OFFICIAL.

[illegible] ...

"That all plates of boiler iron shall be distinctly and permanently stamped in such manner as the Secretary of the Treasury shall prescribe, and, if practicable, in such places that the marks shall be left visible after the plates are worked into boilers; with the name of the manufacturer, the quality of the iron, and whether or not hammered, and the place where the same is manufactured."

In pursuance of the authority vested in this Department by the above section of said law, notice is hereby given to the manufacturers of boiler iron that in future all iron to be used for boilers in steam vessels must be clearly and distinctly stamped in not less than three places on each sheet or plate as follows, viz: at two diagonal corners, at a distance of about four inches from the edges, and also about the middle of each plate or sheet, with the name of the manufacturer and the name of the place where manufactured, designating the latter by the name of the city, town, or county, and also State.

It is at the option of the parties to add the name of the works.

If the plates are formed from charcoal iron which has not been hammered before being rolled, it is to be so stamped, in connexion with the above with the letter C.

If of charcoal iron which has been hammered before being rolled, it is to be stamped with the letters C. H.

If of puddled iron, it is to be stamped with the letter P.

In addition to the above, the different qualities of the iron, 1st, 2d, 3d, &c., will be designated upon the plates by numerals, viz: No. 1, No. 2, No. 3, &c.

THO. CORWIN,
Secretary of the Treasury.

RED RIVER RAFT.

CONGRESS having recently amended the act providing for the removal of the Red River Raft, the advertisements heretofore inserted on this subject have been withdrawn, and the following substituted in their stead:

REMOVAL OF RED RIVER RAFT.

Proposals will be received at the War Department until the first day of April next, for removing the obstructions in Red River, known as the Red River Raft, and keeping the navigation of said river open and free from obstruction by rafts for a series of one or more years, as follows, viz:

Each bidder will propose to remove the said raft and to keep the navigation free from obstruction thereby, for a specified period, for the sum of $100,000, specifying in his bid the time within which he proposes to complete the removal, (the said time not to be later than the first day of January, 1855,) as also the number of years (counting from said removal) during which he binds himself to keep the navigation of the river free from obstructions for the said sum; and the contract shall be awarded to the bidder (provided the Department be satisfied with his responsibility and with the security offered by him) who shall propose to remove said raft and to keep the river free from obstruction thereby for the longest period of time.

The contractor will be required to give his bond for $20,000, with two good sureties, each for the sum of $10,000, conditioned for the faithful execution of the contract. Each bidder will transmit at the same time with his proposals, the names of the persons whom he offers as sureties, and a declaration, signed by them that they will sign his bond as sureties as above-mentioned; and also the certificate of a district judge of the United States for the State in which he resides, that said securities are respectable citizens, and that he considers them worth $10,000 over and above all their debts and liabilities. No bid will be considered unless these conditions shall be complied with.

Terms of Payment.

Of the sum of $100,000 appropriated for the above object, $50,000 shall be paid as the work of removing the raft advances, as follows, to-wit: Whenever the contractor shall report that a portion of the raft has been removed, the same shall be inspected by an officer appointed by the War Department, and if it shall appear that such is the fact, the Department will pay such a proportion of the said sum of $50,000 as the portion removed shall bear to the entire raft, provided no partial payment shall be made for less than one-tenth part of the whole work. The remaining $50,000 will be paid in equal annual instalments corresponding in number with the number of years during which the contractor shall bind himself to keep the navigation open, of which fact the Department is to be the sole judge.

Each bid must be for the whole work, that is, for the removal of the raft, and for keeping the river open for a specified period. No separate proposals for portions of it will be considered.

The proposals will be addressed to the undersigned, marked on the envelope, "Proposals for removing Red River Raft."

J. J. ABERT,
Colonel Corps Topographical Engineers.

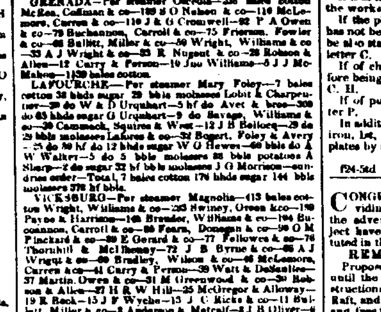
MEDICAL.



