MEDICAL.

CHERRY PECTORAL,

For the speedy Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

Of all the remedies procured extinct, and among a those universally used for the cure of pulmonary complaints, none has ever found itself so well suited to its effects with this Preparation. Others may occasionally do good in all diseases of the lungs and throat where medicine can give relief, but this is pleasant to take, and certainly safe in accordance with the directions. Weighty testimonies of the benefit of them to the have tried, but those who have not.

Families that have known its values will not be without it, and by its timely use, they are secure from the dangerous consequences of small and Colds which neglected, often lead consumption.

The Diploma of the Massachusetts Institute was awarded to this preparation by the Board of Judges in September, 1847; also, the Medals of the three great Institutes of Art, in this country; also the Diploma of the Ohio Institute, Cincinnati, has been given to the CHERRY PECTORAL by their Government to attention of its extraordinary excellence and usefulness in the Cure of Colds and Lungs and Throats.

Read the following opinion founded on the long experience of the eminent Physician of the Fort and City of ST. JOHNS, May 8, 1851.

Dr. J. C. Ayer:

Five years trial of your CHERRY PECTORAL in my practice, has proved what I foresaw from its composition, namely, that it eradicates and cures the cold and coughs to which we, in this section, are peculiarly liable.

I think its equal has not yet been discovered, nor do I think how it can, it can be made to the distresses of the Throat and Lungs.

J. J. BURTON, M. D., F. R. S.

See what it has done in the case of a consumptive, not only in the following cases, but a thousand more.

Dr. Ayer: In the month of July last I was attacked by a violent diarrhoea in the mines of California. I returned to San Francisco in hope of receiving benefit from a change of climate and diet. My diarrhoea ceased, but I followed by a severe cough—and such coughing. I finally started for home, but received no benefit from the voyage. My cough continued to grow worse, and when I arrived in New York, I was at once marked by my acquaintances as a victim of consumption. I must confess that I saw no sufficient reason to doubt what my friends all believed. At the time I commenced taking your truly invaluable medicine with little expectation of deriving any benefit from the use. You should not receive credit for what I now state if my duty to state to the afflicted, through you, that my health, in the space of such months, is fully restored. I attribute it to the use of your CHERRY PECTORAL.

Yours truly, WILLIAM W. SMITH.

WASHINGTON, PA., April 12, 1848.

Dear Sir: Feeling that I have been cured from a pulmonary disease, through your immediately by the invalidness of that, I will take the liberty to express to you the facts.

A Cough and the alarming symptoms of Consumption had reduced me too low to be able to walk the length of my office, when my physician brought me a bottle of your Cherry Pectoral. I accordingly commenced taking it, and now in a few weeks time has restored me to sound health.

I feel will do for others what it has for me, you are certainly at liberty to make it public.

Sincerely wishing you every blessing, I am

Very respectfully yours,

JOHN T. CLARKE.

Rector of St. Peter's Church.

With such assurance and from such men, no stranger proof can be adduced unless it be from its effects upon trial.
