AYER'S AGUE CURE,

FOR THE SPEEDY CURE OF

Intermittent Fever, or Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache, or Bilious Headache, and Bilious Fevers, indeed for the whole class of diseases originating in biliary derangements caused by the miasma of marshy countries.

NO one remedy is under called for by the necessities of so many sufferers, nor is any other so safe for Fever and Ague. Such are now found to differ, with a perfect certainty tried it will eradicate the disease, and with a moderate dose of quinine, yet leave no harm behind to be apprehended from its use in any quantity.

Unlike other medicines, from its use prevents the disorder ever to be of immediate service to the communities whose health it restores, and to the individuals who have long lost the vigor the sickness has made them. Prostrated by the disease, the patient recovers the rich health he must run in violent attacks, or lingering fevers, or chills, to lose. This "Ague" expels the miasmatic poison of Fever and Ague from the system and prevents the development of the disease. It bakes out the first approaches of the premonitory symptoms. It is not only the best remedy ever yet discovered for the Fever and Ague, but it is the best family medicine. The large quantity we supply for a dollar brings it within the reach of everybody, and in bilious districts where FEVER AND AGUE prevails, everybody should have it and use it freely for cure and prevention. It is hoped this price will place it within the reach of all—the good as well as the sick—of a remedy superior to this remedy our art has ever discovered for the speedy and complete cure of intermittent is that it contains quinine in a natural, unmanageably it produces no quinism or other injurious effects, and it is the best preventive. The cured by it are left as healthy as if they had never had the disease.

Fever and Ague is not alone the consequence of the miasmatic poison. A great variety of disorders arise from the miasma, which are Remittent, Bilious, Dumb Ague, Headache, Biliousness, Toothache, Earache, Gout, Rheumatism, Gravel, Palpitation of the Spleen, Hysterics, Pain in the Bowels, Colic, Paralysis and Derangement of the Stomach, Liver, Bowels, Blood and Derangement of the Urinary organs, and on the intermittent type, or low-one periodical. This "Cure" expels the miasma from the system and renders the constitution proof to its inevitable protection to immigrants and presents to settling in particularly exposed to the malarious districts. It taken occasionally or daily while exposed to the influence that will be encountered from the miasma, combined unmixable in sufficient quantity to repel the poison, and prevent it ever from exhibiting its pernicious effects. It is even more valuable for protection than cure, and few will ever suffer from intermittents if they avail themselves of the protection this remedy affords.

Ayer's Cathartic Pills.

FOR ALL THE PURPOSES OF A FAMILY PHYSIC.

are so compound that disease within the range of their action yields readily without or regale them. Their power treating properties search and cleanse, and invigorate every part of the human mechanism, correcting the disordered action, and restoring to healthy vitality. As a mild aperient pill, combining with the mildness of those known them with pills or physical debility is established by and his health or energy restored by a remedy at once inoffensive and efficacious.

Not only do they cure the every-day complaints of every body, but also more formidable and dangerous diseases. The agent below named is pleased to furnish gratuitously to applicants the outstanding certificates of their cures and directions for their use in the following complaints: Costiveness, Dyspepsia, Headache arising from Disordered Stomach, Nausea, Indigestion, Pain in the Side and Bowels, Dysentery, Flatulency, Loss of Appetite, Jaundice, and other kindred complaints arising from a low state of the body or obstruction of the functions of the digestive organs, Dropsy, Costiveness, Dysentery, Fever and Ague
