MEDICAL.

HIGHLY IMPORTANT DISCOVERY!!
Infallible Preservative Against YELLOW FEVER.
Prophilactic Vaccination.

W. HUMBOLDT, Medical Doctor and Surgeon of the University of Vienna, Berlin, Heidelberg, Montpellier and City of Mexico, Member of various scientific societies of Europe and America, offers his important discovery to the community, and begs to remind them that they are actually threatened by that terrible malady.

An arduous and profound study of this disease in different parts of America, and especially in Vera Cruz, suggested to me the idea of an attempt toward the discovery of a preservative. Under the impression of this idea I have made numerous experiments, during seven years, on more than two thousand persons; and I have found at last the means of preventing this terrible disease.

It has been unanimously agreed by learned Doctors, that yellow fever is an endemic sickness occasioned during a certain season of the year, by the heat combined with the putrefaction of vegetable and animal substances, whose miasms cause on all unacclimated persons a poisoning that manifests itself by the characteristic symptoms of yellow fever, i. e. that such a disease is the effect of miasmatical intoxication, which produces a peculiar alteration in the blood, and that hence follows a state of organism, susceptible of receiving with impunity the miasms, a pathologic-phisiologic operation similar to that of the contagious virus of the small-pox whose preservative was discovered by Dr. Jenner.

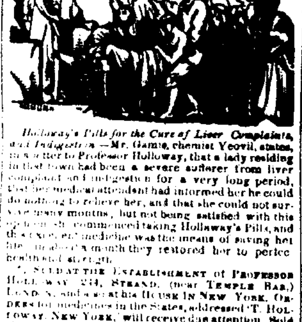
I have found a matter or substance, which, introduced into the circulation by some endermic method (as used in vaccination) and followed by the antiseptic syrop of my prescription, for the period of nine days, brings the organism to such a state, that the producing miasms of that disease must be excreted without causing any toxical effects.

This vaccination (to adopt the term), being made with a very simple substance, will occasion no pain whatever, or cause any notable alteration. It will permit all persons to follow their usual occupations, and only requires abstinence from irritating food and liquids during the nine days prescribed for the antiseptic syrop. After the lapse of said time, the vaccinated will be free from the risk of being attacked by yellow fever.

Persons wishing to make use of this Prophilactic Remedy or feeling inclined to obtain some further information on the subject, will please call on me from 10 to 12 A. M. at the Drug Store of Espinola & Co., Conde street, Nos. 52 & 54, between St. Philip and Dumaine streets, and from 1 to 6 P. M., at my lodging, Cincinnati Hotel, Chartres street, corner of St. Louis.

New Orleans, Aug. 16, 1854.
Dr. HUMBOLDT.

N. B.—Persons desiring to be vaccinated at their lodgings will please send their address to the Drug Store of Espinola & Co. aug 21—3w



Holloway's Pills for the Cure of Liver Complaints and Indigestion.—Mr. Gamis, chemist Yeovil, states, in a letter to Professor Holloway, that a lady residing in that town had been a severe sufferer from liver complaint and indigestion for a very long period, that her medical attendant had informed her he could do nothing to relieve her, and that she could not survive many months, but not being satisfied with this opinion she commenced taking Holloway's Pills, and that excellent medicine was the means of saving her life, as in a month they restored her to perfect health and strength.

... SOLD AT THE ESTABLISHMENT OF PROFESSOR HOLLOWAY, 244, STRAND, (near TEMPLE BAR,) LONDON, and also at his HOUSE IN NEW YORK. ORDERS for medicines in the States, addressed "T. HOLLOWAY, NEW YORK," will receive due attention. Sold also by all respectable Druggists and Dealers in Medicines, throughout the United States, in Pots and Boxes at 37½ cents, 87 cents and $1 50 cents each. To be had Wholesale of the principal Drug Houses in the Union. In New Orleans for sale by
J. WRIGHT & Co.—Agents.

☞ There is a considerable saving by taking the larger sizes.

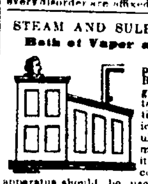
STEAM AND SULPHUREOUS BATHS.
Bath of Vapor and Fumigations.



Since many are compelled to resort to Vapor Baths and aromatic Fumigations for the cure of cutaneous affections, rheumatic pains, neuralgias, chronic catarrhs, paralysis, scrofulous complaints, engorgement of the glands, etc., it is highly important that a convenient and appropriate apparatus should be used for the application of these special remedies.

