BLANCHARD, [illegible] Surgeon Dentist of the Faculty of Paris, [illegible] has the honor to inform the public, [illegible] teeth, [illegible] which consists of restoring the teeth to soundness and preventing [illegible] decayed teeth. [illegible] in the composition of the cement [illegible] which it is properties are such that any one may in a few minutes hermetically plug any one of his own teeth. This cement, sold at first, solid in the course of an hour quite hard in three hours, becomes in a few days as hard as the teeth themselves. When once placed in the decayed tooth, it is hard beyond escape, and of the same color as the tooth, which when plugged, lasts a long while, and can be employed in filling a [illegible] of unsound teeth. The operation causes no pain and is over in a few minutes.

Dr. Blanchard will undertake the plugging of teeth, or after ordered, the cement may be purchased from him, as it can be inserted by the sufferer himself. This offers a [illegible]

DR. WATSON'S OFFICE.
OF the diseases to which we are all liable there is one of a certain description, which those who suffer from desire to have treated in a manner as private as possible.—This advertisement, therefore, is written to inform those who are affected with the complaint, that they can find an office at 113 Customhouse street retained to receive them, where a physician is in constant attendance. This method of rendering his services Doctor Watson has taken, because he very well knows how many there are who when they become unwell, are much at a loss where to apply to. They do not wish to mention it to their friends, and they know that such physicians as attend almost entirely to the practice among families have little or no experience in the management of such affections as theirs. And indeed, Doctor Watson has so frequently been informed by patients themselves how much pleased they were to have found his address that he no longer has any doubt how useful it is to advertise the public in this manner, at what place they may find a physician to undertake the treatment of the disease they suffer from which many years experience and study, has made himself master of it, as well as by attending to it in his practice.

Doctor Watson has had to call upon him three eight or nine years, and at great many, the whom a debility of a [illegible] kind had been brought on from different causes. What these causes are is not necessary to be [illegible] themselves, and what is the debility alluded to; whether a want of sufficient vigor, excess of irritability, wasting, or other conditions of the parts. But it is enough to mention that whatever the cause may be, or whatever the effect, Doctor Watson has had enough of experience to promise with the confidence of his patients.

The office is very conveniently situated, having separate entrances, and being so arranged that patients never meet one another—in fact, so much secrecy may be observed as the case requires; and as to the confidence that may be reposed in the doctor himself, there need not any thing be said of that.
DOCTOR WATSON, No. 113 Customhouse st.
Office open from 7 in the morning until 9 at night.
