PERFECTED CHEMICAL PAPER

Of A. ANSELIN, Pharmacien, Temple street, No. 23, at Paris.

This convenient, clean, effectual and inexpensive form is one of the most precious therapeutic agents. Sorella, and the only one which has been demonstrated its superiority. Its extraordinary action is incontestable in cases of gout, rheumatism, lumbago, wry-neck, neuralgia, palpitation, etc. Sold by druggists generally. In the same establishment are manufactured STICKING PLASTERS of every kind, ANTIPHLOGISTIC PLASTERS, VESICE PAPER, paper for BLISTERS, COURT PLASTER, AT-home products of remarkable for their production and cheapness.—At New Orleans by ED. GUILLOT.

HEALTH IS MAN'S CHIEF BLESSING!

"Oh Hygeiana! how fair are thy fanes
From Nature's pure breath to search of these!
Where Health has been pure found, we stray,
Her Goddess institutes a'er obey.
Too proud from Nature's self to learn—
Nature's own remedies we spurn."

WRIGHT'S SOUTHERN INDIAN VEGETABLE PILLS

ARE OFFERED TO THE PEOPLE OF THE CONFEDERATE STATES OF AMERICA AS A PURE, HARMLESS, SIMPLE, AND NATURAL Alterative and Blood Purifier,

FOR THE Toning and Fortifying of the System against Disease, either Occasional or Epidemic; and for the cure of all Affects having the name of

Intermittent, Remittent, Nervous, Inflammatory and Putrid Fevers; Measles, Small pox and Erysipelas; Inflammation of the Brain, Throat, Stomach, Lungs, Liver, Intestines, Kidneys and Bladder; Pain in the Stomach, Back and Side; Congestion; Dropsy of the Head, of the Chest, of the Abdomen and of the Limbs; Scrofula, Scurvy and Syphilis; Gravel; Loss of Appetite; Sick Headache; Spitting of Blood; Emmenagogue; Jaundice and Chlorosis; Diarrhea, Dysentery and Colics; Spasms, Apoplexy and Paralysis; Dyspepsia, Hypochondriasis, Tetanus, Epilepsy, St. Vitus's Dance; Diseases of the Heart, Ulcers and Sores of every description; Hysteria, Weak Nerves and Lassitude; Gravel; Suppression, and other delicate Female Complaints.

WHAT ARE THESE PILLS?

Composed of the simple extracts of four plants, common to most of the woods in Central Alabama and Mississippi, these pills combine in a remarkable degree the four great curative powers known to modern science, viz: Tonic; Relaxing to expel all fever from the system without crushing its elasticity or producing its losses by the introduction of nauseous drugs or mineral agents.

There is not a remedy used by the medical profession, known to the people of science, that approaches in such perfection and with such harmonious results, the four great secretive of health—the *Bederific*, the *Diuretic*, the *Expectorant* and the *Cathartic*.

This is not a *"secret medicine"*. These pills have been used for many years, they have been analyzed by chemists, they have received the fullest endorsement from the most eminent medical practitioners, and they *never failed of success*.

No production of originality are made in their favor; no assertions of astonishing discoveries in some impossible manner are set forth; no effort is made to deceive or humbug any one. All that is claimed is, that these pills have been proven to be a remarkable remedy, operating with certainty upon the whole system, producing their effect, agreeable in their nature, and as harmless for evil as bread and water.

How They Are Made.

Wright's Southern Indian Vegetable Pills have been hitherto solely and are now mainly prepared to fill special orders from physicians, druggists, planters, and other regular customers, who have been aggrieved on account of their knowledge that they are made of pure, simple and efficacious ingredients; and because of their combination by Dr. Wright, as being free from the temptation of offering any thing to the trade that is not pure and genuine. The new process of distilling the plants and purifying the essential elements from all foreign matter, (which was made mainly the discovery of that great chemist, Dr. Torrey,) has since enabled him to make these pills at a cost sufficiently reasonable to place them before the public as a general remedy. The following certificates from the well known analytic chemist, Dr. Prentiss, is a sufficient guarantee of their purity:

Dr. Jesse Wright:—Sir—At your request I have subjected to the test of analysis a quantity of your Southern Indian Vegetable Pills, selected at random, and take pleasure in certifying that I found them to be free from nothing deleterious to the human system, but on the contrary, they possess the Sudorific, Diuretic, Expectorant and Cathartic properties in a remarkably harmonious combination, and my opinion is that they are the purest and most universal remedy known to the world.

Respectfully, A. D. PRESTON, M. D.

Their Use by the Profession.