The undersigned, after twenty years' experience, has succeeded in perfecting his apparatus in such a manner as to graduate the strength of the fumigation to the feelings of the patient and the gravity of his complaint.

As several persons are now selling rice powder, the undersigned ... it his duty to inform the public that he will take the necessary measures to maintain the rights secured to him by the patent.

NOTICE TO SUGAR PLANTERS AND MERCHANTS.

THE undersigned begs leave to inform the Sugar Planters and Commission Merchants that he is now prepared to deliver, for the ensuing season **Bi-sulphite of Lime** of proper strength fresh made and guaranteed free from all impurities by which it might be made dense, so as to weigh heavy by trying it with the hydrometer.

He also would remind Planters, that he was the only one that really manufactured that article last season, and of course, by experience acquired the best mode in making it.

He has since then at great expense improved his apparatus, so as to fill all orders, large or small within a short notice.

He moreover is constructing a **Model Sugar Mill** on an improved plan where he will carry in the season roll the cane and make Sugar by the use of Bi-sulphite of Lime. When the Mill will be ready he will give the Planters due notice thereof and invite them to come and see the proper mode for using the Bi-sulphite of Lime, for it is of no value unless it is properly used and of good quality.

BLADON SPRINGS, ALABAMA.

THE Proprietors of these delightful Mineral Springs, situated in a healthy region of Pine-woods, four miles west of the Tombigby river, and sixty miles north of Mobile, now beg to call the attention of those leaving this city for health or pleasure during the warm season, and to state that they have completed the additional improvements and accommodations contemplated, and are now prepared to receive visitors in a style of superior comfort. They pledge themselves that nothing shall be wanting on their part to make a summer residence at these Springs the most agreeable.

They beg to note the test of these waters duly analyzed by Professor Brumby, of the Alabama University, and found to contain—

—IN A WINE PINT—

Carbonic Acid Gas	4.075 cubic in
Sulphuretted Hydrogen (trace)	...
Chloride of Sodium	0.9625 "
Carbonate of Soda	4.1112 "
do of Lime	0.3437 "
do of Magnesia	0.1708 "
Oxide of Iron	0.0206 "
Sulphate of Lime	0.0019 "
Silica of Alumina	0.0631 "
Crenic Acid	0.0912 "
Apocrenic Acid	0.0750 "
Loss	0.0400 "
	6.0992

"Hence, says Professor Brumby, this mineral water is very similar in composition to some of the best Springs of Europe, such as "Seltzer," "Spa," "Pouges" and "Aix-La-Chapelle." It must therefore in many diseases have decidedly beneficial effects." This opinion is confirmed by the extraordinary cures effected during the last season, by the use of those invaluable waters.

Carriages and horses are in attendance at all times to convey passengers to and from the river, and for the use of visitors during their stay.

CONNOR & WOOTEN, Proprietors.

N. B. The Proprietors beg to append the following recommendation of these waters that the public may judge for themselves of their value.

"We, the undersigned, from personal experience with the qualities of the waters known as the "BLADEN SPRINGS," Alabama, cheerfully unite in giving our opinion in favor of the valuable mineral properties therein contained, and the beneficial effects resulting from the use of them, especially in Chronic inflammations of the alimentary canal; in the muscular and articular Chronic rheumatism; in cases of inveterate gout; in peculiar chronic inflammations of the skin; in biliary calculi; in certain forms of diseases of the urinary organs; and in neuralgia depending on rheumatic affections."

COPAL PECTORAL SYRUP.

PRICE, $1 PER BOTTLE. | PRIX, $1 PER BOTTLE

L. GAMOTIS,

New Orleans, corner Bayou and Rampart sts.

THIS Syrup which is the particular study of its author, and in the preparation whereof he devoted all his time, is an indigenous Balm.

Repeated experiments have already demonstrated that its medicinal powers are inferior to none of the compounds of this kind heretofore known and recommended with success in the affections of the lungs. It eases cough, expels readily asthmatic oppressions, oppression arising from the strangulation of the bronchial vessels in case of acute or chronic catarrhs. Colds which have resisted the action of numberless remedies have yielded in its application. It is most beneficial in cases of hooping-cough, retarding and lessening the fits of cough. It has the advantage of being pleasant to the taste and scent and of thus uniting the useful to the agreeable.

