CHEMIST, PERFUMER AND FANCY-SOAP MANUFACTURER,

Purveyor to Her Majesty the Queen of England.

Manufacturer of PERFUMES and SOAPS FOR THE TOILETTE, renowned for the good qualities of his Perfumes for the pocket handkerchief and waters for the toilette. Till the present time the perfumery trade has been brought into disrepute by the bad productions which have been sent to all parts of the continent and the colonies. We particularly recommend the articles manufactured by ED. PINAUD as being superior to all others, by the care which is taken in their manufacture, and a certain distinguished character which he has given to all the productions which bear his mark and signature.
