter on the great scene of life, have already acquired some distinction in the various avocations to which they have devoted themselves.

Boyer's Institution is conducted in one of the largest Mansions in the city, occupying a fine central position, being well ventilated and in other respects perfectly salubrious.

The range of studies which engage the attention of the pupils extends over all the branches of Learning which relations with society, render useful, polite and finished education; from primary instruction to the more abstruse subjects which are specially the province of a collegiate course. Discipline is necessary to quicken in the youthful mind a due perception of the duties incumbent on it in its future relations with society, is a conspicuous feature of the establishment, being at the same time severe and considerate, whilst the solicitude of the Principal regarding the moral training of the youths committed to his charge, is, though strict, yet paternal.

The English language, daily becoming more and more evident as of the greatest possible importance to all living in this community, is, in Boyer's Institution, attended to with more than ordinary care, the Professors engaged in this branch being gentlemen of undoubted attainments and long accustomed to tuition.

BRANCHES OF TUITION.

[illegible] ...performs all operations necessary for the cure of these organs.

He generally cures incipient cataracts without the necessity of an operation, but when the disease is far advanced and obstinate, he performs the operation of couching by means of an instrument which he has invented by this method the operation is infinitely safer and less painful than by any of the plans now in use.

He treats, with remarkable success, amaurosis and weakness of sight occasioned by old age, intractable diseases or arising from excesses.

Dr. Beauty attends to all chronic diseases and practises all surgical operations. He cures stammering by cutting the tendons. This operation is not painful. He cures old or recent rupture by a very slight operation which prevents the possibility of a relapse, and the inconvenient use of trusses.

Obliquities of the uterus and all diseases of this organ, will be treated by new methods.

Cancers, ulcers, fistula, retention of urine, diseases of the skin and secret disorders, will be treated by the rational method of Dr Ricord.

Consultations from 9 o'clock A M to 3 P M at No 83 Royal street, next to Conti street. n3—3m

### Dr. CULLEN'S INDIAN VEGETABLE PANACEA.

FOR the cure of Scrofulas, Kings' Evil, Cancer, Erysipelas, Old Sores, Ulcers, Tetter, Mercurial diseases or any other complaints arising from impurities of the blood—warranted to cure.

In offering this medicine to the public, the proprietors wish to avoid the common error of saying too much in its favor, preferring rather to say too little; yet, after having thoroughly tested its virtues, they feel justified in recommending it for the above named complaints, and for the cure of all distressing diseases incident to females.

So well known is Sarsaparilla as an efficient purifier of the blood, that it is only necessary to inform the public that the Panacea contains the most highly concentrated extract of that invaluable root, which can be obtained by any known process; with which are combined several other extracts, from roots, the medicinal qualities of which were made known by an Indian in the far West.

The Panacea contains no Calomel, Corrosive Sublimate, or any other Mercurial preparation, and may be taken by persons of either sex, and at any age, without the slightest danger of injuring the system.

### Dr. Cullen's Indian Vegetable Specific,

*For Leucorrhœa Communis, or Common Whites.*

This vexatious, and often dangerous disease, is unfortunately so well known among all classes of females, that a detail of its symptoms seems unnecessary.

To the patient herself, the disease manifests itself by unequivocal signs; yet from a delicacy, false, and often fatal, she frequently neglects to make known her condition, even to her most intimate female friends, till her constitution is seriously impaired, and the foundation laid for a long catalogue of other diseases, such as Slow Fever, attended with difficult respiration, Palpitations, Paintings, and Swelling of the Lower Extremities, and where the disorder is not cured, it is frequently followed by others, still more serious and fatal, such as Prolapsus or falling of the Womb, Ulcerations, Atrophy, and Dropsy, which end in death.

To enjoy good health, ALL the secretory organs must be in a sound condition.

The lachrymal gland would scarcely depart farther from its office were it to pour forth bloody tears, than do the uterine organs when secreting the fluid which gives its name to the disease in question. Whenever, then, the disease manifests itself, let the patient have immediate recourse to a remedy which will restore the diseased organs to a healthy condition, and all the distressing symptoms will speedily disappear, and the death like pallor of the cheek be succeeded by the roseate hue of health.

Such a remedy may be found in "Cullen's Specific." It is not only a pleasant, safe, and certain remedy for Leucorrhœa, but for suppressions and painful menstruations. In truth, it is what its name indicates, a "Specific" for all uterine diseases, and at the same time entirely free from all ingredients which have in any degree an injurious effect upon the system.

This preparation is made of vegetable substances and cannot possibly injure the most delicate constitution. It has never been known to fail in a single case to effect a cure.

### RASPAIL'S MODE OF TREATING DISEASES.

FOR sometime past, Doct G SOUTERRE has been solicited by a large number of respectable individuals to treat diseases on the system of Doctor Raspail. At first he refused, either because he was unwilling to separate from his medical brethren, or because he was unacquainted with the system, and would be obliged to study it profoundly, before he commenced so difficult a task. Unwilling, however, that he should be supposed to entertain a personal repugnance to the system of Raspail, he tried the mode of treatment and is so quickly forced to yield to evidence. In a short time his patients ordinary success, and now that experience has shewn that the system is not utopian, as the enemies proclaimed it to be, he will hesitate to announce to the public that he will treat in future by it all persons who may desire it.

Dr. Souterre engages to treat patients according to this system only, without any mixture of other methods, and at the same time, he will be ready to use the method which he has hitherto followed, upon patients who may desire to be treated by the method of Dr. Raspail.

Doctor Souterre may be consulted every day, from 10 till 12 o'clock in the forenoon, and from 2 till 4 in the afternoon. On Sundays and holidays he cannot be consulted in the afternoon.

Dr S will visit patients who may send for him.

Dr S resides in Main street, between Bourbon and Dauphine streets.

The price of a consultation is invariably fixed at from 2 to 5 dollars, according to the matter and duration of the malady. This method is adopted by Dr Souterre, in order to avoid all disagreeable discussions.

Advice given to the poor gratis. n11
