COMMERCIAL.

OFFICE OF THE BEE, Friday Evening, October 9, 1857.

The Exchange and Money markets continue in very depressed condition, and business generally has been on a limited scale during the past week. Cotton has further declined, with but few buyers at the reduced rates, and Tobacco, Flour, Grain and Provisions have all been dull, though in these no important changes in prices have taken place. In Freights only a moderate business has been done, at previous rates, while Exchange, in moderate amounts, has been nearly unsaleable on any terms. We yesterday morning published the Niagara's advices, embracing Liverpool dates to the 26th ult. They reported the Cotton market dull and drooping, with sales of only 30,000 bales during the week, including 4,500 for speculation, the market closing on a slight decline for all qualities. The Havre *tres ordinaire* Orleans was quoted at 126 francs.

COTTON.—Arrived since the 2d instant, 36,829 bales. Cleared in the same time 5,261 bales for Liverpool, 150 for Havre, 1,922 for Bremen, 2,681 for Queenstown, and 27 bales for Boston; making an addition to stock of 26,379 bales, and leaving on hand, including all on shipboard and in the presses and pickeries not cleared, a stock of 93,636 bales.

The market opened on Saturday with a moderate demand, and some 3500 bales were sold at prices in favor of buyers, but on Monday, with no movement in Exchange, the business fell off to 1200 bales, although lists were offered at a considerable reduction from our previous figures—say about 13⅛@13⅜c for Low Middling to Strict Middling. On Tuesday and Wednesday together, only 4500 bales changed hands at irregular and still easier prices, mostly on a basis of about 13½c for Middling, and yesterday's sales were confined to some 2500 bales, the rates being irregular, but showing a further decline. To-day again the transactions reach barely 1000 bales, making a total for the week of 12,700 bales. The market at the close may be quoted at 12c for Middling, though we cannot give general quotations.

TOBACCO.—There has been very little inquiry during the week, and we have heard of only about 150 hhds sold on private terms. Our quotations are nominal, as before:

Factory Lugs, 7@9; Planters' do, 9¼@10¼; Leaf, inferior to Common, 10¼@12¼; Fair, 13@13½; Fine, 14@15c; Choice and Selections, 15½@18c ℔ ℔.

Arrived since the 2d instant, 34 hhds. Cleared in the same time for Havre 990, Marseilles 758, and Bremen 268 hhds; together, 2011 hhds. Stock in warehouses and on shipboard not cleared, 9,677 hhds.

DAY AND BOARDING SCHOOL FOR YOUNG LADIES,

UNDER THE DIRECTION OF

MADAM CHARPAUX,

At the corner of Esplanade and Claiborne streets.

THIS SEMINARY, whose existence dates some six years back, has met with a success that proves, beyond all cavil, the capacity of those who have charge of it.

Determined to merit the confidence of parents, Mad. Charpaux will spare no pains to make her seminary equal to the best institutions of the kind in New Orleans, and in order to do this, she has employed the ablest teachers.

Madam Charpaux has purchased a large and airy edifice on one of the highest pieces of ground in the city, and the better to consult the health of her pupils, she has had spacious and elevated apartments built on purpose for school and sleeping rooms, through which there will be a constant circulation of air from many windows.

Great attention will be paid to the improvement of scholars in the English language. For this purpose, American ladies of acknowledged capacity, as teachers, will constantly reside in the Seminary.

The English, French and Spanish languages, geography, arithmetic, and in short all the branches of a polite education, will be taught in the Seminary.

As religion should be the foundation of all sound education, it will be carefully attended to by Madam Charpaux, who will conduct to church and preliminary catechisms all her young ladies who may have their first communion to make.

Music having become a most desirable branch of the education of young ladies, Mr. Charpaux, from the best musical school in Paris, and ex-artist of the Orleans Theatre, will devote all his time to teaching music. All the Scholars, besides their regular lessons, will practice daily under the eyes of the professor. The study of the notes will precede the performances, when Mr. Charpaux will put the pupils through the execution of the regular keys and notes, and this will be attended with no extra charge.

In order to kindle emulation among the pupils, and improve their singing, on the morning of the last Saturday in every month there will be a musical examination and a distribution of rewards.

