PERFECTED BY

A. PERIER informs the Ladies and Artists of this city, that he has received a large assortment of the above Pianos of a new style, expressly manufactured for this climate, to be offered for sale under every guarantee, and possessing every desirable advantage.

8 OCTAVE PIANOS, for Concerts;

PICCOLOS of every description, Straight and Oblique, manufactured by ERARD.

These Pianos are disposed in such a way that the head of the piano is predominant, and can be seen by the public. This a very great advantage for the ladies.

The Iron system Pianos have been abandoned on account of the stridence of the sound and are replaced by a new system of flags, pine wood bars and reinforced on Russian oak. The pins to which the strings are attached are fixed in the wooden sound board, and are calculated to preserve the tone for a considerable length of time. The sound is powerful, rich and soft, and the instruments themselves are of the best construction. They are guaranteed by the manufacturer, and also by the seller in New Orleans.

MT. LOUIS INSTITUTION.

BOARDING AND DAY SCHOOL FOR YOUNG LADIES.

CONDUCTED BY Mss. DERON, New Orleans, 145 St. Louis st., bet. Burgundy and Dauphine.

MR. and Mrs. DERON, at the re-opening of the classes (1849-50), respectfully invite parents of young ladies to visit their Institution. This academy, which during the last ten years has been increasing in success, unites all the requisite comforts and convenances which can be expected in an establishment of the kind.—Mrs. Deron has acquired herself to respond worthily and faithfully to the confidence bestowed on her by rearing her children such improvements and commodities as will best promote their physical, moral and intellectual acquirements.

The locality of the St. Louis Institution is well known as being one of the most beautiful, spacious and salubrious dwellings in the city of New Orleans. This house, which was not overflowed during the late inundation, is commodious, very healthy. It comprises six separate class rooms, and well arranged. The dormitories are magnificent and extensive apartments open on all sides to a free circulation of air. For the hours of recess of the pupils, there is a large yard overlooking several gardens, and an ample hall to shelter them from the rain and sun.

The course of instruction is carried on both in the English and French languages, and includes every grade and branch of learning necessary to the finished education of a young lady. The skill of the professors in the progress of the scholars may be ascertained by the first institutions of the North and Europe.

The English classes are organized in a superior manner.—Three American or English lady teachers of excellent attainments, who reside in the institution, and a distinguished professor, M. Grimm, are entrusted with the various studies of the English language and literature.

With regard to the instruction in the French language, Mr and Mrs. E. Deron, both of whom have ob
