"The foundation of my proposition is, that Millard Fillmore has administered the Executive office of the United States with signal success and ability, and has been tried and found true and faithful, pure and conscientious."—HORACE GREELY.

"If there be those, North or South, who desire an administration for the South, as against the South, or for the South, as against the North, they are not the men who should have my suffrage in me. For my own part I love only my country, and which recently I knew nothing but my country."—MILLARD FILLMORE'S ANSWER TO THE CARDINAL OF NEW YORK.

AN APPEAL FROM THE NORTH TO THE SOUTH.

Within the last week or two we have received a number of letters from prominent conservatives of the North, setting forth the dangers of the crisis, deprecating the alleged depredations of the attempt to elect Mr. Fillmore, and exhorting their brethren in the South, and exhorting their brethren in the South, and earnestly and resolutely unite with the patriots of the North in the effort to save the country from the rule of a Freesoil President. From our correspondence, we select one written by a distinguished citizen of New York, well known for his high Union principles, and one of the most intelligent observers in the country. In stating that we have many such letters, we do not fully comprehend the position of parties in the North, he writes as follows:

"Since our daily to assume that question which is the first point to be decided in Mr. Fillmore's mind is the North. He will nothing, I believe, but for what the circumstances of the case, I have no doubt, you may rely upon it that he is desperately weak throughout the North. He cannot carry a single non-slaveholding State except Pennsylvania, and his prospects are becoming rapidly overshadowed in that State. New York he will fall behind the combined vote of the Americans and Republicans here. This is conceded. The so-called Democrats have been rapidly stripped of his adoption by the resolutions of the late in Fremont, so that the issue is between the latter and Buchanan.

"Now, you must know that we have many of the South are in Europe, leaving the burden of disunion and the North, who are breaking down, or, if you remember, sinking down. Yet I believe that it will be impossible to prevent Virginia from engaging in that sentimental enterprise, and striking to keep her flag. In my opinion, it is not to be the North can only be certain will be the decision of Pennsylvania, I feel confident, with proper exertion, will be the result. It is your duty to give him the support of Virginia, Tennessee, and Virginia, Tennessee, and Virginia. We shall fight the battle in every North, regardless of everything but principle, and we have to gain so far are now doing, I wish we could have Illinois and Indiana. But yes, one of the two with the South must come on us, and we must act for, after all, we are fighting for our rights.

"The tone of regret in this letter is sufficiently accounted for by the unmodified facts which we have given. It is presented to the public, that we perceive impose themselves upon the intelligent and unbiassed minds of the country. It is for the South to weigh and consider the subject, and determine their action, guessing as it does such high and spontaneously proclaimed opinions should not be lightly regarded.