The dose for grown persons must not exceed 4 large spoonfull in 24 hours, and for children 3 to 4 tea spoon full a day at most. For children under 12 months, one-half tea spoon full is sufficient 3 or 4 times a day. It may be taken without mixture or in an infusion of pectoral flowers. mr29

MR. AMEDEE BROUSSARD, druggist, informs the public that he has lately bought Mr. Pinac's drug store, on Chartres street No. 85, between Conti and Bienville, and will endeavor to deserve the confidence so justly extended to his predecessor.

He also announces to his customers that the management of his drug store where he still resides, will in no way be affected by his recent purchase. Prescriptions will be attended to as carefully as heretofore. aug 10

PURE VEGETABLE EXTRACT.
DR. MORSE'S INVIGORATING CORDIAL.
A PHENOMENON IN MEDICINE!
Health Restored and Life Lengthened
—BY—
Dr. Morse's Invigorating Elixir or Cordial.

AT FIRST the properties attributed to Professor Morse's Invigorating Elixir or Cordial were deemed fabulous. The public often deceived could not believe the simple and sublime truths announced by the discoverer. But facts, undeniable facts, attested by witnesses of the highest class and character, are now triumphing over all doubts. Incredulity is overthrown by a mass of testimony which is perfectly irresistible.

The Elixir remedies, in all cases, the deplorable evils arising from a misuse or abuse of the various organs, which make up the wonderful machine called man. It restores to full vigor every delicate function connected with that mysterious compound agency of matter and mind, necessary to the re-production of human life. To persons of feeble muscular frame, or deficient in vital power, it is recommended as the only means of communicating that energy which is necessary to the proper enjoyment of all the natural appetites, as well as the higher mental attributes. Its beneficial effects are not confined to either sex or to any age. The feeble girl, the ailing wife, the listless, enervated youth, the overworn man of business, the victim of nervous depression, the individual suffering from general debility, or from the weakness of a single organ, will find immediate and permanent relief from the use of this incomparable renovator. To those who have a predisposition to paralysis, it will prove a complete and unfailing safeguard against that terrible malady. There are many, perhaps, who have so trifled with their constitutions, that they think themselves beyond the reach of medicine. Let not even these despair. The Elixir deals with disease as it exists, without reference to causes, and will not only remove the disorder itself, but

REBUILD THE BROKEN CONSTITUTION.

The derangements of the system, leading to nervous diseases, and the forms of nervous disease itself, are so numerous, that it would require a column to enumerate the maladies for which this preparation is a specific. A few, however, may be enumerated, viz:—neuralgia, tic doloreaux, headache, incipient paralysis, hysteria, palpitation of the heart, spinal affections, muscular debility, tremors, flatulency, a pricking sensation in the flesh, numbness, mental depression, weakness of the will, indisposition to move, faintness after exercise, broken sleep and terrifying dreams, inability to remain in one place or position, weakness of the procreative organs, sexual incompetency, melancholy, monomania, fluor albus, sinking at the stomach, female irregularities, a chronic tendency to miscarriage, emaciation, and all complaints growing out of a free indulgence of the passions, and all barrenness that does not proceed from organic causes, beyond the reach of medicine.

Whenever the organs to be acted upon are free from malformation or strictural diseases, it is averred that

MORSE'S INVIGORATING ELIXIR

will replace weakness with strength, incapacity with efficiency, irregularity with uniform and natural activity, and this not only without hazard or reaction, but with a happy effect on the general organization. Bear in mind that all maladies, wherever they begin, finish with the nervous system, and that the paralization of the nerve of motion and sensation is physical death. Bear in mind, also, that for every kind of nervous disease the Elixir Cordial is the only reliable preparation known.

CURE OF NERVOUS DISEASES.

No language can convey an adequate idea of the immediate, and almost miraculous change which it occasions in the diseased, debilitated and shattered nervous system, whether broken down by excess, weak by nature, or impaired by sickness—the unstrung and relaxed organization is at once braced, re-vivified and built up. The mental and physical symptoms of nervous disease vanish together under its influence. Nor is the effect temporary, on the contrary the relief is permanent—for the Cordial properties of the medicine reach the constitution itself, and restore it to its normal condition.

LOSS OF MEMORY.

Confusion, giddiness, rush of blood to the head melancholy, debility, histeria, wretchedness, thoughts of self-destruction, fear of insanity, dispepsia, general prostration, irritability, nervousness, inability to sleep, diseases incident to females, decay of the propagating functions, hysteria, monomania, vague terrors, palpitation of the heart, impotency, constipation, &c., from whatever cause arising, it is, if there is any reliance to be placed on human testimony, absolutely infallible.