Madam Charpaux, in order to complete the education of her scholars, has opened a class where will be taught all the useful and ornamental branches of needle work.

During the summer the classes will open at 8 o'clock, and close at 3. Re-open at 4 and close at 6 o'clock, P. M. In winter, they will open at 8½, and close at 3. Re open at 4½ and close at 5 o'clock, P. M.

DAY AND BOARDING SCHOOL.

UNDER THE DIRECTION OF

MADAME PARENT.

Corner of Rampart and Du Maine streets.

THIS Institution occupies one of the best locations in the city with respect to health and many other important advantages. The building is magnificent, the apartments are vast and well ventilated, and are particularly well adapted for classes.

There are four fine dormitories with dressing cabinets; also spacious galleries all through the house; a splendid terrace commanding a most beautiful view of the city as far as the Lake.

The best advantages are offered to parents, as to the moral and intellectual cultivation of the minds of their daughters.

Madame Parent is always present with her pupils, she teaches during the hours of class, and superintends the different divisions. There is an ample number of the best professors employed, besides ladies residing in the institution.

Every branch of a solid and refined education is taught in both languages, all accomplishments, such as Drawing, Painting, Dancing and Embroidery, &c.

The Musical department is conducted by the most competent and acknowledged talents in the city.

It would be superfluous to say anything respecting the special attention that is paid to the English, it being Madame Parent's native language. The best guarantee that she can give to the public is that the French young ladies who have been educated by her speak it as fluently as their mother tongue.

Mr. Curto, the celebrated musician, will superintend the vocal department.

For terms, apply at the Institution, where prospectuses can be obtained.

YOUNG LADIES residing at a distance in the different Districts, will be conveyed gratis to and from the institution. o26

MAGNETISM.

M'ME ALLUARD,

FRENCH SOMNAMBULIST,

No. 321, Bourbon Street, Between Ursulines and Hospital.

TREATMENT of all kinds of chronic diseases which ordinary remedies have failed to cure, and especially of desperate cases of nervous affections.

M'me Alluard, for many years under the direction of Dr. Pouyard, in France, may be consulted at her residence and calls on patients whenever her services are required.

The direct application of magnetism by Mr. Alluard, assisted by M'me Alluard, has been followed by numerous cures; the fact is unquestionable. Out of a thousand cases of nervous diseases, eight hundred at least are almost instantly cured by this extraordinary Somnambulist; sufferers should hasten therefore to avail themselves of M'me Alluard's services.

The New Orleans Press have often recorded the radical cure of cases of seventeen years' standing. The "Louisiana Courier," the "Daily Crescent," the "Delta," "True Delta," "National" and "Bee," published in 1855 and 1856, letters from well-known and highly respectable persons, whose testimony cannot be doubted, tendering their heartfelt thanks to M'me Alluard, and fully acknowledging her wonderful success.

The same papers also spoke very highly of the surprising magnetic experiments by M'me Alluard, under the direction of her husband. See the *Courier* of December 17th, 1855, the *Bee* of November 27th, 1854, and the *Crescent* of May 29th, 1855.

It is to be regretted that all the cures effected by M'me Alluard cannot here be stated, but the nature of certain diseases renders this course necessary. The fact, however, is now acknowledged that patients can be permanently cured by M'me Alluard.

A Somnambulist offering such guarantee as these, and who has constantly been successful, is certainly entitled to the confidence of those whom ordinary remedies have failed to cure. Those remedies are powerless in cases of nervous diseases, which are cured by magnetism, as are also in cases of epilepsy, hysteria, fever and ague, bilious and brain fevers, typhoid and malignant fevers, yellow fever, headaches, heartburns, cramp in the stomach, gastritis, gastralgy, palpitation of the heart, fainting, liver complaint, spleen, jaundice, colics, diarrhœa, costiveness, hemorrhoids, hemorrhage, spitting of blood, giddiness, falling of the womb, suppression of the menses, humors in the breast, consumption, pulmonary catarrh, cutaneous diseases, tetters, itch, wounds, sores, rheumatism, deafness, ophthalmy, inflammation of the eyelids, dislocations, sprains, tapeworm and other worms, &c.

The above diseases are daily cured with the greatest ease by M'me Alluard, and the public is informed that she is the ONLY SOMNAMBULIST who can so, notwithstanding the complete exclusion of light.

