Prof. A C Barron's Tricopherous,

OR MEDICATED COMPOUND.

INFALLIBLE for cleansing, preserving and beautifying the hair, removing the scurf dandruff, and all affections of the scalp, and curing eruptions of the skin, diseases of the glands, nurses and invigoratents, and relieving stings, cuts, bruises, sprains, &c. With this preparation there is no such word as "bald." The first journals in America, medical men of the highest eminence, prominent citizens of all professions, and ladies who have used it for years in their dressing rooms and boudoirs, admit with one accord, that for imparting vigor, gloss, luxuriance and curl to the hair, eradicating scurf and dandruff, preventing premature baldness, eruptions, sprains, stings, &c., and relieving diseases of the skin, the glands and the muscles, it has no equal among the multitude of compounds advertised in the public prints, or used in private practice. In cleanliness as well as efficacy, Barry's Tricopherous is unrivalled. The immense cash sales of the article have enabled the inventor to supply it at retail, at 25 cents per bottle, which is from 50 to 100 per cent less than the price of any other preparation for the hair now in use. The scientific treatise on the hair and the skin, (embracing valuable directions for the nature and preservation of Nature's choicest ornament,) in which each bottle is enclosed, is alone worth the money.

The affinity between the membranes which constitute the skin, and the hair, which draws its sustenance from this triple envelope, is very close. All diseases of the hair originate in the skin of the head. If the pores of the scalp are clogged, or if the blood and other fluids do not circulate freely through the small vessels which feed the roots with nourishment, and import life to the fibres, the result is scurf, dandruff, shedding of the hair, graveness, dryness and harshness of the ligaments, and entire baldness, as the case may be. Stimulate the skin to healthful action with the Tricopherous, and the torpid vessels, recovering their activity, will annihilate the diseases in all affections of the skin, and of the substratum of muscles and integuments, the process and the effect are the same. It is upon the skin, the muscular fibre, and the glands, that the Tricopherous has its specific action, and in all affections and injury of the organs it is a sovereign remedy.

Sold in large bottles, price 25 cents, at the principal office, 137 Broadway, New York; and by the principal Merchants and Druggists throughout the United States and Canada. jan13-3m

Southern Mutual Life Insurance Company of Louisiana.

Life Insurance Exclusively.

EXTRA GUARANTEE FUND $50,000.
ACCUMULATIVE CAPITAL $300,000.

PARENT OFFICE, NO. 48 CAMP ST., *New Orleans.*

THIS COMPANY is now ready to make Insurance on White Persons and Slaves, at their established rates of premium. This being the only company incorporated in the State confined exclusively to Life Insurance, with an extra Guarantee Fund, the Directors feel confident that it affords unusual and much greater inducements to those desirous of effecting an insurance on their lives than any other.

It is also upon the Mutual principle; each person insured becoming a member thereof and enjoying a portion of its profits, being entirely exempt from any liability beyond the amount of premium received.

Insurance companies organized upon the mutual principle are generally successful, more especially those of a character like this, which are based upon calculations warranted correct by long experience and close scrutiny, but the stability and success of this Company is placed beyond a contingency, by the advantageous arrangement she has made for an undoubted guarantee fund of 50,000 dollars, to be added to the accumulations of premiums, to mutual insurance comp. nies always are, by insurance.

This extra guarantee fund of 50,000 dollars is moreover permanent until the Company has accumulated a similar amount to take its place.

California permits granted, and extensive travelling privileges allowed.