A GREAT MEDICINE FOR FEMALES.

The unparalleled effects of this great restorative, in all complaints incident to females, mark a new era in the annals of medicine. Thousands of stimulants have been invented—thousand of invigorants concocted—all purporting to be specifics in the various diseases and derangements, to which the delicate formation of woman render her liable.

EVERY WOMAN OF SENSE

who suffers from weakness, derangement, nervousness, tremors, pains in the back, or any other disorder, whether peculiar to her sex, or common in both sexes, to give the Invigorating Cordial a trial.

MARRIED PERSONS,

or others, will find this Cordial, after they have used a bottle or two, a thorough regenerator of the system. In all directions are to be found the happy parents of healthy offspring, who would not have been so but for this extraordinary preparation. And it is equally potent for the many diseases for which it is recommended. Thousands of young men have been restored by using it, and not in a single instance has it failed to benefit them.

PERSONS OF PALE COMPLEXION,

of consumptive habits, are restored by the use of a bottle or two to bloom and vigor, changing the skin from a pale, yellow, sickly color, to a beautiful florid complexion.

TO THE MISGUIDED.

These are some of the sad and melancholy effects produced by early habits of youth, viz: weakness of the back and limbs, pains in the head, dimness of the sight, loss of muscular power, palpitation of the heart, dyspepsia, nervous irritability, derangement of the digestive functions, general debility, symptoms of consumption, &c.

Mentally, the fearful effects on the mind are much to be dreaded. Loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion to society, self-distrust, love of solitude, timidity, &c., are some of the evils produced. All thus afflicted

BEFORE CONTEMPLATING MARRIAGE

should reflect that a sound mind and body are the most necessary requisite to promote connubial happiness; indeed, without these, the journey through life becomes a weary pilgrimage—the prospect hourly darkens the view, the mind becomes shadowed with despair, and filled with melancholy reflection that the happiness of another becomes blighted with your own.

CAUTION

Dr. Morse's Invigorating Cordial has been counterfeited by some unprincipled persons.

In future all the genuine Cordial will have the proprietor's fac-simile pasted over the cork of each bottle, and the following words blown on the glass:

Only a few short Extracts from Letters, Testimonials, &c.

"I have used Jacob's Cordial in my family, and have found it most efficient, and in my judgment, a valuable remedy." HON. HIRAM WARNER,
Judge of Supreme Court, Ga.

"I give me pleasure in being able to recommend Jacob's Cordial—my own personal experience, and the experience of my neighbors and friends around me, is a sufficient guarantee for me to believe it to be all that it purports to be, viz: a Sovereign Remedy." WM. H. UNDERWOOD,
Formerly Judge of Superior Court, Cherokee Circ't.

"I take great pleasure in recommending this invaluable medicine to all afflicted with bowel diseases, for which I believe it to be a sovereign remedy—decidedly superior to anything else ever tried by me."
A. A. GAULDING,
Deputy G. M. of the Grand Lodge of Georgia.

I have used 'Jacob's Cordial' in my family, and this, with all I hear about it as a remedy by those who have tried it, induces me to believe that it stands at the head of every preparation of the kind, and I would recommend its use in the diseases for which it is compounded." MILES G. DOBBINS,
Cashier of the Bank of the State of Georgia, Griffin.

"If there is any credibility in human testimony 'Jacob's Cordial' must stand pre-eminent above all other preparations for the cure of Bowel Diseases. From the mass of testimony in its favor coming in from all quarters, it must be very far in advance, as a curative agent, of most if not all other 'patent' preparations." A. FLEMING,
Cashier Marine and Fire Insurance Bank, Griffin.

"This efficient remedy is travelling into celebrity as fast as Bonaparte pushed his columns into Russia, and gaining commendation wherever used."—*Georgia Jeffersonian, May 19th, 1853.*

CHERRY PECTORAL,

For the rapid Cure of
COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

Among the numerous discoveries Science has made in this generation to facilitate the business of life—increase its enjoyment, and even prolong the term of human existence, none can be named of more real value to mankind, than this contribution of Chemistry to the Healing Art. A vast trial of its virtues throughout this broad country, has proven beyond a doubt, that no medicine or combination of medicines yet known, can so surely control and cure the numerous varieties of pulmonary disease which have hitherto swept from our midst thousands and thousands every year. Indeed, there is now abundant reason to believe a Remedy has at length been found which can be relied on, to cure the most dangerous affections of the lungs. Our space here will not permit us to publish any proportion of the cures effected by its use, but we would present the following:—and refer further enquiry to our American Almanac, which the agent below named, will always be pleased to furnish free, wherein are full particulars, and indisputable proof of these statements.

