MEDICAL.

[illegible]

In all affections of the [illegible] certainty of cure, this truly wonderful Medicine has never been equalled ... [illegible]
Prepared and sold at the Laboratory of the Proprietor, P. P. DUCONGE, No. 394 Chartres street, N. O. no17

Ed. Martin's Vermifuge Syrup,
Without any disagreeable Taste or Smell.
THE MELIA AZEDARACH, (Follis Riplanati, Linnæus' Class X Decand: Monogyn—Jussieu, Class XIII, order II, Melieses—Tournefort, Class XXI Arbres rosacés), commonly called Pride of China, grows from the root of which for some time past has been, by a few persons, justly reputed the best vermifuge known, together with the principal agent in the above named remedy.
Having sought with the greatest care in the bark of the root of this tree, the active principle which produces such good results in verminous affections of children, we have succeeded in extracting it in its purest state and by combining it with other simple plants which are nearly all indigenous to Louisiana, have arrived at composing the above VERMIFUGE SYRUP, the efficacy of which is now beyond the shadow of a doubt.
This Syrup, of an agreeable flavor, can be administered without the slightest repugnance to the most delicate children. Its use continued during three days, the dose being given at shorter intervals as the child may be older and stronger, will infallibly expulse all those intestinal worms which are the source of so many diseases, dangerous and often fatal to children.
Some chemists, somewhat timorous by the frightful results of the various vermifuges hitherto employed, have given it to their children, but in doses extremely small; this has, in such cases, caused that direct increase, and made have injured the standing of this remedy, but not several of our most experienced practitioners, by judiciously prescribing it and regulating the doses adapted to the different ages tested and established its excellent virtues.
To avoid debilitating the little patients by too severe a diet, we have modified the doses originally prescribed, in the following manner:
Children 2 to 5 years old, three tea spoonfuls a day, at an interval of from 1 to 2 hours. Above five years of age, three table spoonfuls at the same intervals. No nourishment to be given between the first and third dose, nor within an hour after the third.
The Syrup must be administered during three consecutive days. Composed entirely of vegetable extracts, this Vermifuge does not produce any of the pernicious effects which have often followed the use of other Vermifuges.

DR. EDOUARD MARTIN'S
HYGIENIC ELIXIR,
Against Sea-Sickness.
FOR a long time past the scientific world, medical men especially, appear to have been struck with the remarkable fact, that among the innumerable collection of curative agents discovered, not one had been found to counteract or even mitigate the dreadful effects of sea-sickness. Several means have been tried to attain this end. These remedies, whether simple or compound after many trials, have hitherto proved signal failures. An idea may be formed thereof by the perusal of the annals of Pharmacy, Chemistry and Medicine of all countries, published within the last ten years.
The inventor of the "Hygienic Elixir," has at length made this invaluable discovery. After numerous trials, changes and alterations in the proportions of the substances composing this Elixir, he is enabled to offer it to travellers in the shape of a palatable draught, not decomposed or altered either by climate or age.
The Elixir checks sea-sickness immediately, and restores the stomach to its healthy state. However delicate be the constitution of the person using it, it is equally infallible, and procures a general feeling of ease and comfort. The nausea ceases as if by magic, calm and sleep are restored the appetite awakened and the digestion effected promptly under the influence of this tonic.
The inventor having had an opportunity during a recent sea voyage, to make personally a final trial of his Elixir, has made up his mind to offer it to the public. He could corroborate the above statements by testimonials from several sea-captains, but will appeal only to the opinion of one of the most intelligent and distinguished commanders of the French Commercial Navy. Captain Labory, having had opportunities of testing, under his own immediate supervision, the efficacy of this remedy, (then in the shape of pills) during several voyages, gives thus the result:
DEAR DOCTOR:—During my last voyage to France I have had opportunities of testing, on divers persons, your remedy against sea-sickness; I am happy to be enabled to report to you that I have obtained the best results, and if it were possible to alter this remedy into a palatable draught, such as a lemonade of some kind, which could be more easily taken than in its present shape, especially when the sea-sickness has already commenced, nothing more would be required, and you would be entitled to the everlasting gratitude of all those who are obliged to travel by sea, without being accustomed thereto.
I am yours truly,
Signed, A. LABORY, Capt. Ship l'Oscar.
The improvement suggested by Capt. Labory has been effected. The Tonic and Hygienic Elixir against sea-sickness, is sold in four ounce bottles with glass stoppers. Care must be taken to keep the bottle corked, to prevent evaporation.

