THE METHOD OF NOMINATING TO THE MUNICIPAL OFFICES.

The *Times* has named twenty-one citizens of acknowledged worth, as an electoral jury or nominating committee, whose duty it shall be, if they accept the office, to prepare a ticket for submission to the voters of the city at the approaching election. So far we have not heard that any one of them is disposed to move in the matter. The *Picayune* does not seem to favor the method of making nominations and prefers to publish the names of any citizens to whom might be entrusted the important office. It suggests that the Chamber of Commerce, the Mechanics Association and the Real Estate Association should join in forming a committee to confer with the Governor in relation to the appointment of such officials as may be given him by existing or prospective laws. The *Bulletin* does not approve the suggestion of the *Times* nor does the *Picayune Gazette* and the *Republican*, makes a committee of its own. So much for the press of the city.

As a matter of course unless a much earlier leading move be made the conduct of affairs will be left to the parties who have for years controlled the city, the fellow citizens, all upon the same footing, the place taken by the general public supposed to be in abeyance since last May, and the Conservatives, who have control of the city in all natural equality, will be without a chance, and we should be powerless to secure the present or future, a good or even a tolerable city government. We are called upon to form such a union of our Conservative citizens as will secure promised success, the independent action of the members of the committee named by the *Republican*, we think would be acceptable to the people of the Conservatives, while other parties might not. Some of the names in the committee named by the *Republican*