Rock Hill, (Somerset Co.) N. J., July 24, 1852.

Dr. J. C. AYER—Since your medicine has become known here, it has a greater demand than any other cough remedy we have ever sold. It is spoken of in terms of unbounded praise by those who have used it, and I know of some cases where the best they can say of it, is not too much for the good it has done. I take pleasure in selling it, because I know that I am giving to my customers the worth of their money, and I feel gratified in seeing the benefit it confers.

Please send me a further supply, and believe me Yours, with respect, JOHN C. WHITLOCK.

P. S.—Almost any number of certificates can be sent you, if you wish.

Windsor, C. W., June 26, 1852.

J. C. AYER—Sir: This may certify that I have used your Cherry Pectoral for nearly ... and it is my sincere belief that I should ... my grave ere this time if I had not. It has cured me of a dangerous affection of the lungs, and I do not overstate my conviction when I tell you it is a priceless remedy.

Yours, very respectfully,
D. A. McMULLIN, Attorney at Law.

Wilmington, Pa., September 25, 1850.

DR. J. C. AYER—My dear Sir: Your medicine is much approved of by those who have used it here, and its composition is such as to insure it ... its reputation. Invariably recommend it for pulmonary affections, as do many of our ... physicians. I am your friend,

EDUCATION

... Boarding and Day School, ... street, ... No. ...

THE Directress of this Establishment, being fully sensible of the importance of the English language, has introduced new modifications in the ... of teaching.

The number of English Professors has been increased. Besides two distinguished Professors who are charged with the instruction of the three higher classes, *two American ladies,* who attend to the elementary classes and the general superintendence, speak English only. The pupils are therefore compelled, in their general intercourse, to express themselves in English alone. With a view to this result, Madam Doran has established strict regulations which she will constantly superintend, for she wishes families to be convinced of the fact that an easy and constant practice of the principal language of the country, is required at the Institute.

Moral and religious education and good manners, which can be acquired only by example, are looked upon as highly important by Madam Doran, and she will use her best exertions to create patience and mild discipline on the one side, and patience and affection on the other, among the pupils and the teachers.

The musical classes, still under the management of Mrs. Lavillebeuvre, are constantly and carefully attended to.

The annual examination begins in October.

Summer Residence.

From the month of June, a branch of the St. Louis Institute is opened at Mandeville, a delightful village free from epidemic diseases. Madam Doran's object in opening it, is to afford to unacclimated young ladies or those wishing to spend a few months in the country, the facility of continuing the same studies as in the city. Both Establishments are opened during the entire summer.

A carriage is attached to the establishment, which conveys young ladies residing above Canal street, to and from the Institute. sep4

COLLEGE OF NEW ORLEANS.

THE session of 1854-55, will begin on MONDAY, September 18th. During the President's absence in the North, he will engage the services of an American gentleman to assist him in the English Department and the Mathematical, so as to give to the English language that preponderance which its importance deserves.

The Students of the College are requested to be punctual at the opening of the session. se3

DAY AND BOARDING SCHOOL FOR YOUNG LADIES,
Under the Direction of MADAM CHARPAUX,
At the corner of Bayou and Claiborne streets

THIS SEMINARY, whose existence dates some six years back, has met with a success that proves beyond all cavil, the capacity of those who have charge of it.

Determined to merit the confidence of parents, Madam Charpaux will spare no pains to make her Seminary equal to the best institutions of the kind in New Orleans, and in order to do this, she has employed the ablest teachers.

Madam Charpaux has purchased a large and airy edifice on one of the highest pieces of ground in the city, and the better to consult the health of her pupils, she has had spacious and elevated apartments built on purpose for school and sleeping rooms, through which there will be a constant circulation of air from many windows.

Great attention will be paid to the improvement of Scholars in the English language. For this purpose, American ladies of acknowledged capacity, as teachers, will constantly reside in the Seminary.

The English, French and Spanish languages, geography, arithmetic, and in short, all the branches of a polite education, will be taught in this Seminary.

