SUNDRIES.

SIR ASTLEY COOPER, BART., M. D., THE EMINENT BRITISH PHYSICIAN, HAS LEFT A VALUABLE LEGACY TO THE WORLD IN HIS

Great Preservative of Conception,

Vitalizing Cure for Fever and Ague,

WITHOUT THE USE OF MEDICINE.

St. A. C. Bart., invented and obtained the use of the

MEDICATED FOR CHEST PROTECTOR,

to all persons of all ages and conditions, as a certain and a safe shield against these fearful diseases, Consumption, Bronchitis, Asthma, Colds, and other affections of the Lungs, which arise from the exposed state of the chest, according to fashion, and the continual change of our climate.

"The Protector" is simply a chemically prepared fur, lined with silk and padded, which, compacted from the neck, covers the chest, in so agreeable a manner that, once worn, it becomes a necessary and comfort.

"The Protector," although but recently introduced into America, is making rapid progress through the United States, the Canadas, South America, and the West Indies. It has for a long time been a popular article in England and on the continent of Europe, while it has grown in many countries to the position of an article of dress.

To demonstrate the truth of these facts, enquire of any English resident in your vicinity of his knowledge of the beneficial effect of wearing the Protector, whereupon RECOURSE to testimonials of any kind. The cost of wearing these articles is a mere trifle, and one will last some years, to the one who values the health of himself or his family will be without them. The Hospitals in this country are not alone recommending them, but rapidly introducing them. Hospital, Bradley & Co., of London and Manchester, England, were originally entrusted with the manufacture of the Protector, by the learned Dr. Cooper, and continue to manufacture according to his original instructions, and therefore recommend those who would wear "The Protectors" to see to their genuine.

REMEMBER THIS IS A STAPLE ARTICLE, AND NO PATENT MEDICINE.

RETAIL PRICES:

Gent's Size	$1 50 each.
Ladies' do	1 00 do.
Boys and Misses' Size	75 do.

HARCOURT, BRADLEY & CO.,
36 Ann street and 109 Nassau street,

BY ROYAL LETTERS PATENT.

THE HYDROMAGEN,

OR

WATERPROOF, ANTI-CONSUMPTIVE

COAT OF MAIL.

MANUFACTURED BY

HARCOURT, BRADLEY & CO.,

44 MARKET ST., MANCHESTER.

Principal Warehouse, 108 West Street, Cheapside London, and United States Establishments, 36 Ann street, and 109 Nassau street, New York, U. S.

THE HYDROMAGEN is recommended for protecting the breast from damp or cold, and therefore a certain preventative of many Lung diseases, *without any doctoring whatever.* The Hydromagen is in the form of a shield, and worn inside the boot or shoe, its medicated character is a powerful antidote to disease.

Let gentlemen, it will be found agreeable, warm, and healthy, to wear the Hydromagen, and let ladies, who cannot become wet if the Hydromagen is worn, they may wear the lightest soled boots or shoes in the most inclement weather with impunity; where Consumption, so prevalent among the young of our country, is the result, followed by their general adoption, they entirely *supersede* everything else, the latter cause the feet to perspire in a very unhealthy manner, and, from the porous nature of the leather, in cold or damp weather, the feet are the first parts of the body to become cold, and, in consequence, the latter cause the feet to perspire extremely large, the Hydromagen, being in reality thin slice of cork prepared peculiarly placed between the upper and sole of the boot, or cause the feet to appear unduly. To Children they are extremely valuable, as they may engage in exercise without fear of their feet being wet. Their expense is sought as to secure a most healthy effect. Their expense is sought as to secure a most healthy effect. Their expense is sought as to secure a most healthy effect
