MEDICAL.

CHERRY PECTORAL,

...for the cure of Cases of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

TO CURE A COLD WITH HEADACHE AND SORENESS OF THE BODY, take the CHERRY PECTORAL on going to bed, and sweat in violence by morning; relief follows.

FOR A COLD AND COUGH, take it morning, noon and evening, according to direction. The effects will soon be removed. None will long suffer from this trouble when they find it can be so readily cured. Persons afflicted with a seated cough, which breaks them of their rest at night, will find, by taking the CHERRY PECTORAL on going to bed, they may sleep on quietly, unbroken above, and consequently refreshing rest. Great relief from suffering, and ultimate cure, is experienced by thousands who are thus afflicted, by this invaluable remedy.

From its agreeable effect in these cases, many find themselves unwilling to forego its use when the necessity for it has ceased.

From two eminent Physicians in FAYETTEVILLE, Tenn., April 10th, 1851.

DR.—We have given your CHERRY PECTORAL an extensive trial in our practice, and find it to be more powerful than any other remedy we have for curing affections of the respiratory organs.

DRS. DIKMER & HAMPTON.

TO SINGERS AND PUBLIC SPEAKERS this remedy is invaluable, as by its action on the throat and lungs, when taken in small quantities, it removes all hoarseness in a few hours, and wonderfully increases the power and flexibility of the voice.

ASTHMA is generally much relieved, and often wholly cured by CHERRY PECTORAL. But there are some cases so obstinate as to yield entirely to no medicine. CHERRY PECTORAL will cure them, if they can be cured.

BRONCHITIS, or irritation of the throat and upper portion of the lungs, may be cured by taking CHERRY PECTORAL in small and frequent doses. The unmeasurable opposition is soon relieved.

Rev Prof. LABORDE of Brooklyn, New York, states—"I have seen the CHERRY PECTORAL cure such cases of Asthma and Bronchitis as leads me to believe it can rarely fail to cure these diseases."

FOR CROUP, Give an emetic of antimony, to be followed by large and frequent doses of the CHERRY PECTORAL, until it subdues the disease. It takes in one case, it will not fail to cure.

WHOOPING COUGH may be broken up and soon cured, by the use of CHERRY PECTORAL.

INFLUENZA is speedily removed by this remedy. Numerous instances have been noticed where whole families were prostrated, without any serious consequences, while their neighbors, without the CHERRY PECTORAL, were suffering from the disease.

Doctor J. C Avery—I write to inform you of the truly astonishing effects of your CHERRY PECTORAL in this place, and in my own family. One of my daughters was completely laid by—her life despaired of, by a dreadful Whooping Cough, by taking it, Dr. Evans, one of our best physicians, freely admits that he considers it the best remedy we have for pulmonary diseases, and thinks it the most cure of Croup with it than any other medicine he knows of.

Our clergyman of the Baptist Church says, that during his ministry of 15 years, he has never seen the best cures from your medicine, he could scarcely have believed without seeing.

Yours respectfully, J. D. SINCLAIR.

Deputy Postmaster.

From the distinguished Professor of Chemistry and Materia Medica, Bowdoin College.

I have found the CHERRY PECTORAL acts ingredients in short, in all cases of prostration and dispeptic functions, it is of inestimable value. During the prevalence of epidemic cholera, I used it in many patients of children, it is peculiarly efficacious in removing any or individual should be without it.