As religion should be the foundation of all sound education, it will be carefully attended to by Madam Charpaux, who will conduct to church and preliminary catechisms, all her young ladies who may have their first communion to make.

Music having become a most desirable branch of the education of young ladies, Mr. Charpaux, from the best musical school in Paris, and ex-artist of the Orleans Theatre, will devote all his time to teaching music. All the Scholars, besides their regular lessons, will practice daily under the eyes of the Professor. The study of the notes will precede the performance, when Mr. Charpaux will put the pupils through the execution of the regular keys and notes, and this will be attended with no extra charge.

In order to kindle emulation among the Pupils, and improve their singing, on the morning of the last Saturday in every month, there will be a musical examination and a distribution of rewards.

Madam Charpaux, in order to complete the education of her Scholars, has opened a class where will be taught all the useful and ornamental branches of needle-work.

During the summer, the classes will open at 8 o'clock, and close at 3. Re-open at 4 and close at 6 o'clock, P. M. In winter, they will open at 8½, and close at 3. Re-open at 4, and close at 5½ o'clock, P. M.

YOUNG LADIES' ACADEMY,
CORNER OF RAMPART AND MAIN STREETS

MADAME PARENT has removed her institution to the corner of Rampart and Main streets, and is ready to receive boarders, half boarders, and day scholars. There are spacious galleries and a magnificent terrace which gives a splendid view of the entire city as far as the Lake. The apartments are vast and well aired. There is every advantage for the moral and intellectual education of parents, as to the need and intellectual ... of the minds of their daughters. The best Professors are employed. Every branch of a solid and refined education is taught, in both languages; also, accomplishments such as Music, Painting, Embroidery, &c.

The Musical department is under the direction of three of the most competent and acknowledged talents in the city.

Professor Alston has the special charge of the Mathematical branches.

Mr. Gonthard has been engaged as a Teacher of Vocal Music.

For terms apply at the institution. Parents are permitted to visit the institution on Sundays.

Once a week, (Saturday,) between 12 and 1 o'clock, the young ladies assemble in the parlor, in order to acquire those polite and graceful manners so necessary to young persons when they enter society.

Young ladies residing at a distance in the different Districts, will be conveyed, gratis, in Omnibuses to and from the Institution, commencing September 1st, 1854.

BOURSIER'S ACADEMY.

145 St. Louis street, between Dauphin and Burgundy streets. Formerly Toulouse street, 184.

MR. and MADAME BOURSIER take pleasure in announcing to the parents of their pupils and to families in general that they have secured the services of Mr. M. Alston, as Professor of the English language, a teacher long and favorably known. Mr. Alston will take charge of the senior classes of English, and will commence on the 1st September. Mr. and Mrs. Boursier are always ready to secure at any cost the assistance of experienced and conscientious Professors who can second their untiring efforts to preserve the high reputation which their Academy has ever enjoyed. ...

Mr. and Mrs. Boursier avail themselves of this opportunity to urge upon those parents who had withdrawn their children from school during the hot summer months, to send them back to school as soon as possible, that by the 1st September, to enable them to participate in the exercises of elocution and music preparatory to an examination, which will take place in the month of October next, and of which due notice will be given by letter of invitation.

Mr. and Mrs. Boursier also beg leave to state that from the 1st of September next, they will be prepared to accommodate, at their establishment, forty boarders and two hundred day scholars. Parents are invited to call and examine the locality. au21

JACKSON INSTITUTE,
FOR BOTH SEXES,
UNDER THE MANAGEMENT OF MESSRS. ED. JEGOU AND A. LATOUR.
St. Louis street, No. 179, between Burgundy and Rampart streets.

AN Establishment with as complete a plan of studies as that of the Jackson Institute, was wanting in New Orleans. Our experience in teaching offering, as we think, to parents a sure guarantee for the future, we have confidently undertaken a task which, as it is indispensable, should secure to a competent and persevering professor their kind patronage and sympathies. We are conscious of the numerous duties that devolve upon us and the various obligations we have to fulfil towards the public, but should a blind and unwise economy imprudently jeopardize the success of our praiseworthy efforts, we will submit our views (which we know will be appreciated,) to the enlightened class of the population; their opinion and support cannot fail to insure the stability of our establishment. It numbers already many pupils and from its opening, was placed on the same footing with the best institutions in the city. We have spared no sacrifices and will always make it a duty to avail ourselves of every opportunity of improving it. Our Professors will be selected from among the most advantageously known ladies and gentlemen.

