SANDS' SARSAPARILLA,

IN QUART BOTTLES,

For Purifying the Blood, and for the Cure of *Scrofula, Rheumatism, Stubborn Ulcers, Dyspepsia, Salt-Rheum, Fever Sores, Erysipelas, Pimples, Blotches, Mercurial Diseases, Cutaneous Eruptions, Liver Complaint, Bronchitis, Consumption, Female Complaints, Loss of Appetite, General Debility, &c.*

IN this preparation we have all the restorative properties of the root, concentrated in their utmost strength and efficacy; but while Sarsaparilla is the most important part of its combination, it is, at the same time, a compound of the most valuable remedies of great power, and it is in the peculiar combination and scientific manner of its preparation, that its remarkable success in the cure of disease depends. It acts simultaneously upon the stomach, the circulation, and the bowels, and has three processes, which are ordinarily the result of three different kinds of medicine, are carried on at the same time, through the instrumentality of this one remedial agent, which gently alvinates while it directs and expels from the stomach and bowels all that is irritating, and at the same time restores their vigor and tone. Its great merit is, that it directs and neutralizes the active principle of diseases itself, and when that is done, the symptoms cease, and a cure follows. We have on our points to the accumulated testimony of multitudes who have experienced its effects, to convince incredulity itself of its value.

LIVER COMPLAINT AND SALT-RHEUM

New York July 27, 1849

Messrs. A. B. & D. Sands, Gentlemen.—Words can but feebly express my feelings, in conveying the pleasing intelligence to you, that your Sarsaparilla, perfect wonder as it is, one of your invaluable Pain-pastile. She was afflicted with a severe cutaneous disease that controlled the wisest skill of the faculty, so that it would have been impossible to touch any part that was free from the loathsome disease, and her feet were covered with scales like those of a fish, the hair fell out in large quantities, and she suffered the most excruciating pains, as it affected the joints more severely than any other part. She suffered since a long time from an affection of the liver, accompanied with general debility, and a prostration of the nervous system. Physicians, both in Europe and America, had exhausted the usual remedies, without effecting a cure, or scarce yielding relief. The medicine I was recommended to take, I gladly obtained, and it has been the cure, after using the Sarsaparilla for six weeks, of taking in all less than one dozen bottles, that she enjoys better health than for years previous to taking the Sarsaparilla. My object in making this communication is that all who have suffered as she has, may know where and to whom to apply for relief (and that not in vain,) that a complete cure will be the result. My wife unites with me in heartfelt thanks, and begs to remain, gentlemen, Yours, &c. &c.