If the endorsement of their virtues by every leading physician who has tried them, and their general use among their practice, can be a recommendation to the public, then Wright's Southern Indian Vegetable Pills have a claim upon the popular confidence which can be set up for no others that we know of. On this subject we are induced to insert the following extract of a private letter from the venerable Dr. Hosack, one of the ablest and most experienced leaders of his profession in the whole South:

It may be said that I am injuring the prestige of my profession by thus providing how much its services can be dispensed with, but I permit no partner principles of that nature to sway my conscientious notice of my toward those who have placed the healing well being so much in my keeping. I might easily have told them these pills were of my own preparation, but that I adhere to the good old principle, "Give unto Caesar the things that are Caesar's." My advice to all who are within the range of my practice is to keep your pills by them, and at the first warning which disease gives them, commence taking them according to the directions, and keep at their use until they are certain they have driven the enemy. In nine cases out of ten where I can afterwards called in, I only have to administer a mild aperient and my patients recover their health in spite of the invalid, and greatly to the annoyance and astonishment of those who believe they cannot recover of any sickness without swallowing an immense quantity of nauseous and disgusting drugs."

Testimony of a Minister.

In this respect we think it worth while to publish two letters received from gentlemen whose high standing renders their testimony of no little weight with people of common sense. One is from the Rev. J. R. Bryce, an widely known and loved throughout Arkansas, and more lately called to a new field of labor in Northern Texas, who wrote to Dr. John Wright, under date of Nacogdoches, September, 1859, as follows:

You little know the good which has been accomplished already by those few boxes of pills you recommended to me at that visit. They have been a blessing to many an unfortunate sufferer of my little flock, and to all the neighborhood they are hailed as the harbinger of health. I am satisfied now, as my dear friend, that I even underestimated their value at the time you explained their effects to me. Such a cure and pleasant remedy was never before given to the helpless then by his merciful Author.

The other is from a wealthy and successful planter of Alabama, which we insert entire.

Letter from a Planter.

ROSEVALE, ALA., November 4, 1859.

MESSRS. JOHN WRIGHT & CO., New Orleans.

GENTLEMEN:—Inclosed please find my check No. 794, at three days' sight, on Mobile, for $189 50, in settlement of account to date. You will please forward to me three dozen boxes more of Wright's Southern Indian Vegetable Pills. They are the greatest thing I ever saw accomplished and are a blessing to medical humanity in my place. The directions are so plain and so simply illustrated that my overseer finds no difficulty in treating every case of sickness that comes to his knowledge with prompt and perfect success. My negroes are healthier and stronger than they ever before were, I know, and I candidly confess it to be my opinion, and that of my overseer, that this agreeable fact is solely due to the cure which is taken of them at the first appearance of sickness, and there being treated by a course of these pills. I am then, altogether in my own place, and would not be without a full supply for a small family. Pills may seem high prices to you, but I assure you it is a thing more not less than the plain, matter-of-fact truth. Please forward the pills at once, and by the same route as before. Yours, truly,

THOS. C. HENDERSON

From Dr. Hampshire, of Charleston, S. C., we have received the following honest letter, written to him by a poor but well meaning man, who to have a strong and stout author in the army of Southern Independence:

Liver Complaint.

DR. HUMPSHIRE:—Dear Sir—I don't know what to say to make you know how grateful I feel for the blessing of your Southern Indian Vegetable Pills you gave me. After keeping sick for so many years, and thought I never was going to get my health or be worth the good day's work, I am now as stouts and hearty as I ever was in my life, and that, too, after having tried every thing that I ever heard of, and getting all kinds of doctors, who could tell me it was an affection of the liver, but could not cure it, although God knows I took enough of their prescriptions. If the prayer of a poor man like me will help you, dear sir, you have mine.

Yours, gratefully and truly, JOHN W. SIMMONS.

Send for a circular of these pills. It contains full and interesting facts, with important suggestions to the sick and suffering, complete directions for the use of the pills, and a special card to females, which every one of the sex ought to read.

WRIGHT'S Southern Indian Vegetable Pills

Are manufactured expressly for use in the CONFEDERATE STATES OF AMERICA

Under the personal direction of Dr. John Wright, in his Pharmaceutical Laboratory, New Orleans.

J. WRIGHT & CO., Sole Proprietors, No. 21 Chartres street, New Orleans, La.

Rheumatism and Diarrhea.

The proprietor of the famous remedies for RHEUMATISM and DIARRHEA avails himself of this opportunity of presenting the most satisfactory evidence of the extraordinary efficacy of these remedies, in the shape of certificates signed by respectable residents of this city, who have derived the greatest possible benefit from the medicines. Each disease is treated by a specific remedy. Apply at No. 117 St. Ann street.

This is to certify that the remedies sold at No. 117 St. Ann street, have cured a negress of mine who had the Rheumatism for nearly years, and had tried doctors innumerable to her, but no cure. A negro was that the medicine you gave me cured her in three days time, and she is now perfectly well.

J. S. LEMOCHELET, Magnolia Island, Jefferson Parish, Louisiana.

Certify that I have been cured of Diarrhea of a year's standing. After trying in vain all the remedies I could find from Physicians and others, I procured some of your pills at No. 117 St. Ann street, which cured me, and which I recommend to all fellow-sufferers.

MARTIN FORD, de11 Bourgmarchin Bc 146 Camp street.
