TARRANT'S CORDIAL ELIXIR OF TURKEY RHUBARB

FOR THE CURE OF DYSPEPSIA OR INDIGESTION, BILIOUS AND NERVOUS HEADACHE, CONSTIPATION, DIARRHŒA, GOUT, RHEUMATISM, GRAVEL FLATULENCY, &c.

THIS PREPARATION is made from the best Turkey Rhubarb, and possesses all its valuable properties, combined with such aromatics as will be found materially to assist in its operation, and is thereby rendered an exceedingly useful medicine in a variety of affections where a cordial aperient is deemed requisite.

As a medicine, Rhubarb (the Turkey) has for a considerable period held a high place in the medical world, and has therefore proved itself eminently deserving its great reputation, through the valuable properties universally conceded to be peculiar to it, when procured in its pure state.

In cases of Dyspepsia or Indigestion, it is an invaluable remedy; and as a preventive of the various diseases arising from that very disagreeable complaint, holds a high place in the estimation of the medical profession.

In cases where griping pains affect the stomach and bowels, this preparation is strongly recommended, whilst it also will be found a good carminative in relieving Flatulency. To persons afflicted with Gout, (and it has enjoyed high praise from those who have used it for its great and good qualities,) it is confidently offered, as it can at all times be taken when a cooling purgative would otherwise be attended with danger.

This preparation cannot be too strongly recommended to the many thousands who are suffering from Dyspepsia or Indigestion, and its consequences, Bilious and Nervous Headache, Diarrhœa, Constipation, Gout Rheumatism, Flatulency, Gravel, &c., as the utmost reliance can be placed on it, both as to its innocent nature and highly curative qualities.

Prepared and sold wholesale and retail, by JAMES TARRANT, Druggist, &c., corner of Greenwich and Warren sts., New York.

ALSO, by SICKLES & Co, Wholesale Druggists and Apothecaries, No. 40 Canal and 24 Magazine sts., Agents for the Proprietor.

SANCTIONED AND PATRONIZED BY THE MOST EMINENT OF THE MEDICAL PROFESSION.

By merely pouring water on a tea-spoonful of this Aperient, a cooling and grateful effervescing beverage is obtained, resembling Soda Water, to the taste, and imparting to the constitution all the benefits of the celebrated Seltzer Waters of Germany.

TARRANT'S EFFERVESCENT

SELTZER APERIENT.

"Of all prescriptions made up with a view to alterative effect, none can be compared with Mineral Waters."—Jones Bell, M. D., F. P., &c.

"These waters revive the languishing circulation, give a new direction to the vital energies—re-establish the perspiratory action of the skin bring back to their physiological type the vitiated or arrested secretions, provoke salutary evacuation, either by urine or stool, or by transpiration; they bring about in the animal economy an intimate transmutation—a profound change."—Patissier.

MEDICAL MEN of eminence commend in the highest terms the preparation known as "Tarrant's Effervescent Seltzer Aperient." Could the numerous flattering testimonials which its successful and valuable medicinal powers have elicited from the most distinguished Physicians be here submitted for inspection or would the columns of a newspaper permit their insertion, proofs of its efficacy Unsurpassed and Unimpeachable would be exhibited, to satisfy the incredulous and dispel the doubt of even the most sceptical, and it would stand forth to the world in triumphal success, (as in truth is) the most agreeable, refreshing and effectual medicine ever offered for the cure of those diseases which are engendered under the heat of a Tropical Sun. In the practice of Physicians, this Aperient has entirely superceded the Seidlitz Powders on account of its superior medicinal properties—its mild though sure effect upon the system—its agreeable flavor and the certainty of its positive preservation from dampness. The ease and quickness with which the Seltzer Aperient may be prepared—its delightful effervescence and gentle action upon the bowels are qualities which likewise claim for it a superiority and must without fail, enlist in its favor the friendship and patronage of all who have ever tested the beneficial operation of this deservedly celebrated Aperient. The unanimity with which medical men join in its praise, is a sure guarantee that it is deserving of the character they have given it in the numerous testimonials received by the proprietor.

Its success in Bilious Affections, Dyspepsia or Indigestion, Heartburn, Febrile Disorders, Gout, Acidity of the Stomach, &c., and all the various complaints caused by the sudden changes of temperature, so usual in warm latitudes has been so great, that it has been highly recommended, and has in consequence been generally prescribed, and the most satisfactory results have invariably followed. In a torpid state of the Liver, its action upon the system has been so beneficial that its energies have been revived and its healthy tone restored.

Planters and residents at a distance from medical advice, would find the Seltzer Aperient so useful and in fact an indispensable addition to their medicine chest, and would obtain by its introduction into their families, a remedy possessing high medicinal properties and which would in the various ailments natural to our climate exert a salutary influence upon the system debilitated by the intense heat and restore the languishing circulation to an active and healthy condition. Its virtues have been found wholly unimpaired even on shipboard, and have they been sustained in any climate to which it has been sent. This is a valuable property and deserves the careful notice and attention of travellers and others.

In the Seltzer Aperient, such improvements have been made as are calculated to increase its efficacy by the addition to greater quantity of those ingredients which impregnate the original spring, and which are esteemed the most valuable, and the rejection of those which have been found unnecessary or injurious to their tendency; hereby in the opinion of intelligent Physicians rendering the preparation superior or more health restoring than the natural waters.

PROCLAMATION,

BY ALEXANDER MOUTON,
Governor of the State of Louisiana.

EXECUTIVE OFFICE.
New Orleans, May 29th, 1845.