The premises are all that could be desired and are situated in the healthiest part of New Orleans.

The class rooms and dormitories are extensive and perfectly ventilated; a gymnasium and large shed have been constructed in the yard, the largest in the city.

A sewing class is attached to the Girls' schools, wherein every kind of needle work, including embroidery is taught. The course is obligatory.

N. B.—Corporal punishments are expressly forbidden.

BRANCHES OF INSTRUCTION.

Reading, Writing, Arithmetic, Grammar, Geography, History, Book-keeping, French, English, Spanish, Latin, Greek, Mathematics, Rhetoric, Philosophy, Natural History, &c.

The terms are agreed upon with parents. A month begun must be paid in full. Parents are respectfully invited to visit our Establishment.

NIGHT CLASS.

English, French, Book keeping, $4 a month.

POYDRAS COLLEGE,
FALSE RIVER, POINTE COUPEE, LA.

THIS establishment is situated on False River, six miles from the Mississippi, but is easily accessible to scholars from all parts, who may be landed at the Church of Pointe Coupee, from whence they will be conducted to the College, at the expense of the undersigned directors.

The building is surrounded by extensive play grounds, lined by a splendid lawn shaded with noble oak and lilac trees. At the end of the lawn and immediately before the gate, spread out the clear lake-like waters of False River, in which the pupils can securely bathe during the oppressive heats of summer. There is also attached to the building a gymnasium, and all kinds of games are being constructed.

It is now seven months since the Institution has been opened, and we take to ourselves great merit for the manner in which it has progressed during that short space of time; we have some fifty odd boys, and with the number increasing daily, we have not had one single case of sickness. We can offer to the public advantages, which no other institution can, for the studies being conducted after the principles of French Universities—devoting half the time to French and the other half to English, scholars will acquire these two languages perfectly, ... as far as Philosophy included.

CONDITIONS:

Board and Tuition, comprising bed and bedding for the scholastic year $150 00

All payments must be made in advance. The first at the time of admittance, the second on the first of March. Parents who may neglect paying during the year will be obliged to withdraw their children.

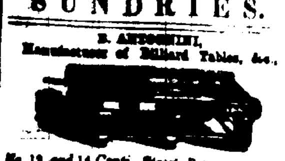
SUNDRIES.

B. ANTOGNINI,
Manufacturer of Billiard Tables, &c.,



No. 12 and 14 Conti Street, Between Chartres and Levee Streets,

BEGS leave to inform amateurs and proprietors of Billiards, that he is now ready to furnish them with Billiard Tables of a new kind, and superior to all those which have heretofore been in use, whether manufactured in France or the North or West of the United States.

The reproach which he is every day called upon to make to Billiard Tables coming from those countries have enabled him to ascertain the kind of construction which is best suited to resist the temperature of damp climates.

The table and bands of a Billiard being generally the parts which are most liable to deterioration, particular attention has been paid to the construction of these parts.

Every Billiard built by him has a Mahogany table, completed with Oak, Cherry and Hickory, thus warranting them from warping in any direction.

The bands are made of Patent India Rubber, invented by him, and far superior to the French rubbers, the latter used in different manufactories. These India Rubber sides have been used by him since 1847, and have always given great satisfaction.

Persons may satisfy themselves ... by visiting his establishment, where they will always find mounted Billiard Tables, ready for playing, and they will be convinced that the balls do not jump.

EVERY BILLIARD TABLE BOUGHT FROM HIM IS WARRANTED FOR A NUMBER OF YEARS LIMITED BY THE PURCHASER.

He has constantly on hand a great variety of New and Second-Hand Billiard Tables. Also—BALLS and PINS, for Ten-pin Alleys, complete Lots Balls, &c., &c. Also—
EIGHT LEG BILLIARDS.

☞ Persons unable to come to New Orleans, and who may desire to procure any of the above named articles, have only to communicate their orders to B. ANTOGNINI, who will execute them satisfactorily.

B. Antognini has also the honor to inform his friends and the public in general, that in consequence of an arrangement with one of the largest manufactory of Cloth, he has on hand a large quantity of that cloth for Billiard Tables, which he is prepared to sell at an exceedingly low price.

The extension of his house, and the relations which he has established, and continues to establish, with the best manufactories of France and the U. States, enable him to sell all articles in his line at prices below the current rates. my12—ly