Holloway's Pills the most certain Remedy for the cure of Dropsy.—Mr. James Smith, of Oxford street, Manchester, suffered for years from a dropsical complaint; his body and legs were swollen to a most alarming extent, and no hopes whatever were entertained of his recovery; he was for some time in the hospital, besides having taken every variety of medicine usually prescribed for the cure of dropsy, yet all proved useless, and his case was pronounced incurable. Holloway's Pills were then resorted to, which soon had the effect of improving his health, and by reducing the swelling, so that now he is perfectly cured of that direful complaint, by taking these wonderful Pills.

G. BOYER'S INSTITUTION.
No. 148 Conti Street, between Dauphine and Burgundy.

MR. G. BOYER, founder of this establishment, the oldest in New Orleans, avails himself of this opportunity to make a new appeal to the confidence of parents. This institution is conducted in a large mansion, occupying a fine central position, being well ventilated, and in other respects perfectly salubrious. The range of studies which engage the attention of the pupils, carries over all the branches of learning, which are necessary to a useful, polite and finished education; from primary instruction, to the more abstruse subjects which are especially the province of a collegiate course. The elementary studies are attended to with more than ordinary care, considering the decisive influence which they exercise over the other branches of instruction. Discipline, which must not be separated from assiduous study, nor from a good education, is conducted with solicitude. It is calculated according to the age and character of the students, and intended to give them an accurate idea of duty and good behavior.

At the corner of Bayou and Claiborne streets.

THIS SEMINARY, whose existence dates some six years back, has met with a success that proves beyond all cavil, the capacity of those who have charge of it.

Determined to merit the confidence of parents, Madam Champaux will spare no pains to make her Seminary equal to the best institutions of the kind in New Orleans, and in order to do this, she has employed the ablest teachers.

Madam Champaux has purchased a large and airy edifice on one of the highest pieces of ground in the city, and has had gymnastic apparatus built for the pupils. For the better to consult the health of her pupils, she has had spacious and elevated apartments built, on purpose for school and sleeping rooms, through which there will be a constant circulation of air from many windows.

Great attention will be paid to the improvement of Scholars in the English language. For this purpose, American ladies of acknowledged capacity, as teachers, will constantly reside in the Seminary.

Music having become a most desirable branch of the education of young ladies, Mr. Champaux, from the first salon in Paris, will give lessons to pupils on the piano-forte. ... Mr. Champaux ... will teach ... the Scholars ... [illegible] ...

In order to kindle emulation among the Pupils, and improve their singing, on the morning of the last Saturday in every month, there will be a musical examination and a distribution of rewards.

Madam Champaux, in order to complete the education of her Scholars, has opened a class where will be taught all the useful and ornamental works in vogue.

ST. LOUIS INSTITUTION.
DIRECTED BY
Madame M. Deron,
No. 145 St. Louis street, between Dauphine and Burgundy streets, New Orleans.
SCHOLASTIC YEAR, 1851-1852.

THIS Institution which for the last twelve years, has followed a constant career of progress and prosperity, has resumed its usual course of studies since the first September.

Madame Deron, formerly a pupil and professor of the "Maison Royale of St. Denis," and a graduate of the University of France, has secured the services of the most distinguished professors ... places her Institution in the first rank of educational establishments in America.

Madame Deron, exclusively devoted to her pupils, applies herself not only to the cultivation of their mind, but she pays the strictest attention to their health; she desires that the young ladies confided to her care, may be remarked for all those valuable qualities which constitute a really good education, such as good order, correct deportment, amiability of temper, and solidity of judgment, ... and kindness, that ... shall ... distinguish ... [illegible] ...

The locality of the institution well known and appreciated in New Orleans, as one of the most suitable and salubrious in the city, is perfectly well arranged; the class and study rooms and dormitories are spacious and airy, looking over several gardens, and there are besides a handsome yard and a terrace sheltered from the sun and intended for the recreation of the pupils.

