WILLIAM W. THOMPSON'S PATENT IMPROVED *LEADEN PIPES.*

THE manufacturer, residing in St. Louis, Missouri, invites the attention to the excellence of his leaden pipes made by a new and patent process, (to which he has the exclusive right to the entire district of country west and south-west of the Allegheny Mountains,) of a better quality than can be produced by any other known method.

The patent pipe is remarkable for its uniformity of thickness, the accuracy of the bore, the perfect polish of the interior surfaces, the absence of seams and flaws, the very long length without joint, for its unusual strength.—These advantages will be evident to any body upon examination.

Besides his usual sizes from one-eighth to five inch in bore, he manufactures also, for the use of farmers and others, very light leaden pipes for conducting water from spring at long distances under slight pressure or head of water, and for other purposes.

NO. 280 BOURBON STREET
Between St Philip and Maine

MESSRS. DUPERRON & DELCAMBRE, have the honour to inform the planters of St Charles, St John the Baptist, Donaldson, Lafourche, the Attakapas, &c. that Dr. E. Delcambre will pass through these places in the course of the sickly season, with the intention of exercising his profession. Messrs. O. Duperron & E. Delcambre, who are in the habit of warranting their operations, inform those persons who may honor Mr. Delcambre with their confidence, that if they have any fault to find, their establishment, which is permanently fixed at New Orleans, will be promptly opened to them. All those requiring dental operations may, with perfect confidence, apply to Mr. E. Delcambre, more especially for the insertion of artificial teeth, from a single one to an entire set, which he accomplishes by a new process that ensures its complete success.

DR BLANCHARD—Ex DENTIST to their Majesties the King and Queen of France, the Princes and Princesses, Surgeon-Dentist to the faculty of Medicine of Paris, and of New Orleans;

Fixes natural teeth, without the least pain, in imitation perfectly natural, from one tooth to a complete set;

Directs the second teething of children, and corrects any deviation in their teeth;

He has had long experience, minute and constant practise, in France and America, in the dentist art, and all that relates to its operations, preserving at once the mouth and the teeth;

He possesses a gum-cement, which repairs ravages effected by decay, of the same color of teeth, and which is the most precious substance that has yet been employed—none other can, at this time, plumb the teeth so hermetically as this;

The operation is made without any pain, and is achieved in a few minutes.

Recently invented for the Teeth.

Or tinfoil, without mixture, the most malleable and most perfect ordinarily employed.

A New Fusible (calle (platina) to plumb the teeth;

INVALUABLE REMEDY FOR DISEASES OF THE CHEST.—Pectoral Syrup and paste of Calve's lights, by Degenetais, Druggist and Chemist at Paris &c.

Of all the preparations intended to cure diseases of the chest, none has obtained so brilliant a success as the Pectoral Paste above indicated.

This Paste immediately removes all irritations of the breast, facilitates expectoration, instantaneously assuages paroxysms of coughing, saves a hooping cough. Catarrhs and inveterate cold yield immediately under its influence, in a word it is a most prompt and effectual remedy for acute and chronic affections of the chest and air passages

Be cautious not to confound Degenetais' Paste with that of Iceland Moss.

The Paste and Syrup of Calves Lights may be found all the Druggists in New Orleans. General depot for whole sale at J. Tardos, No 319 Royal street, whose signature is affixed to every box. f5 1y

ODONTALGIC EXTRACT
B. F. SMITH,
No 110 St. Charles street,

CONTINUES to relieve the most violent TOOTHACHS in a few moments, and at the same time entirely destroy the nerve in less than 24 hours, and that without pain. The public should be aware, however, that this remedy is not offered as a Universal Panacea, it being only successful when the pain proceeds from an exposure of the internal membrane or nerve.

For the truth of the above statement, the sceptical are referred to the following highly respectable gentlemen, most of whom can speak from their own experience.

Rev. W. A. Scott, Dr. W. H. Tongarden
J W Stanton, J. E. Generelly,
C. P. Young, O. W. Tobin,
F. Morton Quirk, W. H. Wheaton,
H. Williams, W. G. Latham,
E. B. Orsborne, D. Flannery,
H. Page, L. Morehead,
W. Nigelsen,

By first destroying the nerve with this remedy, the excruciating pain frequently caused by inserting pivot teeth upon the old method, is entirely avoided. All other operations carefully performed. m3
