MEDICAL.

DR. GEO GHEGAN'S HYDROPIPER,

THE GREAT CURE FOR

Liver Complaint, Billious Disorder, Chills and Fever, Costiveness, Indigestion, Dyspepsia.

AND ALL DISEASES OF THE

STOMACH, LIVER AND BOWELS.

Also, Scrofula and all Impurities of the Blood.

THIS is a grand assistant of Digestion, and a perfect substitute for Mercury in Liver Complaint, and for Purgative Pills in Costiveness. It also cures Chills and Fever, especially where Quinine has been used and failed.

It is a fine Stimulant and Tonic for torpid and debilitated constitutions.

Though pleasant to the taste, mild and harmless in its action, its power is equal to the most potent drug.

Have you Scrofula?

Then read the annexed postscript of a letter from a highly respectable lawyer of New Madrid, Mo.:

"P. S. You wish to know the success of your Hydropiper. Mr. Presly Phillips informs me that he had a negro who was literally covered with sores, and states that he used Gheghegan's Hydropiper and it healed the negro on right d[illegible], and in six weeks he was sound and well. Yours respectfully,

F. W. ARMSTRONG."

Further Testimony of the Beneficial Effects of Dr. Greghegan's Hydropiper.

DR. A. E. GHOGHEGAN—My wife was afflicted with Scrofula for a long time, and had been attended by all the best physicians in the country; but without any good effect. She had been unable to walk for more than a year, and part of the time was totally helpless, when I procured some of your Hydropiper. She is now entirely restored to health and can walk about as well as ever.

I have been induced to communicate the above facts purely out of a desire that others might know of its excellent qualities and profit thereby.

With respect, I am yours, truly,

F. G. GAMBLE.

SANDS' SARSAPARILLA, IN QUART BOTTLES,

For Purifying the Blood, and for the Cure of *Scrofula, Rheumatism, Stubborn Ulcers, Dyspepsia, Salt Rheum, Fever Sores, Erysipelas, Pimples, Biles, Mercurial Diseases, Cutaneous Eruptions, Liver Complaint, Bronchitis, Consumption, Female Complaints, Loss of Appetite, General Debility, &c.*

IN this preparation are strongly concentrated all the Medicinal properties of Sarsaparilla, combined with the most effectual aids, the most salutary productions, and the most potent simples of the vegetable kingdom; and the combination is such that one modifies and improves the other, producing a compound differing entirely in its character and properties from any other preparation, and unrivaled in its operation on the system when laboring under disease. The many well authenticated cures of Scrofula of the most malignant character, when given it a wide and deserved celebrity. But it is not alone in Scrofula nor in the class of diseases to which it belongs, that this preparation has been found beneficial. It is a specific in many diseases of the skin, and may be administered with favorable results in all; and it has been so fully tested, not only by patients themselves but also by Physicians, that it has received their unqualified recommendation and the approbation of the public; and has established on its own merits a reputation for VALUE and EFFICACY far superior to the various compounds bearing the name of Sarsaparilla. The following testimonials are selected from among the multitude of cases which we are daily receiving; and for further confirmation the reader is referred to the Family Recipe and Medical Almanac, furnished gratuitously by all our agents.

Important Testimony

Oxford, N. C., June 8th, 1854.

Messrs. A. B. & D. SANDS: Gentlemen—We have been agents for the sale of your Sarsaparilla for the last fifteen years, and have sold large quantities of it during the time to hundreds of different persons who have always been pleased with it, and expressed themselves perfectly satisfied as to its effect in curing the various diseases for which it was used. If more proof were necessary to satisfy those who still disbelieve, we could obtain a most any number of certificates in this county and vicinity, but the best proof is, that we sell it to the same families who have used it for the last ten years.

Yours respectfully, R J MITCHELL & CO

EDUCATION.

JACKSON INSTITUTE.

THE number of Students in this Institute greatly increasing every day, the Directors have thought it proper to modify the plan of the studies, for the purpose, if possible, of rendering them more complete.

The study of the English Language will be the constant care of scrupulous and able Professors who have taught in the first Institutes of this city. The hours of study will be equally divided between English and French. The morning, from 8 o'clock to 12½, will be devoted to English; the balance of the day to French.

The students will be placed under the able care of Mr. HIRE, so advantageously known for the many scholars whose education he has finished.

Madame E. B. MORISON, whose unquestionable ability has been so highly appreciated in one of the best Institutes of this city, and in the public schools of the First District, will be specially charged with the care of the studies of young ladies.

Instruction in French will be continued, as heretofore, under the direction of Messrs. JEOOU and LATORRE.

Mr. S. SAMSON remains charged with the course of drawing with the pen, coligraphy and the elementary classes.

Sewing embroidery, etc., will be taught by a person expert in the art.

Music and singing will be under the charge of an intelligent and zealous pianist.

General course of Grammar and Literature.

