MECHANICAL ARTS AND SCIENCES.

PUBLISHERS—D. APPLETON & CO., NEW YORK. AGENT—J. B. STEEL, NEW ORLEANS. NOW PUBLISHING IN PARTS, PRICE 25c. EACH.

A Dictionary of Machines, Mechanics, Engine-Work and Engineering; designed for Practical Working Men and those intended for the Engineering Profession.

EDITED BY OLIVER BYRNE, Formerly Professor of Mathematics, College of Civil Engineers, London, Author and Inventor of "The Calculus of Form," "The New and Improved System of Logarithms," "The Elements of Euclid by Colors," &c., &c., &c.

The work is of large 8vo. size, containing nearly two thousand pages, upwards of fifteen hundred plates, and six thousand wood cuts. It will present working drawings and descriptions of the most important machines in the United States. Independent of the results of American ingenuity, it will contain complete practical treatises on Mechanics, Machinery, Engine-work, and Engineering, with all that is useful in more than one thousand dollars' worth of folio volumes, magazines, and other books.

The publishers have expended a large sum of money to get original drawings of machinery in practical use in this country, and have procured almost every work on the subject, whether published in England, France, or Germany, the most essential parts of which being comprised in this Dictionary, render it as perfect and comprehensive as possible. The publishers have endeavored to use great economy in type, so that each page of the work contains at least four times the number of words found in ordinary pages of the same size. This has also secured to each plate working drawings of ample size and clearness, so that a mechanic may construct accurately any machine described.

The publishers are, in short, determined, regardless of cost, to make the work as complete as possible; and it is hoped every one desirous to obtain the work will procure it as issued in numbers, and thus encourage the enterprise.

The work is now being issued in semi monthly numbers, commencing in January, 1850, and will progress with great regularity.

The whole work will be published in 40 numbers, at 25 cents per number, and completed within the current year, 1850.

Any one remitting the subscriber $10 in advance, shall receive the work through the post-office free of expense.

The great object of this publication is, to place before practical men and students, such an amount of theoretical and scientific knowledge, in condensed form, as shall enable them to work to the best advantage, and to avoid those mistakes which they might otherwise commit. The amount of useful information thus brought together, is almost beyond precedent in such works. Indeed, there is hardly any subject within its range which is not treated with such clearness and precision, that even a man of the most ordinary capacity cannot fail of understanding it, and thus learning from it much which it is important for him to know.

Nos. 1 to 8 of this valuable work have already been received, and are for sale by J. B. STEEL,
my20 1m 14 Camp street.

Storage—Storage—Storage.

WE, the undersigned, having long been engaged in the storage business, beg to inform our friends and the public, that we have for the coming season, six warehouses not surpassed by any in this city—all of them fire proof, located in the Second Municipality, within a very short distance of the steamship and flatboat landing; they are situated as follows:
UNION—Tchoupitoulas street, corner of Notre-Dame and Commerce streets.
WESTERN—Corner of Julia and Foucher streets.
PELICAN—On Commerce street, corner of Girod and Notre-Dame streets.
CRESCENT—On New Levee street, between Gaiennie and Suzette streets.
PHENIX—On Tchoupitoulas street, between St. Joseph and Julia streets.
BRANCH—On Notre-Dame street, between Tchoupitoulas and Magazine streets.
We are now prepared to receive all description of merchandize and Western produce at low rates. Our establishments are so arranged that each description of goods is kept in a store entirely separate and distinct from that containing any other, and having also a large number of experienced laborers constantly in our employ, we are enabled to offer facilities for the receipts and delivery of goods unequalled by any similar establishment in this city.

ST. PETER STREET BETWEEN ROYAL AND BOURBON NO. 59—UP STAIRS.

ALWAYS on hand, a quantity of Cologne Water, superior to anything manufactured till now.—Deceived by splendid labels, people often buy a worthless article. The Cologne Water we offer to day has no humbug about it. It is sold by the bottle or half bottle at a very moderate price. Buyers are invited to call and examine for themselves this admirable Water, which equals the great reputed Jean Marie Farina Cologne Water. ... and ...
