MAYORALTY OF NEW ORLEANS—COUNCIL OF MUNICIPALITY NO. 1.
SITTING OF MONDAY, 13th July, 1840.
THE Council of Municipality No 1, ordain as follows:
1. From and after the promulgation of this ordinance no pedlar or hawker of goods, merchandize, jewelry, boots, shoes, hats, caps, hardware, cutlery, groceries, ready made clothes, stationary, &c. shall be permitted to station in any public place, road, levee or side walk, within this municipality, under a penalty for each offence of three days imprisonment and a fine of ten dollars; and moreover for the faithful performance of this ordinance the commissaries of the meat and vegetable markets are hereby held personally responsible, and shall be fined $25 for the first and second offence, and afterwards dismissed from office by the Mayor if they neglect their duty. The commissary of the meat market is obligated to inspect from St. Ann to St. Phillip streets, and the commissary for the vegetable market, from St. Phillip to Ursuline streets. The residue of this municipality devolves upon the immediate inspection of the commissaries of the different wards or districts under the same conditions and penalties.
2. All keepers of taverns, coffee houses, grog shops, and all others who rent to or permit pedlars to station in front of their premises, shall pay a fine of $20 for each offence, and if repeated, their license shall be taken from them.
3. During the summer months, when oysters are not sold, the occupants of the oyster stands on the levee are not permitted to sell any spirituous liquor, under the penalty of $25 for every offence. They are also not permitted to sell other than fruit, under the same penalty.
4. The owner or owners of the ferry shall have a strong fence or enclosure made, with one small and one large gate in front of the landing, say thirty feet front on the Levee, extending on each side to the river—the gates to be shut and locked after the running of the boat shall have ceased—The interior of this enclosure shall always be kept clean, under the penalty of $10 for each and every offence.
5. The stands or pavilions used for the sale of ice cream, lemonade, &c. shall be removed from the Levee, and permission granted, if asked, to said occupants, to erect three small pavilions for that purpose under the trees of the public square, in front of the church, for which they will pay each $25 per month to this municipality, during the summer months.
6. From and after this date, no other stalls outside of the markets shall be permitted, (and that only during market hours, say till ten o'clock, a. m.) but those that sell bacon, ham, pork, flour, corn meal, fruit, rice, peas, beans, grain, vermicelli, coffee and spices. The walk from the Levee to the vegetable market shall be kept free of market pedlars; and after market hours the whole of the outside of the markets, and the space on the Levee between the two markets, shall be swept daily and kept clean; the commissaries are obligated to have this done under a penalty of $15 for each neglect of duty.
7. The present resolutions shall be printed in French and English and published in several newspapers, and one hundred handbills shall be printed, and the Mayor requested to have them stuck up in the several parts of the three markets of this municipality, and every other public place, so that all persons interested may not pretend ignorance of their promulgation.

TO THE PROPRIETORS OF SUGAR REFINERIES AND SUGAR ESTATES—Working on the V[illegible] Principle.
Gentlemen,—We beg most respectfully to introduce to your notice, a plan to improve your refined and raw sugars by passing the syrup (previous to its being granulated in vacuo,) through a bed of animal charcoal, by which the color is absorbed, the operation is very simple and inexpensive, and the apparatus not expensive. The animal charcoal is regenerated for continued use, by a very efficient and speedy mode of reburning.
This principle entirely supersedes the custom of a second refine, or the use of the pneumatic pans—by this process of discoloration, the syrup is almost white, and fully granulated into a superior refine or raw sugar, and the [illegible] small portion of uncrystalizable syrup or molasses, is of a p[illegible] texture.
We beg to observe that we are the original manufacturers of the Vacuum Sugar Apparatus, and first introduced the same into the colony of Demerara, since at New-Orleans, Cuba, Java and in many parts of the East Indies, with great success and value to the proprietors.
Since its first introduction, several modifications have been made, and improvements suggested by practical experience, which, by enabling us to dispense with some of the pendages, has had the double effect of simplifying the apparatus and very much diminishing the cost, without sacrificing any part of its efficiency.
Plans furnished for refineries and sugar plantations and competent persons appointed to put the same in activity and teach the present improved system.
Gentlemen, your obedient servants, OAKS & DODSON, Copper, brass and iron works, Haydon square, Minories, London, January, 1840. April 21-1mly

PATENT PERRYIAN FILTER INKSTAND.—The novel and useful invention insures an instant necessary supply of clear filtered ink in the cup of the filter, which can be returned into the inkstand at any moment, where it is secured from injury, and not affected by the atmosphere. The ink thus protected, never thickens or mould, and remains good for any length of time in any climate. The process of filtration causes the coloring matter to be held in suspension; hence the trouble and inconvenience occasioned by unsuitable ink, generally found in ordinary inkstands, are completely obviated by the use of the filter inkstand. One of moderate size will contain sufficient ink for six or twelve months' writing. For sale at the New Orleans Stationers Warehouse. a7 NORMAN, STEEL & Co, 14 Camp st
