THE DAILY BEE.

Tuesday Morning, February 6, 1854.

THE NORTHERN MAIL came through yesterday with the heaviest [illegible].

REGISTRY LAW.

Several bills for the amendment of the Registry law are now before the Legislature. Our attentive correspondent has supplied us with copies of each of them. One of these bills [illegible] introduced, we believe, by Mr. HOWARD, and is a slightly ingenious attempt to pass a law which will practically nullify and evade all the objects and intent of the constitutional provision. The fourth section, costly provides that nothing contained in this act shall be so construed as to prevent any person whose name has not been registered, from voting at any election, if such person possesses the qualifications required by the tenth article of the Constitution. In other words, says Mr. Howard, the Registry law shall be not safe, whenever any person offering to vote claims to be a citizen of the United States, to have resided twelve months in the State and six months in the Parish—even though his name is not inscribed upon the Registry. If the Legislature is disposed to pass such a measure, if law we can specifically suggest that the bill should be so worded as to violate the spirit of the organic law, and pass no Registry law whatever. There would be something like courage in such a course, whereas the other would be a pitiful effort to sneak out of the constitutional obligation, by enacting a law which, bearing the name of "Registry law," would to all honest and practical intents be a mere reproduction of the present Registry and vicious system, under which the desire of Registry has such protection from fraud and corruption. Mr. HOWARD's bill opens the door to [illegible] fraud of infinite which has already [illegible] to be [illegible].

Bills for the amendment of the law have been presented by Mr. BOEHNER and Mr. HONEY. They appear to us unobjectionable, and have evidently been prepared with a [illegible] and with a view of securing to every man, voter, the unrestricted enjoyment of the [illegible] of suffrage.

LOUISIANA PENITENTIARY.

The report of the Directors of the State Penitentiary at Baton Rouge has been transmitted to the Legislature. We learn from this document that another story has been added to the North building, at an expense of forty-five thousand, three hundred and forty-five dollars, eighteen cents, the appropriation made by the Legislature having been only forty thousand.

The Directors recommend that the white and colored convicts should work separately, but this is impracticable, without a change in the arrangements of the work shops. The Board express decided opposition to the system of leasing the labor of the convicts to a company—considering it a monopoly, opposed to the spirit of the institution, resulting scanty food and rags for the criminals, and insufficient pay to the officers and guards. They are fully of opinion that the Penitentiary can amply support itself under good and efficient State officers, and will, if properly managed, afford considerable revenue to the State.

The Directors recommend that executive clemency be extended to all convicts for good and meritorious conduct, viz: Wm. Ryan, M. J. Edwards, Thomas Crawford, Isaac Vanbibber, Jackson, a slave, and Harry, a slave.

The report of the physician states that about one fourth of the prisoners were attacked by yellow fever during the prevalence of the epidemic. Thirteen died during the year most of them from the fever.

The Chaplain's report is very brief and affords no specific information. Bibles in French and German are needed for many of the convicts.

The number of prisoners in the penitentiary on the 1st January, 1854, was 283. Of these 44 were guilty of murder, 10 of arson, 16 of assault with intent to kill, 72 of burglary and larceny, 22 of manslaughter, 1 of rape, and the remainder of swindling, robbery, slave stealing, horse stealing and [illegible]. During the past year 78 [illegible] were discharged, 6 died, 5 were pardoned by the Legislature, and one by the President of the United States. Of the entire number now in confinement, 82 are colored men, 15 colored women, and 186 white men. Four of the prisoners are over 60 years of age. Of the whole number of convicts, 161 are from the Parish of Orleans, 19 from Jefferson, 13 from St. Landry, 10 from St. Mary, 8 from Concordia, and 7 from East Feliciana. There are altogether 21 parishes represented in the institution. The nativity of the convicts is as follows: Ireland 50, Louisiana 45, Virginia 38, Germany 15, France 14, Pennsylvania 14, New York 13, Maryland 8, Kentucky 8, England 6, Ohio 6, North Carolina 7. Nineteen States are represented.

TOPICS VERY HEAVY.

PROFESSOR DIMITRY'S LECTURE at Lyceum Hall on Tuesday evening, was tolerably well attended. It ought to have attracted every thoughtful and inquiring mind in our city, for it was a most suggestive, learned and discriminating effort, replete with the gravest of eloquence, the diction of high-wrought language and fanciful imagery, and the solid argument of a sound and profound judgment. Should Professor Dimitry fail to reap ample remuneration for the course of lectures, the responsibility will fall wholly on both the taste and liberality of the public.—for they should remember that the object of the course is to redeem the Professor's Library—an object of peculiar magnitude in the eyes of the true scholar, and one that, during this week, has not contemplated his genius, without feeling to the task of instructing and delighting others.

[illegible] Dr. Macaulay lecture on Washington's relations to the Revolution, which we understand, in the way of going to work [illegible] violate the clear and manifest [illegible] of the organic law, and pass no Registry law whatever. There would be something like courage in such a course, whereas the other would be a pitiful effort to sneak out of the constitutional obligation, by enacting a law which, bearing the name of "Registry law," would to all honest and practical intents be a mere reproduction of the present Registry and vicious system, under which the desire of Registry has such protection from fraud and corruption.