Persons desirous of witnessing this phenomenon are invited to call at the residence of M'me A., and agree on the time for magnetic experiments. No one will be deceived.

Admittance, 50 cents.
M'me Alluard may be consulted daily.

A CARD.

C. DUHAMEL,

OPTICIAN and MANUFACTURER, No. 60 CHARTRES STREET, a resident of the city for upwards of sixteen years, well known in this and the neighboring States for the quality of his Spectacle Glasses, Optical instruments and others, an extensive assortment of which he has constantly on hand, hopes he has deserved, by a long experience in the line, the confidence of his customers and of the public. The testimony of almost all the distinguished families and most widely known savants in the country would be given in his favor, if called for, but he prefers stating merely the following facts:

Mr. C. DUHAMEL offers to persons in want of Spectacles, Rock Crystal, Periscopic Glasses, (Wolaston pebbles) the best that can be manufactured, at $4 a pair, without the frame. The quality of these Glasses, called, by some, SCOTCH PEBBLES, BRAZILIAN PEBBLES, ARKANSAS PEBBLES, &c., does not vary according to the country whence they come, but according to the purity and clearness of the stone whence they are drawn—to the regularity of the curve and the finish imparted to them by a skilful artist. In this respect, Duhamel's glasses are inferior to no other glasses.

The prices are invariably as follows:

A pair of rock crystal glasses, with frame
Gold frame, $12 to 22.
Steel frame, $4 to 8.
Silver frame, $6 to 10.
The glasses only, $4.

Fine ordinary spectacle glasses, $1 a pair.
Fine Periscopic glasses, concave and convex, 1 50 a pair.
A pair of steel spectacles, with fine ordinary glasses, $1 50 to 3 50 a pair, according to the quality of the frame.
A pair of gold spectacles, with fine ordinary glasses, $7 to 16.
All fancy spectacle frames are offered on very moderate terms.

Mr. D. begs leave to remark that, in his opinion, and in the opinion of many competent and experienced persons in the line, rock crystal glasses are superior in one respect only to fine glasses properly manufactured. They are harder, and their surface remains smooth much longer, but are not better than others as far as the preservation of the sight is concerned.

Mr. D. is agent for Desbordes' Steam gaugers. Owners of steam workshops and others are invited to try them; they are perfect in every respect, and are offered on reasonable terms.

Also on hand, the following, and many other instruments:

Theodolites; Surveyors' Compasses; Levels; Pocket Compasses; Graphometers; Transits and other Mathematical Instruments; Telescopes; Barometers; Thermometers; Liquor Gaugers; Sulphite Gaugers; Hygrometers; Weights and Scales; Microscopes; Polyoramas; Dioramas; Stereoscopes; Views, &c. for Magic Lanterns; Pantomaic; Electric; and Electro-magnetic Instruments; Phantasmagorias, and a large assortment of double Opera Glasses. dec16

Notice to the Ladies.

ANTEPHELIC MILK.

TEN THOUSAND FLASKS RECEIVED IN TOWN.

No More Wrinkles! No More Freckles! Preservation and Regeneration of the Skin and the Complexion.

ANTEPHELIC MILK, so advantageously known, is employed in France principally for the treatment of the face against freckles, which were said to be indelible. The prejudice no longer exists. Eight years of constantly increasing success has proved that the Antephelic Milk has not yet once caused a pimple or freckle, a blotch or spot appearing during gestation, which has not at once given way to its application, externally only, and left the clearest and smoothest complexion.

Antephelic Milk is not only an infallible specific against the affections above stated, but, mixed with water, and employed a quarter of an hour before the morning ablutions, it purifies the skin, without irritating or altering it; gives tone to the coloring, develops all sorts of pimples and roughness of the skin, prevents the return of freckles, chaps, etc., and preserves the formation of early wrinkles; and by its specific action, gives to the skin and preserves for it the proper freshness of color.

A single flask will suffice to give to the skin all the appearance of youthfulness, which may be indefinitely maintained, by taking use of the preparation in the manner indicated in the prospectus.

P. S. The Fragrant Vegetable Powder of the same maker completes the toilette of ladies who desire to preserve their beauty.
