PLATINA CEMENT

DR. ACHILLE LION, Dentist, of the Faculty of Paris, after many researches, has discovered this valuable composition, which he applies with the utmost success in plugging decayed teeth, and eradicating tooth-ache. The composition of the Platina Cement, which is entirely mineral, is incorruptible; it is used cold, either in a liquid state, but equally secures the hardness and consistency of the enamel of the tooth when in its purity. It will last for many years, not only as a preservative of the tooth, but also to render extremely sensitive teeth easy.

Apply at No. 106 Royal street, between Conti and St. Louis streets, fronting the Louisiana State Bank f19
