Fever and Ague,

FROM which mankind suffer over a large part of the globe, is the consequence of a diseased action in the system, induced by the poisonous miasma of vegetable decay. This miasma is evolved by the action of solar heat on wet soil, and rises with the watery vapor from it. While the sun is below the horizon this vapor lingers near the earth's surface, and the virus is taken with it through the lungs into the blood. There it acts as an irritating poison on the internal viscera and agonizing organs of the body. The liver becomes torpid and fails to secrete not only this virus, but also the bile from the blood. Both the virus and the bile accumulate in the circulation, and produce violent constitutional disorder. The spleen, the kidneys and the stomach sympathize with the liver, and become disordered also. Finally, the in stinct of our organism, as if in an attempt to expel be noxious infusion, concentrates the whole blood of the body in the internal excretories to force them to cast it out. The blood leaves the surface, and rushes to the central organs with congestive violence. The skin is the Chill. But in this effort it fails. Then the Fever follows, in which the blood leaves the central organs and rushes to the surface, as if in another effort to expel the irritating poison through that other great excretory—the skin. In this also it fails, and the system sinks under the virus, exhausted and waits for the recovery of strength to repeat the hopeless effort another day. These are the file or paroxysms of Fever and Ague. Such constitutional disorder will of course undermine the health, if it is not removed.

We have labored to find, and have found a remedy.

AYER'S AGUE CURE,

which neutralizes this malarious poison in the blood, and eliminates it from the system, is expel it from the body. As it should, so it does cure the afflicting disorder with perfect certainty, and it does more, it does not leave behind it a train of more service to those subject to this infection. If taken in season it expels it from the system and it has the power to do this even to those who use it free from its attacks; keeps the system in health, although exposed to the disease. Consequently, it protects, not protects from the great variety of affections which are induced by his malignant disease, such as Remittent Fever, Chill Fever, Dumb or Masked Ague, Periodical Headache or Bilious Headache, Bilious Fevers, Neuralgia, Intermittent Gout, Bilious Colic, Toothache, Earache, Catarrh, Asthma, Palpitations, Painful Affections of the Spleen, Hysterics, Choler, Paralysis and Partial Affections of the Stomach and Bowels, all of which, when arising from this cause, will be found to assume the intermittent or periodic type. This "Ague Cure" removes the cause of these derangements, and cures the disease.

This is accomplished by stimulating the excreto rios to expel the virus from the system; and those organs by degrees to recover the sensibility to do this of their own accord. Hence arises what we term *acclimation*—a. Time may accomplish the same end, but often this is not long enough, or is sacrificed in the attempt, while this "AGUE CURE" does it at once, and with safety. We have great reason to believe it does it as well as any other remedy for the whole class of diseases which are caused by the miasmatic infection, but any other which has been discovered, it has still another important advantage to the public, which is that it is cheap as well as good.

AYER'S CHERRY PECTORAL

has won for itself such a renown for the cure of every variety of Throat and Lung complaint that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. Its use has long been in constant use throughout this section, we need not do more than assure the people its quality is still up to the best it ever was, and that it may be relied on to do for their relief all it has ever been found to do.

ANTI-GOUTY ELIXIR

OF

HIPPOLYTE BRIEUGNE,

INVENTOR OF THE ANTI-RHEUMATISM

Tropical Balm.

TILL now all medical science has had no power over the GOUTY, this terrible disease which has ever made so many victims all over the earth, and still bears daily so many victims from their occupations to give them up to the most painful sufferings It is unknown to recall, to the minds of the sufferers, those days when he well known to its numerous sufferers. It suffices to name them to appreciate the value of such a remedy against this disease. Such is the effect of the ANTI-GOUTY ELIXIR, which is the result of the laborious researches of M. HIPPOLYTE BRIEUGNE, already known by the discovery of the anti-rheumatismal TROPICAL BALM, that has had down to this day such a success. The ANTI GOUTY ELIXIR, particularly designed for curing the fits of the gout, possesses a power no less great, warranted by a long and personal experience of the inventor, and by repeated essays upon its numerous victims.

The ANTI-GOUTY ELIXIR is easy to take, and its taste is in no way disagreeable. It can be taken pure or mixed with two or three spoonfuls of tea or coffee Its effects are felt after a few hours, whatever may be the intensiness of the fit. In twelve hours at most the stirrings disappear, and all its symptoms vanish away.

For sale at the general depot, in New Orleans, at

J. WRIGHT & CO.,
21 and 161 Chartres st.

And in the principle drug stores of the United States.
