RUSHTON, CLARK & CO.'S CELEBRATED GENUINE MEDICINAL COD LIVER OIL,

For Consumption, Scrofulous Affections, Rheumatism, Gout, &c.

DR. WILLIAMS, a celebrated Physician in London, states that having preserved notes of 234 cases of Consumption which he had treated with Cod Liver Oil, 206 of them were followed by marked physical improvement varying in degree from the mitigation of distressing symptoms to an apparently complete restoration to health; and he considers that pure fresh properly prepared Cod Liver Oil is more beneficial than any remedy that has yet been employed in that disease, and in a late English Journal it was stated that since the introduction and extensive use of Pure Cod Liver Oil in England, the number of deaths from Consumption had decreased about forty per cent.

As a remedy when pure, in cases where it is required, is the most valuable ever discovered, so, on the contrary, when impure, it is not only valueless but positively injurious, as it disorders the digestive organs, and deranges the whole system.

We are happy to say, many persons who had been using other Oils and failing to derive any benefit from them, were about giving up the use of it in disappointment, but being prevailed on to use the oil of our manufacture, in a short time experienced the most favorable results.

As all the less yet discovered are inadequate to prove the purity of the Cod Liver Oil, in order to guarantee our customers a genuine article we have been obliged to put it up with our signature over the cork of each bottle, and the oil put up by us ... in every part ...

Prepared and sold, wholesale and retail, by RUSHTON, CLARK & CO., wholesale and retail Chemists and Druggists and family grocers of ... Medicinal Cod Liver Oil, 110 Broadway, 10 Astor House, and 273 Broadway Irving House, New York, and by all the principal Druggists in the United States and Canada.

For sale in New Orleans by N. JARVIS & CO., J. WRIGHT & CO. SICKLES & CO., RAYMOND & POLE and by the wholesale and retail Druggists generally.

CAUTION—See that our signature is over the cork of each bottle, as without it it is not genuine.

G. BOYER'S INSTITUTION.

No. 148, COTTI ST., between Dauphine & Burgundy.

MR. G. BOYER, founder of this establishment, the oldest in New Orleans, avails himself of this opportunity to make a new appeal to the confidence of parents. The institution is conducted in a large mansion, occupying a fine central position, being well ventilated, and in other respects perfectly salubrious. The range of studies which engage the attention of the pupils, extends over all the branches of learning, which are necessary to a useful, polite and finished education; from primary instruction, to the more abstruse subjects which are specially the province of a collegiate course. The elementary studies are attended to with more than ordinary care, considering the decisive influence which they exercise over the other branches of instruction.—Discipline, which must not be separated from assiduous study, nor from a good education, is conducted with solicitude. It is calculated according to the age and character of the students, and intended to give them an accurate idea of duty and good behavior.

ORLEANS HIGH SCHOOL,

Esplanade Street.

ERASTUS EVERETT, A.M., *Principal & Proprietor.*

THE various branches of knowledge are taught by Mr. EVERETT and three Assistant Professors, selected with a view to good character and skill and experience in teaching.

The system of education embraces the Grammar and Literature of the Greek, Latin, English, French and Spanish Languages. History Geography, Rhetoric, Versification, Logic, Political Economy, Moral Philosophy, Book keeping, Arithmetic, Algebra, Geometry, Trigonometry, Natural Philosophy, & Chemistry.

No pains are spared in imparting a thorough knowledge of these branches, so that all students who resort to this Institution may be fitted to enter with advantage upon the duties of the more responsible avocations of life, or upon the study of the learned professions.

As the Modern Languages, (particularly the English and the French) and the higher Mathematics receive very special attention, the school offers singular advantages to boys designed for mercantile pursuits.

For particulars see the prospectus, which may be found at Mr. Steel's Book store, 14 Camp street, at Mr. Lefevre's, Royal street, or at the School, 37 and 39 Esplanade street. jan 1y

ST. LOUIS' INSTITUTION.

DIRECTED BY MADAME DEVRON.

BOARDING AND DAY SCHOOL FOR YOUNG LADIES.

(Years 1850—'51.)

No. 145 St. Louis st. between Dauphin & Burgundy.

THIS Institution, founded nearly twelve years ago, combines every material, moral, and intellectual advantage. Madame Devron, formerly a pupil and governess in the "Institut de la Legion d'Honneur," (Maison St Denis, has founded her Seminary as much as possible, on the model of that great establishment, as well as on the plan of the first Northern Academies.

The situation of St. Louis' Institution is one of the most agreeable and salubrious in town. The whole locality, including dormitories, class and study rooms, and play grounds being very spacious and airy, and leveling a several gardens in so healthy a position, that not a single pupil has experienced the least serious illness.

The course of instruction both in French and English languages embraces the literary and scientific branches of a finished education.

The study of English is the object of particular attention. Madame Devron, who is very careful that the creole Young Ladies should devote more time to the study of the English language, literature than to any other branch. Mr Rowan, a professor well known in New Orleans continues his course ... lessons every day. Two English governesses residing in the establishment, preside over the elementary classes, and contribute to the progress the pupils by the continual use of that language in all the relations of ordinary life.

With respect to the study of French, besides the lessons of able professors and governesses, M and Madame Devron themselves attend in the different branches, and are thus enabled by their personal efforts to insure the solidity and rapidity of the progress of their pupils.