A general course of Grammar and of Literature will commence on the 2d January, (the time when the students resume their studies) and will be conducted by Mr. SELIGNY, whose ability, experience and learning need no commentary. The assistance of Mr. SELIGNY is a fortunate acquisition to the students, to parents, and to the Directors of the Institute.

The Directors feel happy to take this occasion to return their thanks to parents for the kind patronage with which they have honored it; scarcely six months have elapsed since it was opened, and it already has *one hundred and three scholars*. Encouraged by such brilliant success, the Directors pledge themselves at all sacrifices to do their utmost to merit the confidence reposed in, and so gratifying to them. dec19

DAY AND BOARDING SCHOOL

FOR YOUNG LADIES.

Under the Direction of

MADAM CHARPAUX,

At the corner of Bayou and Claiborne streets.

THIS SEMINARY, whose existence dates some six years back, has met with a success that proves beyond all cavil, the capacity of those who have charge of it.

Determined to merit the confidence of parents, Madam Charpaux will spare no pains to make her Seminary equal to the best institutions of the kind in New Orleans, and in order to do this, she has employed the ablest teachers.

Madam Charpaux has purchased a large and airy edifice on one of the highest pieces of ground in the city, and the better to consult the health of her pupils, she has had spacious and elevated apartments built on purpose for school and sleeping rooms, through which there will be a constant circulation of air from many windows.

Great attention will be paid to the improvement of Scholars in the English language. For this purpose, American ladies of acknowledged capacity, as teachers, will constantly reside in the Seminary.

The English, French and Spanish languages, geography, arithmetic, and in short, all the branches of a polite education, will be taught in this Seminary.

As religion should be the foundation of all sound education, it will be carefully attended to by Madam Charpaux, who will conduct to church and preliminary catechisms, all her young ladies who may have their first communion to make.

Music having become a most desirable branch of the education of young ladies, Mr. Charpaux, from the best musical school in Paris, and ex-artist of the Orleans Theatre, will devote all his time to teaching music. All the Scholars, besides their regular lessons, will practice daily under the eyes of the Professor. The study of the theory will precede the performances, when Mr. Charpaux will put the pupils through the execution of the regular keys and notes, and this will be attended with no extra charge.

In order to kindle emulation among the Pupils, and improve their singing, on the morning of the last Saturday in every month, there will be a musical examination and a distribution of rewards.

Madam Charpaux, in order to complete the education of her Scholars, has opened a class where will be taught all the useful and ornamental branches of needle-work.

During the summer, the classes will open at 8 o'clock, and close at 3. Re-open at 4 and close at 6 o'clock, P. M. In winter, they will open at 8½, and close at 3. Re-open at 4, and close at 5½ o'clock, P. M.

G. BOYER'S INSTITUTION

No. 148 Conti Street, between Dauphine and Burgundy.

MR. G. BOYER, founder of this establishment, the oldest in New Orleans, avails himself of this opportunity to make a new appeal to the confidence of parents. This institution is conducted in a large mansion, occupying a fine central position, being well ventilated, and in other respects perfectly salubrious. The range of studies which engage the attention of the pupils, extends over all the branches of learning, which are necessary to a useful, polite and finished education; from primary instruction, to the more abstruse subjects which are especially the province of a collegiate course. The elementary studies are attended to with more than ordinary care, considering the decisive influence which they exercise over the other branches of instruction. Discipline, which must not be separated from assiduous study, nor from a good education, is conducted with solicitude. Pupils are classified according to the age and character of the students, and intended to give them an accurate idea of each branch of instruction.

DAY AND BOARDING SCHOOL,

UNDER THE DIRECTION OF

MADAME PARENT,

Corner of Rampart and Du Maine streets.

THIS Institution occupies one of the best locations in the city with respect to health and many other important advantages. The building is magnificent, the apartments are vast and well ventilated, and are particularly well adapted for classes.

There are four fine dormitories with dressing cabinets; also spacious galleries all through the house, a splendid terrace commanding a most beautiful view of the city, as far as the Lake.

The best advantages are offered to parents, as to the moral and intellectual cultivation of the minds of their daughters.

Madame Parent is always present with her pupils; she teaches during the hours of class, and superintends the different divisions. There is an ample number of the best professors employed, besides ladies residing in the Institution.

Every branch of a solid and refined education is taught in both languages; all accomplishments, such as Drawing, Painting, Dancing and Embroidery, &c. The Musical department (including vocal and instrumental) is conducted by four of the most competent and acknowledged talents in the city.

It would be superfluous to add anything respecting the special attention that is paid to the English language—the best guarantee for the parents can give the public, is that the French young ladies who have been educated by her speak it the same as their mother tongue.

For terms, apply at the institution where prospectuses can be obtained.

YOUNG LADIES residing at a distance in the different Districts, will be conveyed gratis to and from the Institution. o26

ST. LOUIS INSTITUTE FOR YOUNG LADIES

Boarding and Day School, under the direction of Madam Deron, Dauphine street, No. 313, and Hospital street, No. 155.

