MEDICAL.

DOCTOR HOOFLAND'S CELEBRATED

German Bitters,

PREPARED BY

DR. C. M. JACKSON, Philad'a., Pa.,

WILL EFFECTUALLY CURE

LIVER COMPLAINT, DYSPEPSIA, JAUNDICE,

Chronic or Nervous Debility, Diseases of the Kidneys, and all diseases arising from a disordered Liver or Stomach.

Such as Constipation, Inward Piles, Fullness or Blood to the Head, Acidity of the Stomach, Nausea, Heartburn, Disgust for Food, Fullness or weight in the Stomach, Sour Eructations, Sinking, or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried and difficult Breathing, Fluttering at the Heart, Choking or Suffocating Sensations when in a lying Posture, Dimness of Vision, Dots or Webs before the Sight, Fever and Dull Pain in the Head, Deficiency of Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, &c., Sudden Flushes of Heat, Burning in the Flesh, Constant Imaginings of Evil, and great Depression of Spirits.

In attributing such valuable Medical properties to this remedy, no rash or unwarrantable assertion is made, but is simply stated a fact proven undeniably and conclusively by the extraordinary cures, and benefits derived from its use, under the direction of its illustrious originator, Dr. Hoofland, among all classes of European society and from the immense mass of testimony, from all parts of the American continent, accumulated during the last ten years, in the hands of the present proprietor. The prevalence of disease to which the German Bitters are adopted, it is with sorrow we say it is almost universal, indeed there is hardly a family throughout the whole extent of our country in which there cannot be found among its members that peculiar YELLOW AND LANGUID APPEARANCE denoting a diseased Liver, or an emaciated and suffering Dyspeptic.

Then of what an immense importance to this class of invalids, that a certain and reliable remedy, should be placed within their reach. One in which no baneful or injurious drug enters into its composition; a remedy on which the patient can rely with the utmost confidence and certainty and be assured from actual and tangible proofs, that the article he is taking really possesses the virtue attributed to it. Such a remedy is "HOOFLAND'S GERMAN BITTERS." Thousands of dollars have been expended in its manufacture and diffusion throughout all parts of this continent, and the proprietor feels the greatest satisfaction in stating, that there is no State, county or even village where the Medicine has been introduced, that there cannot be found numbers, willing to testify to its virtues.

It is used constantly in the practice of a large number of the most prominent Physicians in the country, who have also added their written testimony, in evidence of its great virtue. In conclusion then we would respectfully ask of all those, afflicted with any of the above diseases to give the Bitters a trial, and rest assured it will never be regretted. In proof of the statements above made, all are invited to read attentively the "Memorabilia" or "Practical Receipt Book," for Farmers and Families, containing a great number of useful receipts, in addition to the testimony, in favor of the Bitters, from the most prominent and well known individuals, in all parts of the Union. All Agents for the Bitters are authorized to distribute the "Receipt Book" gratuitously.

DAY AND BOARDING SCHOOL,

UNDER THE DIRECTION OF

MADAME PARENT,

Corner of Rampart and Du Maine streets.

THIS Institution occupies one of the best locations in the city with respect to health and many other important advantages. The building is magnificent, the apartments are vast and well ventilated, and are particularly well adapted for classes.

There are four fine dormitories with dressing cabinets; also spacious galleries all through the house; a splendid terrace commanding a most beautiful view of the city, as far as the Lake.

The best advantages are offered to parents, as to the moral and intellectual cultivation of the minds of their daughters.

Madame Parent is always present with her pupils; she teaches during the hours of class, and superintends the different divisions. There is an ample number of the best professors employed, besides ladies residing in the institution.

Every branch of a solid and refined education is taught in both languages; all accomplishments, such as Drawing, Painting, Dancing and Embroidery, &c.

The Musical department (including vocal and instrumental) is conducted by four of the most competent and acknowledged talents in the city.

It would be superfluous to add anything respecting the special attention that is paid to the English language—the best guarantee that Madame Parent can give the public, is, that the French young ladies who have been educated by her speak it the same as their mother tongue.

For terms, apply at the Institution where prospectuses can be obtained.

References—Rev'd Dr. Scott; Rev'd Mr. Leone; Rev'd Dr. Leacock; Hon. Pierre Soulé.

THE Directress of this Establishment, being fully sensible of the importance of the English language, has introduced new modifications in the mode of teaching.

The number of English Professors has been increased. Besides two distinguished Professors who are charged with the instruction of the three higher classes, two American ladies, who attend to the elementary classes and the general superintendence, speak English only. The pupils are therefore compelled, in their scientific exercises, to express themselves in English alone. With a view to this result, Madam Deron has established strict regulations which she will personally see enforced, for she wishes families to be convinced of the advantages of the constant practice of the principal language of the country, is required at the Institute.

Moral and religious education and good manners, which can be acquired only by example, are looked upon as highly important by Madam Deron, and she will use her best exertions to create patience and mild discipline on the one side, and patience and affection on the other, among the pupils and the teachers.

The musical classes, still under the management of Mr. Lartilleux, are constantly and carefully attended to.

The annual examination begins in October.

Summer Residence.

From the month of June, a branch of the St. Louis Institute is opened at Mandeville, a delightful village free from epidemic diseases. Madam Deron's object in opening it, is to afford to unacclimated young ladies or those wishing to spend a few months in the country, the facility of continuing their studies at the same time as though in the city. Both establishments are opened during the entire summer.

A carriage is attached to the establishment, which conveys young ladies not living above Canal street, to and from the Institute.
