MANDEVILLE COLLEGE.

THE labors of the Directors of this Institution have been already rewarded by the confidence of the public. The number of students in its halls is more, considerable, than could have been anticipated for the short time it has been under the present direction. Its patrons rank among the most intelligent and influential citizens of Louisiana.

The success of the College may, in part, be attributed to its various local advantages. The buildings are of vast extent, and admirably adapted to the purpose for which they are used. A steamboat plies regularly between the College and the city of New Orleans, facilitating the communication between the students and their parents. The health and recreation of the students are promoted considerably by bathing in the Lake, at the proper season, and by walking under the shade of the surrounding forest.

But it is not to its favorable situation alone that the College is indebted for its success. The result of the late examination has shown that the Directors have been fortunate in their choice of Professors, and that the public confidence has been justly bestowed. In consequence of the increase in the number of students, the Directors have engaged the valuable services of Professor Roe, a gentleman favorably known to the public, still retaining all the Professors already attached to the College.

The care of the student's clothes will be confided to a competent person, under the superintendence of Mrs. McManus. The students, for the future, will receive, from Mrs. McManus, that maternal care so necessary, particularly for young children, when absent from their homes.
j10 FELIX McMANUS, President.

GREAT ECONOMY IN WOOD.
TO SUGAR PLANTERS.

NELSON FOUCHE has the honor to inform his former customers, and the Sugar Planters in general, that he has recently acquired the knowledge of an infallible plan for the rapidity of boiling and the saving of wood. He is so thoroughly convinced of its success that he will undertake to state the quantity of Sugar that will be made by his contrivance in twenty-four hours; and the saving in wood is so great that from the very first grinding the planter will save the amount of the cost of the machinery.
The Sugar Planters who are desirous of testing its qualities may easily do so by witnessing the operation during the present grinding season, on the plantations where it has been established by him. He invites those planters who may be out of wood, to apply to Mr Arnaud Lanaux, of the Parish of Plaquemines, on whose plantation he has established a machine for burning coal. Mr Lanaux has [illegible] the grinding season. He burns only one cord of wood and a few barrels of coal to each hogshead of sugar. His machinery makes eight or ten hogsheads in twenty-four hours.
The proprietors of the machinery being a very important point, he requests those Sugar Planters who intend contracting with him, to make known the required dimensions of the boilers.
The price of the machinery is but $50 a boiler and $75 for the chimney. The works already completed by him will attest the solidity of his labor.

TO SUGAR PLANTERS.
ECONOMY IN THE CONSUMPTION OF WOOD.

APOLINAIRE PERRAULT, has the honor to inform the SUGAR PLANTERS that he is in possession of an INFALLIBLE PLAN for boiling Sugar, and for ECONOMY IN THE CONSUMPTION OF WOOD. He is so certain of success, that he will undertake to state the quantity of wood, which his apparatus will consume in the space of 24 hours, which cannot exceed one cord and three quarters for ripe cane. By this method—apparatuses with 4 kettles can make from 7 to 9 thousand pounds of Sugar in 24 hours. He likewise guarantees that apparatuses made according to his plan, will enable the Planter to make three hundred hogsheads of Sugar, without being necessary to withdraw the ashes. Planters desirous of honoring him with their confidence, may trust the more implicitly to his declaration, as he will contract not to require his compensation until the work is tested and accepted, agreeing also to request it, if necessary, after the grinding.

☞ The price of the Kettles is $40 and of the flues $50.

SANDS' SARSAPARILLA.

FOR THE REMOVAL AND PERMANENT CURE OF ALL DISEASES ARISING FROM AN IMPURE STATE OF THE BLOOD, OR HABIT OF THE SYSTEM.

THE functions of circulation, nutrition and excretion are manifested when life is reduced, as in the plant, to its simplest condition; and these must, therefore, be its essential action. Between the apparatus by which these necessary physical processes are carried on, there is a reciprocal action, and if one portion of the animal machinery is out of order, the harmony of the whole system is deranged. The great desideratum in medicine, therefore, is a preparation which shall act with equal certainty and force upon each one of this triad of functions—which shall, as the case may require, restore health and vigor to the circulation, give tone to the stomach, or remove all obstructions from the bowels. It is confidently averred that

SANDS' SARSAPARILLA

possesses this three-fold power, and that by this acting on the primary causes of disease, it eradicates thoroughly and permanently its various painful, dangerous, and distressing manifestations. From a simple eruption of the skin, to hereditary scrofula, and from dyspepsia to gout, and inflammatory rheumatism, it will be found equally efficacious.
The following certificate exemplifies, in a most remarkable manner, the great medical value of the Sarsaparilla in a severe case of Scrofulous affection.
NEW YORK, July 4th, 1845.
Messrs. A. B. & D. Sands:
Gentlemen,—It is impossible for me to describe the value and benefit your Sarsaparilla has been to me. I have been afflicted with virulent ulcers more or less, for the last seven years, especially in the summer season. At first they appeared in small bunches on various parts of my body, and then increased in size, attended with acute pain, until they would at last break and discharge large quantities of matter, forming ulcers, which soon ate small holes down to the very bone. My sufferings were intense. I consulted the most eminent physicians in the city with but little benefit. During the winter I would get some better, but when spring came they returned as bad as ever, and I felt convinced in my own mind that it would be impossible for me to live another summer after suffering as much as I did the last, but the Lord has spared me from one year to another until I at last heard of your Sarsaparilla. For about four months previous to my taking your Sarsaparilla, I could not sleep, but a little while at a time, either day or night, and at times it seemed as though I should die with pain and for the want of sleep. I dreaded the return of night, being obliged to sit up most of the time, and frequently on retiring to rest, I thought my children would find me dead in the morning. After I commenced using the Sarsaparilla, and before I had quite taken the third bottle, I awoke one night, and feeling no pain, I thought I was dying, and resolved in mind to rise up to see if I had any strength. Finding no difficulty in doing so and after sitting up a short time I found that I felt much better and I continued to improve until there is now not a pain about me, while before it seemed as if my joints would part with pain. My appetite and strength increased and I was soon able to attend to my domestic duties, and now my ulcers are all healed, and my general health and strength is fully restored, all of which I ascribe to the use of your Sarsaparilla. Your obliged friend, SARAH ELLISON.
The following letter, received from Capt. Garrow, a gentleman well known and of the highest respectability, residing at Mobile, shows conclusively the value and efficacy of Sand's Sarsaparilla in cases of chronic rheumatism.
MOBILE, (Ala.) July 3d, 1844.
Messrs. Sands—*Gents*:—I was afflicted for more than ten years with rheumatism, and it is with pleasure I avail myself of this opportunity to express to you the salutary effect your Sarsaparilla had on me. In January, 1842, I purchased of your agents, Messrs. Mosley & Tucker, five bottles, which I took agreeably to the printed direct on and which entirely removed the complaint, and I have now every reason to believe my health is permanently recovered.
Yours, very respectfully, S. H. GARROW.
For further particulars and conclusive evidence of the superior value and efficacy, see pamphlets, which may be obtained of agents gratis.

Dubilio, Jr, Mosley & Tucker, Mobile, and by druggists generally throughout the United States. Price, $1 per bottle; 6 bottles for $5.
☞ The public are respectfully requested to remember that it is Sands' Sarsaparilla that has and is constantly achieving such remarkable cures of the most difficult class of diseases to which the human frame is subject; therefore ask for Sands' Sarsaparilla, and take no other. j10—1m
