ANTIPHELIC MILKY.

The only unquestionably effectious article.

NO MORE WRINKLES! NO MORE FRECKLES

This delicate and inimitable preparation is recommended by the Faculty as the most perfect and harmless article for the Toilet, unknown previously, being the only Milk, or Lotion, which any person can use with perfect safety, which may be used in any climate, and which will not injure the most delicate skin. It is entirely different from that in my hands for the last 15 years, which has caused so many imitations. I have never sold my ANTIPHELIC MILK for the last 15 years, and would be unknown but for the fact that persons who have used my ANTIPHELIC MILK for the last 15 years, have sent the receipt to their friends, and it has become universally known.

The genuine article is only to be had of the Inventor and Sole Proprietor, J. WEBSTER, 1, Gt. QUEEN STREET, Lincoln's Inn Fields, LONDON.

Sold by Druggists everywhere.

ANTI-GOUTY ELIXIR

OR

HIPPOLYTE BRIEUGNE,

INVENTOR OF THE ANTI-RHEUMATISM

Tropical Balm.

TELL now all medical science has had no power over the GOUT, this terrible disease which has ever made so many victims all over the earth, and still leaves daily so many thousands from their occupations to give them up in the most painful sufferings. It is needless to recall to our minds the symptoms of this disease too well known to be numerous sufferers. It suffices to name them to appreciate the value of such a remedy against their return. Such is the effect of the ANTI-GOUTY ELIXIR, which is the result of the laborious searches of M. HIPPOLYTE BRIEUGNE, already known by the discovery of the Anti-rheumatismal TROPICAL BALM, that has led down to this day so great a success. The ANTI-GOUTY ELIXIR, particularly designed for curing the fits of the gout, possesses a power no less great, warranted by a long and personal experience of the inventor, and by repeated assays upon the numerous victims.

The ANTI-GOUTY ELIXIR is easy to take, and its taste is in the way disagreeable. It can be taken pure or mixed with two or three spoonfuls of tea or coffee. The effects are felt after a few hours, and last for days to the intensiveness of the fit. In twelve hours at most the sufferings disappear, and all its symptoms vanish away.

For sale at the general depot, in New Orleans, at

J. WEBSTER & CO.

21 and 151 Chartres street.

And in the principal drug stores of the United States.

COMMERCIAL.

OFFICE OF THE DAILY PICAYUNE, FRIDAY EVENING, March 19, 1859.

The weather has been unfavorable during a considerable portion of the past week, and because has been of a moderate character from our general market. Cotton continues inactive and has been drawn to the demand by still more favorable advices from Europe, and prices for that staple have further advanced. In Tobacco, Sugar and Molasses the movement has been rather sluggish, with but little change in prices. Flour has gone off slowly at previous rates, while Corn has advanced, and Provisions generally have been firm. Freights and Exchange have been firm, without material alteration in the rates.

We yesterday morning published the City of Washington's advices, embracing Liverpool dates to the 5d instant. They reported a further advance of 1/2@3-16d. in Cotton, with sales of 25,000 bales during the three days, including 5000 on speculation and 3000 for export, the market closing firm and active. Middling to strict Orleans was quoted at 7 1/2@7 3/4d. At Havre the week's sales were stated at 3000 bales, with a concealed advance. Orleans Tree Ordinaire being quoted at 66 frs. 50@66 frs. The stock on hand was 171,000 bales.

COTTON.—Arrived since the 11th instant, 28,208 bales. Cleared in the same time for Liverpool 40,262 bales, Cork 1,100, Bremen 2,000, Havre 1,000, St. Petersburg 6404, Genoa 1157, Barcelona 1500, Trieste 768, Boston 6351, New York 1,116, Philadelphia 54, and Texas 1,000 bales; coastwise 1081, St. Petersburg 6404, Genoa 1157, Barcelona 1500, Trieste 768, Boston 6351, New York 1,116, Philadelphia 54, and Texas 1,000 bales; together, 61,052 bales, making a reduction in stock of 20,800 bales, and leaving on hand, including all on shipboard not cleared this day, a stock of 450,273 bales.

The market opened this week with a poor assortment and unfavorable weather, together with very high prices claimed by holders, and the sales during the first three days reached barely 14,000 bales. On Wednesday, with the City of Washington's advices in hand, purchasers were found for 17,500 bales, at an advance of 1/8 for the middling grades, but yesterday, with rain most of the day, the sales fell off to 3000 bales. To day, with a return of favorable weather, some 9,500 bales have changed hands, making a total for the week of 44,000 bales, the market closing at the rate of our quotations, which are now as follow:
