MANDEVILLE COLLEGE.

THE labors of the Directors of this Institution have been already rewarded by the confidence of the public. The number of students in its halls is more considerable than could have been anticipated for the short time it has been under the present direction. Its patrons rank among the most intelligent and influential citizens of Louisiana.

The success of the College may, in part, be attributed to its various local advantages. The buildings are of vast extent, and admirably adapted to the purpose for which they are used. A steamboat plies regularly between the College and the city of New Orleans, facilitating the communication between the students and their parents. The health and recreation of the students are promoted considerably by bathing in the Lake, at the proper season, and by walking under the shade of the surrounding forest.

But it is not to its favorable situation alone that the College is indebted for its success. The result of the late examination has shown that the Directors have been fortunate in their choice of Professors, and that the public confidence has been justly bestowed. In consequence of the increase in the number of students, the Directors have engaged the valuable services of Professor Roe, a gentleman favorably known to the public, still retaining all the Professors already attached to the College.

The care of the student's clothes will be confided to a competent person, under the superintendence of Mrs. McManus. The students, for the future, will receive, from Mrs. McManus, that maternal care so necessary, particularly for young children, when absent from their homes.
j10 FELIX McMANUS, President.

TO SUGAR PLANTERS.

ECONOMY IN THE CONSUMPTION OF WOOD.

APOLINAIRE PERRAULT, has the honor to inform the SUGAR PLANTERS, that he is in possession of an INFALLIBLE PLAN for boiling Sugar, and for ECONOMY IN THE CONSUMPTION OF WOOD. He is so certain of success, that he will undertake to state the quantity of wood, which his apparatus will consume in the space of 24 hours, which cannot exceed one cord and three quarters for ripe cane. By this method apparatuses with 4 kettles can make from 7 to 9 thousand pounds of Sugar in 24 hours. He likewise guarantees that apparatuses made according to his plan, will enable the Planter to make three hundred hogsheads of Sugar, without its being necessary to withdraw the ashes. Planters desirous of honoring him with their confidence, may trust the more implicitly to his declaration, as he will contract not to require his compensation until the work is tested and accepted, agreeing also to repair it, if necessary, after the grinding.

The price of the Kettles is $40 and of the flues $50.

SANDS' SARSAPARILLA.

FOR THE REMOVAL AND PERMANENT CURE OF ALL DISEASES ARISING FROM AN IMPURE STATE OF THE BLOOD, OR HABIT OF THE SYSTEM.

THE functions of circulation, nutrition and excretion are manifested when life is reduced, as in the plant, to its simplest condition; and these must, therefore, be its essential action. Between the apparatus by which these necessary physical processes are carried on, there is a reciprocal action, and if one portion of the animal machinery is out of order, the harmony of the whole system is deranged. The great desideratum in medicine, therefore, is a preparation which shall act with equal certainty and force upon each one of this triad of functions—which shall, as the case may require, restore health and vigor to the circulation, give tone to the stomach, or remove obstructions from the bowels. It is confidently averred that SANDS' SARSAPARILLA possesses this three-fold power, and that by thus acting on the primary causes of disease, it eradicates thoroughly and permanently its various painful, dangerous, and disgusting manifestations. From a simple eruption of the skin, to hereditary scrofula, and from dyspepsia to gout and inflammatory rheumatism, it will be found equally efficacious.

The following certificate exemplifies, in a most remarkable manner, the great medical value of the Sarsaparilla in a severe case of Scrofulous affection:—
NEW YORK, July 4th, 1845.

MESSRS. A. B. & D. SANDS:

Gentlemen,—It is impossible for me to describe the value and benefit your Sarsaparilla has been to me. I have been afflicted with virulent ulcers more or less, for the last seven years, especially in the summer season. At first they appeared in small bunches on various parts of my body, and then increased in size, attended with acute pain, until they would at last break and discharge large quantities of matter, forming ulcers, which would at last leave holes down to the very bone. My sufferings were intense. I consulted the most eminent physicians in the city with but little benefit. During the winter I would get some better, but when spring came they returned again, and, at last, I was convinced in my own mind that it would be impossible for me to live another summer after suffering as much as I did the last, but the Lord has spared me from one year to another until I at last heard of your Sarsaparilla. For about four months previous to my taking your Sarsaparilla, I could not sleep, but a little while at a time, either day or night, and at times it seemed as though I should die with pain and for the want of sleep. I dreaded the return of night, being obliged to sit up most of the time, and frequently on retiring to rest, I thought my children would find me dead in the morning. After I commenced using the Sarsaparilla, and before I had quite taken the third bottle, I woke one night, and feeling no pain, I thought I was dying, and resolved in mind to rise up to see if I had any strength. Finding no difficulty in doing so and after sitting up a short time, I found that I felt much better and I continued to improve until there is now not a pain about me, while before it seemed as if my joints would part with pain. My appetite and strength increased and I was soon able to attend to my domestic duties, and now my ulcers are all healed, and my general health and strength is fully restored, all of which I ascribe to the use of your Sarsaparilla.
Your obliged friend, SARAH ELLISON.

The following letter, received from Capt. Garrow, a gentleman well known and of the highest respectability, residing at Mobile, shows conclusively the value and efficacy of Sand's Sarsaparilla in cases of chronic rheumatism.
MOBILE, (Ala.) July 31, 1844.

MESSRS. SANDS—*Gents*:—I was afflicted for more than ten years with rheumatism, and it is with pleasure I avail myself of this opportunity to express to you the salutary effect your Sarsaparilla had on me. In January, 1842, I purchased of your agents, Messrs. Mosley & Tucker, five bottles, which I took agreeably to the printed directions, which entirely removed the complaint, and I have now every reason to believe my health is permanently recovered.
Yours, very respectfully, S. H. GARROW.

For further particulars and conclusive evidence of the superior value and efficacy, see pamphlets, which may be obtained of agents gratis.

Prepared and sold, wholesale and retail, by A. B. & D. SANDS, Wholesale Druggists, 79 Fulton street, New York. Sold also by Sickles & co, 24 Magazine and 40 Canal street, A. Oliver & co, and L. J. Dubilho, jr, Mosley & Tucker, Mobile, and by druggists generally throughout the United States. Price, $1 per bottle; 6 bottles for $5.

The public are respectfully requested to remember that it is Sands' Sarsaparilla that has and is constantly achieving such remarkable cures of the most difficult class of diseases to which the human frame is subject; therefore ask for Sands' Sarsaparilla, and take no other. j10—1m

The foregoing described property is all situated in faubourg Treme, which is certainly at present the most flourishing part of the city of New Orleans, and is all capable of being built upon at once. By the late arrangements with the Draining Company by the First Municipality the draining machine on the Bayou St John, between the Bayou Road and the Canal Carondelet, is placed entirely under the control of the corporation, which is bound to keep the machinery, &c. in good condition, and the land perfectly free from water without any expense to the property owners in the neighborhood. The municipality had reserved six squares of ground of the Blanc purchase for public use, intending to improve the same hereafter.

The extremely liberal terms of payment at which this property is offered will enable every industrious person to become a property owner, upon which he can place himself a house at a small outlay, thereby avoiding the constant drain on his pocket for house rent. There is none of this property more than half an hour's walk from the Mississippi river, and with the improvements daily making in its direction, it will by means of good streets, banquettes, &c, be at all times easy of access.

The attention of mechanics and the laboring classes generally of our community, is particularly called to this sale, who are requested to visit the premises and examine for themselves prior to the day of sale.

Plans of the property will be exhibited at the St. Louis Hotel, and may in the meanwhile, be seen at the Surveyor's office. Lithographic plans will be distributed on the day of sale.

TERMS OF SALE.

One-fifth of the purchase money—Cash and the balance at one, two, three, four and five years credit, first and second year's notes to be endorsed to the satisfaction of the Committee appointed to superintend the sale, all the notes to bear interest at five per cent per annum till paid, with mortgage on the property sold. Purchasers will have the privilege of discounting the one and two years notes at eight per cent per annum.

Acts of sale to be passed before Jos Cuvillier, not public, at the expense of the purchasers.

Should any purchaser fail to complete the act of sale within thirty days after the adjudication, the property will be sold after ten days notice for his account and risk.

The French and Spanish Languages,

TAUGHT BY AN IMPROVED AND SUCCESSFUL SYSTEM.

THE undersigned, author of *A Scientific, Practical Method* of imparting the knowledge of the French and Spanish Languages to adults," respectfully announces to those who wish to acquire the necessary knowledge of either of the above languages that his principle of teaching, different from any hitherto adopted, is peculiar and successful. Without labor or vexation, his pupils invariably learn to read, to write and to speak fluently and with grammatical exactness these languages in one half the time they would by any other system yet made public.

This method of instruction, being now for these eight years sufficiently tested in the city of New Orleans, supersedes the necessity of further explanation.

Gentlemen wishing to join any of his day or evening classes can apply at his office, No 14 Exchange Place, from 9 o'clock in the morning until 1 P. M, and from 5 o'clock in the evening until 9. J B DE PALOS.

TARRANT'S CORDIAL ELIXIR OF TURKEY RHUBARB

POPULAR MEDICINE.

TARRANT'S EFFERVESCENT SELTZER APERIENT.—A new general strengthening Aperient, combining efficacy, economy and portability.

Its utility stands acknowledged and unrivalled among the medical remedies of the day. As a family medicine it offers unusual attraction, being highly palatable and soothing, and peculiarly adapted for females and children. Its effervescence is delightful and pleasant. Its taste highly agreeable, and its preparation easy and convenient. Residents of warm climates, and especially travellers through the "Sunny South," should regard with favor an aperient possessing advantages, which on trial they will always find realized, as preventive and dispeller of sick headache, bilious attacks and fevers, which so fatally prostrate the strength and energies of those unaccustomed to the many sudden changes of the atmosphere at the South. It is indeed deserving their notice, as it will in truth reward the purchaser with the inestimable blessings of renewed health and an invigorated and healthful condition of body. A pamphlet, with full and particular directions for its use, with numerous testimonials from the most eminent of the medical faculty, accompany each bottle.