WHEREAS, the State Convention lately assembled in the city of New Orleans, for the purpose of re-adopting, amending or changing the Constitution of the State, has ordered that "the Governor shall issue his proclamation, directing the several officers of the State, authorized by law to hold elections for members of the General Assembly, to open and hold a poll in every parish in the State at the places designated by law, upon the first Monday of November next, for the purpose of taking the sense of the good people of this State in regard to the adoption or rejection of this Constitution; and it shall be duty of said officers to receive the votes of all persons entitled to vote under the old Constitution and under this Constitution. Each voter shall express his opinion by depositing in the ballot box, a ticket whereon shall be written "the Constitution accepted" or, "the Constitution rejected" or some such words as will distinctly convey the intention of the voter. At the conclusion of the said election, which shall be conducted in every respect as the General State Election is now conducted, the Parish Judges and Commissioners designated to preside over the same, shall carefully examine and count each ballot so deposited, and shall forthwith make due return thereof to the Secretary of State, in conformity to the provisions of existing laws upon the subject of elections."

Now therefore, I have thought proper to issue this my proclamation, notifying the qualified electors throughout the State of the premises aforesaid, and commanding all the Parish Judges, Commissioners and other officers therein concerned to hold the polls to assemble and vote for the acceptance or rejection of the Constitution, upon the third day of November next, being the first Monday of said month, and cause the same to be conducted and due returns thereof to be made in the manner and within the time prescribed by law and the aforesaid ordinance.

Creole Table Mustard.

PREPARED BY LARROQUE.

THIS Mustard is, both to taste and odor, of the most pleasant kind, and has over all other preparations of the sort an indisputable superiority. In the first place it is in no way heating, which is a very just cause of complaint in other table mustard. 2d—It stimulates the appetite. 3d—This preparation does not contain any ingredient capable of neutralizing constituent parts of the mustard seed, (Sinapis Nigra) which most of the manufacturers are ignorant of and put scruples aside to employ ingredients, a very strong acids and the most alkaline salts, however so as to destroy [illegible] essential oil [illegible] which is extracted and made by [illegible] powder as an artificial taste by adding to it [illegible] of ammoniac and strongly spiced substances. [illegible] the same an inspection is sufficient. [illegible] [illegible] the throat and palate, whilst the taste of the genuine article is almost as soon effervescent.

That neither of said stockholders, or their successors in said company, shall be liable for any greater loss or damage in the aforesaid company, than the amount of the capital stock holden by him.

Lake Side Education.

DR. [illegible], Principal of the POLYTECHNIC School, 183 Canal Street, respectfully announces to parents who may wish their sons to enjoy the benefit of change of air for a short time, and most healthy as all bodily exercise, BATHING with no termination to the school pursuits, that he proposes removing about the middle of June, to Lewisburg, a high yet salubrious spot on the margin of the Lake, where he will conduct all the exercises of his school with every advantage, and the benefits of a salubrious air, which will be paid to their health, comfort and literary improvement. As the intimate connexion of our mental and physical constitution renders the due refreshment of the latter, essential to the vigor of the former, the plan of removing for a short time to the country, cannot fail to meet the approbation of parents and guardians of youth; and Lewisburg is well known as a remarkably healthy position. [illegible] [illegible] abundance, from a pure and beautiful spring near the premises; the place and neighborhood being such as to [illegible] the delightful location [illegible] [illegible] during the short space of two hours' boat, however, of Dr Macaulay's pupils are to be attended with the institution, Canal street, as it will be left during his brief absence in charge of Teachers who will attend to the duties.

The Polytechnic School is now INCORPORATED and the fact that the Legislature has granted the power to confer after due examination, the degrees of Bachelor of Arts and Master of Arts, will doubtless induce the pursuit of an institution highly favorable to the acquisition of that sound literature, which it is the object of this institution to impart.

N. B.—A careful superintendent will attend the Young Gentlemen when bathing.

G. BOYER'S
CLASSICAL AND COMMERCIAL INSTITUTION,
No 148 CONTI STREET,
(between Dauphine and Burgundy streets.)

THIS Institution, the oldest scholastic establishment in New Orleans, is well known and highly distinguished for the success which has accompanied it ever since its foundation, a considerable number of pupils who have quitted it to enter on the great scene of life, having already acquired some distinction in the various avocations to which they have devoted themselves.

Boyer's Institution is conducted in one of the largest Mansions in the city, occupying a fine central position being well ventilated and in other respects perfectly salubrious.

The range of studies which engage the attention of the pupils extends over all the branches of Learning which are necessary to a useful, polite and finished education; from primary instruction to the more abstruse subjects which are specially the province of a collegiate course—no discipline so necessary to quicken in the youthful mind a due perception of the duties incumbent on it in its future relation with society, is a conspicuous feature of the establishment, being at the same time severe and considerate, whilst the solicitude of the Principal regarding the moral training of the youths committed to his charge is, though strict, yet paternal.

The English language, daily becoming more and more evidently as of the greatest possible importance to all living in this community, is, in Boyer's Institution, attended to with a more than ordinary care, the Professors engaged in this branch being gentlemen of undoubted attainments and long accustomed to Tuition.

BRANCHES OF TUITION:

The English, French, Spanish and Latin Languages; History, Geography, Mathematics, Elements of Natural Philosophy, Astronomy, &c. &c.

TERMS:

Boarders	$30	per month.
Half Boarders	16	"
Day Scholars	5	and 10 per month

No deduction is made for absence. A month once commenced must be paid in full. Books, paper, &c. form a separate charge. d10