The general instruction is given both in French and English; it embraces all the branches which constitute a finished education for young ladies. The English language is the object of special care, the Creole pupils are required in their communications with each other, and with their professors, to speak the English language exclusively.

Mr. Orton, who has been attached to the Academy from its foundation, devotes a great part of his time to impart to the pupils of the higher classes, a thorough knowledge of the English language and literature, the other classes are intrusted to well qualified American governesses.

Madame Deron has reserved to herself the direction of the French classes. She has besides secured the assistance of an excellent Professor of the higher sciences, Monsieur H. Jugon, who divides with Monsieur H. Deron and Madame Deron, the care of the French department.

The Spanish language forms a part of the system of study.

With respect to religious instructions M. l'Abbe Tholomere, whose zeal is so justly appreciated, continue to prepare the pupils for their first communion in the chapel of the Institution.

MUSIC.

The study of Music is the object of particular care. Madame Lavillebeuvre, an artist of the highest order is attached to the institution as Professor of the Piano and Harp. A course of Vocal Music by one of the best Professors of the city.

As a means of emulation, the institution has adopted monthly musical examinations at which parents are invited to be present.

A Professor of Dancing is attached to the establishment. s30

YOUNG LADIES' ACADEMY.

MADAME PARENT has removed her institution to Customhouse st., between Royal and Bourbon, No. 86, the house heretofore occupied by M'me. Granet, and is ready to receive boarders, half boarders, and day scholars. There is a very large yard, together with a garden for the young ladies to amuse themselves. The apartments are vast and well aired. There is every advantage and education offered to parents, as to the moral and intellectual cultivation of the minds of their daughters. The best Professors are employed. Every branch of a solid and refined education is taught. In both languages; also, accomplishments such as drawing, Painting, Embroidery, &c.

MADAME PARENT would inform the public that she has made permanent engagements with Professor Le Bourgeois and Auchenty, late (principals of the Franklin High School.) It would be superfluous to add anything respecting the very distinguished talents of these gentlemen, who are already so long known to the community at large. The former has charge of the French language and French literature; the latter, the supervision of the higher English classes and natural sciences.

The Musical department is under the direction of three of the most competent and acknowledged talents in the city.

Professor Allston has the special charge of the Mathematical branches.

Mr. Geoibrel has been engaged as a Teacher of Vocal Music.

For terms apply at the institution. Parents are permitted to visit this institution on Sundays.

Once a week, (Saturday,) between 12 and 1 o'clock, the young ladies assemble in the parlor, in order to acquire those polite and graceful manners so necessary to young persons when they enter society.

The Verandah Billiard Saloon.

THE subscriber takes leave to inform gentlemen amateur Billiard Players that he has fitted up the above well known establishment, for their accommodation, without regard to labor or expense, and he assures those who honor him with a call, that he will omit nothing which shall add to their comfort or pleasure.

There are two spacious, well lighted Saloons, each containing four tables, manufactured by that justly celebrated maker, Mr. B. Antognini, of this city. They are made of solid mahogany, and of the most approved pattern, and are furnished with marble beds, with slate beds, and the cushions of all are superior double India rubber, on a new principle lately obtained from Europe, by Mr. Antognini. These cushions cannot be surpassed, and are said, by billiard players, to be the best ever used.

No kind of gambling will be allowed in the saloons and for this reason the Poole Table has been entirely excluded, the desire of the subscriber being to make his establishment the undisturbed and peaceable resort of his friends and patrons. Such a place has long been needed in New Orleans and the subscriber relies upon the patronage of gentlemen amateur billiard players to support and encourage the undertaking. [s8] LUCAS ORLICH.

Notice.

THE house known in this city under the firm of Daran, Chaigneau & Co., will carry on the same business as heretofore, under the firm of Daran, Labjche & Co., in as much as Mr. A. L. Chaigneau has sold his titles and claims to Mr. J. H. Labjche, who has taken his place.