The department of Music, including the piano harp and singing, is under the direction of Madame Lavillebeuvre, an excellent music mistress, who formerly gave lessons in St. Louis' Institution, and who is now especially attached to the establishment. This young and talented lady so justly classed at the head of the artistic celebrities of Louisiana, secures to the study of Music in Madame Devron's Academy a marked superiority. No mistress can better join example to precept, and thus to often the secret of the scholar's advancement. A musical examination takes place every semester and intended to prove the rapid and brilliant progress of Madame Lavillebeuvre's pupils.

Religious and moral instruction, which is the basis of every really good education, has received greater developments than in any other Boarding School in the city. Madame Devron herself superintends the religious exercises of the Catholic pupils, and M l'Abbe Tholomier prepares them for their first communion, and for confirmation by giving religious instruction several times every week in the Chapel of St. Louis' Institution. o4

IN QUART BOTTLES.

For the removal and permanent cure of all diseases arising from an impure state of the blood, or habit of the system.

THE Sarsaparilla is combined with the most effectual aids, the most salutary productions, the most potent simples of the vegetable kingdom, and its unprecedented success in the restoration to health of those who had long pined under the most distressing chronic maladies, has given it an exalted character—furnishing, as it does, evidence of its own intrinsic value, and recommending it to the afflicted in terms which the afflicted only can know. It has long been a most important desideratum in the practice of medicine, to obtain a remedy similar to this—one that would act on the liver, stomach and bowels with all the precision and potency of mineral preparations, yet without any of their deleterious effects upon the vital powers of the system. Although possessed of powerful healing properties, it is entirely harmless, and will not injure the most delicate constitution. When in perfect health no effect is produced by its use, except an increase of appetite; but when disease is seated in the frame, and carrying fast its victim along the path of life, then its mysterious influence is felt and seen. It renders new life and vigor, and brings health and strength to the suffering and diseased.

SCROFULOUS AFFECTION OF THE EYES.

WINCHESTER, Ky., Oct. 29, 1849.

A. B & D. Sands—Gentlemen: I would not have presumed to write to you, if it was not my duty to let the public know the almost miraculous effect your Sarsaparilla has had upon me. My limbs were covered with ulcerous sores, so that I could not walk during the whole Spring and Summer. In this situation I commenced the use of your Sarsaparilla, and after taking two bottles was entirely cured. I must also tell you of another wonderful cure. My brother was afflicted with this scrofula in his head, so bad his physician told him the loss of his sight was inevitable, and permanent blindness seemed to be his fate. Three bottles entirely restored his sight, and we cannot but recommend all similarly afflicted to use Sands's Sarsaparilla.

Yours truly, BENJAMIN F. BUCKNER.

ITS POPULARITY ABROAD.

FROM SOUTH AMERICA.

Maracaibo, Venezuela, April 12th, 1849.

Messrs. Sands—Gentlemen: I consider it a duty due the public to make known the great benefit I have received from using your valuable Sarsaparilla. About three years since I was attacked with Rheumatism in my shoulders, and also in my legs and so severe was the pain that I was unable to sleep. I tried all of the best medicines I could hear of with out receiving any benefit, until through the advice of a friend I procured some of your Sarsaparilla, and after using it ... in the course of fifteen days, I found myself ... I have no hesitation in saying your Sarsaparilla is the best medicine I ever took, and cordially recommend it to my friends and the public.

Your obedient servant, J. M. JESURUN.

Dr. Ed. Martin's Vermifuge Syrup.

Without any disagreeable Taste or Smell.

THE Matra Azedarach, (*Bois Bamiats, Lilas, ... Class X Ireland, Monogyn—Jussieu, Class XIII. ... Lamarch*) ... *Arbres ... Lorandfer: Class XXI. Arbres ...* ... ornaments of our trees, the root of which for some time past has been ... persons, justly reputed the best vermifuge known ... with the principal agent in this ... of remedy.

Having sought with the greatest care in the bark of the root of this tree, the active principle which produces such excellent results in vermicous affections of children, we have succeeded in extracting it in its purest state and by combining it with other tonic plants which are equally all indigenous to Louisiana, have arrived at composing the above VERMIFUGE SYRUP, the efficacity of which is now beyond the shadow of a doubt.

This Syrup, of an agreeable flavor, can be administered without the slightest apprehension to the most delicate children. Its use continued during three days, the doses being given at shorter intervals as the child may be older and stronger, will infallibly expulse all those intestinal worms which are the source of so many diseases, dangerous and often fatal to children.

Some mothers, rendered timorous by the frightful results of the various vermifuges hitherto employed, have given it to their children, but in doses extremely small; this has, in such cases, rendered the effect incomplete, and might have injured the standing of this remedy, had not several of our most experienced practitioners, by judiciously prescribing it and regulating the doses adapted to the different ages tested and established its excellent virtues.

To avoid debilitating the little patients by too severe a diet, we have modified the doses originally prescribed, in the following manner:

Children 2 to 5 years old, three tea spoonfuls a day, at an interval of from 1 to 2 hours. Above five years old, three table spoonfuls at the same intervals. No nourishment to be given between the first and third dose, nor within an hour after the third.

The Syrup must be administered during three consecutive days. Composed entirely of vegetable extracts, this Vermifuge does not produce any of the pernicious effects which have often followed the use of those hitherto in use.

Prepared and sold by E. E. MOUGIN, Chemist and Druggist, a15 corner of Dauphine and Customhouse sts.