THE Directress of this Establishment, being fully sensible of the importance of the English language, has introduced new modifications in the mode of teaching.

The number of English Professors has been increased. Besides two distinguished Professors who are charged with the instruction of the three higher classes, *five American ladies*, who attend to the elementary classes and the general superintendence, speak English only. *The pupils are therefore compelled, in their general intercourse, to express themselves in English alone.* With a view to this result, Madam Deron has established strict regulations which she will personally see enforced, for she wishes families to be convinced of the fact that an easy and constant practice of the principal language of the country, is required at the Institute.

Moral and religious education and good manners which can be acquired only by example, are looked upon as highly important by Madam Deron, and she will use her best exertions to create patience and mild discipline on the one side, and patience and affection on the other, among the pupils and the teachers.

The musical classes, still under the management of Mrs. Lavillebeuvre, are constantly and carefully attended to.

The annual examination begins in October.

Summer Residence.

From the month of June, a branch of the St. Louis Institute is opened at Mandeville, a delightful village free from epidemic diseases. Madam Deron's object in opening it, is to afford to unacclimated young ladies or those wishing to spend a few months in the country, the facility of continuing the same studies as in the city. Both Establishments are opened during the entire summer.

A carriage is attached to the establishment, which conveys young ladies residing above Canal street, to and from the Institute. sep4

PHOSPHORATED GUANO—This valuable fertilizer, composed of one-half Calcined Bones and one-half Peruvian Guano, is offered to Planters and Gardeners as an article every way superior to Guano used by itself. It is an established fact that Guano lacks Phosphate of Lime, and that, without this ingredient, its effects are not lasting. Calcined Bones are pure Phosphate of Lime, and added to Guano in equal quantities, forms a manure, 300 pounds of which applied to the acre will last in the soil for three to five years, adding to its fertility, yearly, twenty times its first cost. The above fertilizer is manufactured by the New Orleans Bone Black Company, and is for sale by D. C. LOWBER, Agent, 37 Poydras street. fe18—6t

NOTICE OF ELECTION

For Associate Justice of the Supreme Court of the State of Louisiana, for the First Supreme Judicial District.

BY virtue of a writ of election, bearing date the 28th of February, 1855, to me directed by his Excellency P. O. Hebert, Governor of the State of Louisiana, the qualified voters of that portion of the Parish of Orleans on the right bank of the Mississippi river, and that portion of the city of New Orleans which lies below the line extending from the river Mississippi along the middle of Julia street, until it strikes the New Canal, and thence down said canal to the Lake, which limits, together with the Parishes of Plaquemines and St. Bernard, form the First Supreme Judicial District, are hereby notified that an election will be held on Monday, the 2d of April, 1855, for an Associate Justice of the Supreme Court for the said First Supreme Judicial District. The Polls will be opened from 9 o'clock, A. M., until 6 P. M., of said day, at the precincts to be established, and under the superintendence of Commissioners and Clerks to be appointed by the Common Council of the city of New Orleans and by the Police Jury for that part of the Parish of Orleans on the right bank of the Mississippi river. The election to be conducted, and duplicate returns made to the undersigned, according to law.

Sheriff's Office, Parish of Orleans, this 13th March, 1855.

Extensive Assortment of French, German, &c. Looking Glasses.

Ornamented Frames, Paper Hanging, Bed Tops, Chimney Fronts, &c., sold at the store of the undersigned, Royal street, No. 105, between Conti and St. Louis.

MANUFACTURE of improved gilt Frames, capable of resisting the dampness and climate of this country, all styles, square, oval, Pompadour, Louis XV, Renaissance, &c., manufactured under his immediate supervision, in his own establishment, by the most competent artists.

Every article from his store will be guarantied and also the Ornaments by his process which he particularly recommends to the public. A few explanations will suffice to do away with certain rumors to the effect that wood is better adapted to ornaments than his composition.

Frame ornaments for looking glasses are defective in this respect, that the threads of the wood, in detached portions, cannot resist the slightest shock. This is incontrovertible.

The ornaments, according to my process, are supported by iron threads and can bear not only dampness, but whatever shock and never yield.

Besides the finest assortment of French Looking Glasses in store, the undersigned has just unpacked the freshest and choicest assortment of Paper Hanging, received from Havre, comprising bed tops, chimney fronts, &c. offered at the lowest market prices, and selected by a competent artist, whose services have been secured.

The patronage of upholsterers and furniture dealers is respectfully solicited. They will constantly find in his establishment toilet Looking Glasses, Armoirs, Washstands &c., which will be disposed of cheaper than in any other store.

New and ornamented Looking Glasses bargained or old ones, provided they are French Glasses.

Expected by the next arrivals from Havre—an immense assortment of beard, hand, traveling and psyche Mirrors, toilet Looking Glasses, &c., for sale below market prices.
