Proposals for Timber, &c., for the Navy.

NAVY DEPARTMENT,
Bureau of Construction, &c.
May 11, 1852.

SEALED PROPOSALS, endorsed "Proposals for Timber, Lumber," &c., (as the case may be) (naming the Navy Yard and the class [of articles] offered for) will be received by this Bureau until 3 o'clock, P. M., of the [illegible] day of June next, for furnishing and delivering [under contract] at the several Navy Yards [hereinafter] named, the Timber, Lumber, and other articles embraced in this advertisement.

One fourth part of the quantity required at each Navy Yard must be delivered on or before the first of July; one other fourth part on or before the first of September; one other fourth part on or before the first of November; and one other fourth part on or before the thirtieth day of December, 1853.

Persons whose offers may be accepted will be required to enter into contracts, which, besides other conditions, will expressly provide that, in case they shall in any respect fail to perform the contracts, the same may be, at the option of the United States, declared null and void, without affecting the right of said United States to recover for defaults which may have occurred, with the stipulation also that, if default shall be made by the contractor in delivering all or any of the articles contracted for, of the quality and at the times and places named, that then and in that case the contractor and his sureties will forfeit and pay to the United States, as liquidated damages, a sum of money equal to twice the contract price, which liquidated damages may be recovered from time to time as they accrue.

All the aforesaid Timber, Lumber, and other articles, must be of the very best quality, subject to inspection and measurement, according to the "*Printed rules established for the inspection and measurement of Timber for the Navy of the United States,*" copies of which may be seen at either Navy Yard or Navy Agent's office. All the aforesaid articles are required to be in all respects satisfactory to the Commandant of the Navy Yard where the same shall be delivered.

The yellow pine plank stocks must be of the very best quality of long leaf, fine grain, southern yellow pine, the sap to be excluded in the measurement. The white oak timber and plank must be felled between the 1st of October and the 1st of March, and must be grown within sixty miles of the seacoast; must be stripped of the bark, or hewed within twenty days after it is felled and placed clear of the ground, of which satisfactory evidence must be given by the contractor, by the production of certificates, signed by two respectable witnesses, with their depositions, under oath, before some judge of the court or magistrate within the township or county where the said white oak timber and plank was felled.

Bids must be separate and distinct for each Navy Yard, and for each class of articles, and must, in all cases, embrace all the articles named in the class for which the bid is intended. The cost of each item must be distinctly carried out, and the aggregate amount of each class correctly footed up, which is material to a fair comparison of bids.

No extension of time for making deliveries will be granted, and penalties for non-fulfilment will, in all cases, be rigidly enforced. Bidders are, therefore, requested to offer for no more than they are sure they can furnish within the time specified.

Approved sureties in twice the estimated amount of each contract will be required in the manner set forth in that instrument, and ten per centum will be withheld from the amount of each payment as collateral security for its faithful performance. *Ninety per centum of each bill, approved in triplicate by the respective commandants of said navy yards, will be paid by the navy agent at the point of delivery within thirty days after its presentation to him.*

Every offer must be accompanied by a written guaranty, (the responsibility of the guarantor or guarantors to be certified to by a navy agent or other official person, or by some one known to the Bureau,) that, if the offer be accepted, the bidder or bidders will, within ten days after the receipt of the contract at the post office designated, execute the same, with good and sufficient sureties, to furnish the articles proposed, agreeably to the terms specified in the contract. The law of the 10th August, 1846, forbids the consideration of all proposals not accompanied by such guaranty.

Bidders are particularly cautioned to endorse their offers as above required, that they may be distinguished from other business letters, in order to prevent their being opened before the day appointed.

Offers not made in strict conformity with this advertisement will be considered or rejected, at the option of the Bureau. Those only whose offers may be accepted will be notified, and contracts forwarded without delay.

Persons offering are directed to designate the post office through which they desire to be addressed, and the navy agent to whom the contracts shall be sent for execution.

All editors authorized to publish this advertisement will be specially notified by the Bureau. None others will be paid for its insertion.
