Mr. J. N. De Pouilly, architect, will take charge of a class of linear drawing applied to buildings, machinery and ornaments. A few, however, may be admitted, viz.—aquarelle, the dolorous, leadache, incipient paralysis, hysteria, palpitation of the heart, mental affections, muscular debility, nervous debility, a sinking sensation in the flesh, numbness, uneasiness, weakness of the eyes, loss of appetite, sleeplessness, inability to remain in one place or position, weakness of the spine, hypochondria, mental incompetency, melancholy, monomania, fluor albus, sinking at the stomach, female irregularities, a chronic tendency to miscarriage, constipation, and all complaints growing out of a free indulgence of the passions, and all diseases that have not proceeded from organic causes, beyond the reach of medicine.
Whenever the organs to be acted upon are free from organic disease, the Elixir will cure, and it is averred that

MORSE'S
INVIGORATING ELIXIR
will repair weakness with strength, incapacity with efficiency, irregularity with uniform and natural activity, and this not only temporarily and partially, but with a happy effect on the constitution, generally. Bear in mind that all maladies, wherever they be seated, which are the immediate effects of the paralyzation of the nerve of motion and sensation in physical health. Bear in mind, also, that if any kind of nervous disease the Elixir Cordial is the only reliable preparation known.
CURE OF NERVOUS DISEASES.
No language can convey an adequate idea of the immediate, and almost miraculous change which it occasions in the disordered, excited and distracted nervous system, whether broken down by excess, weak by nature, or impaired by sickness—the anxiety and fretfulness of mind is at once banished, nervousness and bulk up. The mental and physical symptoms of nervous disease vanish together under the influence. Nor is the effect transitory, as the contrary the relief is permanent—for the Cordial invigorates the nervous system, and the constitution itself, and restore it to its natural condition.
LOSS OF MEMORY.
Confusion, giddiness, rush of blood to the head, melancholy, hypochondria, fear of insanity, dispepsia, general prostration, irritability, nervousness, inability to sleep, diseases from a relaxed state of the pulmonary functions, hysteria, monomania, nervous debility, palpitation of the heart, impotency, constipation, &c., from whatever cause arising, that if there's any reliance to be placed on human testimony, a positive cure is effected.
A GREAT MEDICINE FOR FEMALES.
The unparalleled efficacy of this great restorative, in all complaints incident to females, mark a new era in the annals of medicine. Hundreds of delicate plants have been invented—thousands of invigorants connected—all purporting to be specified in the various diseases and complaints of the fair, the delicate formation of woman render her liable.
EVERY WOMAN OF SENSE,
who suffers from weakness, depression, nervous ness, tremors, pains in the back, or any other disorder, which the Elixir Cordial is a sure remedy in both sexes, to give the Invigorating Cordial a trial.
MARRIED PERSONS
or others, will find the Cordial, after they have used a bottle or two, a thorough regenerator of the system. In all directs to see the hand the happy parents of healthy offspring, which will not have been so but for this extra-ordinary preparation. And it is equally potent for the many diseases for which it is recommended. Thousands of young men have to have recourse to using it, and not a single instance has it failed to benefit them.
PERSONS OF PALE COMPLEXION,
of consumptive habits, are recommended to the use of the Elixir Cordial, and to be cured, it must be taken from a pale, yellow, sickly color, to a beautiful florid complexion.
TO THE MISGUIDED.
These are some of the sad and melancholy effects produced by early habits of youth, viz: weakness of the back and limbs, pains in the head, dimness of the sight, loss of muscular power, palpitation of the heart, dyspepsia, nervous irritability, derangement of the digestive functions, general debility, symptoms of consumption, &c.
Mental, the mind becomes weak, timid, and dejected, gloomy, despondent, dark, lowering, misanthropic, hourly darkens the view, the mind becomes shadowed with despair, and filled with melancholy reflection that the happiness of another becomes blighted with your own.
CAUTION
Dr. Morse's Invigorating Cordial has been counterfeited by some unprincipled persons.
In future all the genuine Cordial will have the proprietor's facsimile pasted over the cork of each bottle, and the following words blown on the glass,

AYER'S
CHERRY PECTORAL,
For the rapid Cure of
COUGHS, COLDS, HOARSENESS,
BRONCHITIS, WHOOPING-COUGH,
CROUP, ASTHMA, AND
CONSUMPTION.
☞ We invite the attention of the Public to the Certificates appended below, and bespeak for them that candid consideration which their honest frankness deserves.
Men in such stations as many who voluntarily bear witness to the efficacy and value of CHERRY PECTORAL, do not wantonly trifle with, or distort facts, nor overrate their convictions. Judge then, whether this is not the medicine to trust when you must have relief for the dread or fatal diseases of the throat and lungs, which every one ought not to have it by them as a safe guard against the everywhere prevailing enemy; which steals with fatal frequency upon almost every flock and carries off the lamb from many a home!
Jackson, C. H., Jackson City, O., 30th Nov., 1852.
Dr. J. C. Ayer.
Sir—The CHERRY PECTORAL is much inquired after. Several of our best Physicians have used it, three of them in their own case, and always with the happiest effects. The numerous patent medicines always before them, lead to incredulity in regard to every new remedy, and it is only after undoubted evidence of value in any article, that anything like a general confidence can be excited.
The unrivalled excellence of this combination of agents, (in the CHERRY PECTORAL,) proved beyond cavil by repeated trial under their own observation, has compelled medical men to proclaim abroad its usefulness. It is beyond all doubt the best general remedy we have for the Pulmonary Affections of this climate, at the same time sedative and expectorant—a rare combination of properties.
In the hope that it will prove its own reward, I subscribe myself
Respectfully your ob't serv't,
JAS. H. C. MILLER, M. D.