G. Boyer's Institution,
No. 146 Conti street, between Dauphine and Burgundy.
MR. G. BOYER, founder of this establishment, the oldest in New Orleans, avails himself of this opportunity to make a new appeal to the confidence of parents. The institution is conducted in a large mansion, occupying a fine central position, being well ventilated, and in every respect perfectly salubrious. The range of studies which engage the attention of the pupils, extends over all the branches of learning, which are necessary to a useful, polite and solid education; from primary instruction, to the more abstruse subjects which are especially the province of a collegiate course. The elementary studies are attended to with the utmost care, with a view of exciting the decisive influence which they exercise over the other branches of instruction. Discipline, which must not be separated from assiduous study, nor from good education, is conducted with solicitude. It is calculated according to the age and character of the students, and intended to give them an accurate idea of duty and good behavior.
BRANCHES OF INSTRUCTION.
The English, French, Spanish, Greek, and Latin languages; Mathematics, History, Geography, Elements of Natural Philosophy, and Philosophical Science.

NEW ORLEANS FEMALE INSTITUTE, OR DAY AND BOARDING SCHOOL,
For young Ladies, 253 Camp st.,
Conducted by Mrs. Macaulay.
THIS institution is under the personal supervision of Mrs. MACAULAY, and the class advanced in literature, science and philosophy, are under the care of Dr. Macaulay. The most accomplished teachers are employed in giving instructions in the French, Spanish and Italian languages, also in drawing and dancing. The piano, harp and guitar, as well as vocal music, are taught by professors of the highest grade of qualifications.
There are now eight instructions in the institution, and it is the aim of the principals, to make it, in all respects, and in the best manner, worthy the patronage of parents. Every care is taken not only to instil pure morals and correct habits of cultivated, lady-like deportment in the pupils, but to render their daily life happy, that they may cherish to the latest period of life the recollection of its pleasures and attractions.
Young ladies from the country, living in the family as boarders, share in the enjoyments, privileges and attentions of daughters, and are uniformly treated, not as much as members of a boarding school, as daughters of an affectionate family.
To the establishment is attached a large and well selected library, and to create a thirst for the acquisition of general knowledge and to the improvement of taste, the pupils are continually taking place in the literary, scientific and political worlds, leading Periodicals of a truly valuable character, and carefully selected books of reference, are at the command of the young ladies well advanced in school education, for the important purpose of teaching them to acquire useful knowledge for themselves, by means of research and examination.
Monthly reports issued, as to progress and conduct.
A class for the study of the Latin language, will be formed on the first of November, and one on the use of the Globes.
References are made to parents who have had their daughters at the institution for years and further particulars and circulars can be obtained by applying, personally or by letter either to Dr. or Mrs. Macaulay. o22

Young Ladies' Academy.
MADAME PARENT has removed her institution to Customhouse street, between Royal and Bourbon, No. 86, the house heretofore occupied by Mr. Grasset, and is ready to receive boarders, half boarders and day scholars. There is a very large yard, together with a garden for the young ladies to amuse themselves. The apartments are vast and well aired. There is every advantage and inducement offered to parents, as to the moral and intellectual culture of their sons and daughters. The best Professors are employed. Every branch of a solid and refined education, is taught. In both languages; also, accomplishments such as drawing, Painting, Embroidery, &c.
Professor Auchinnie, one of the principals of the Franklin High School, has charge of the higher English classes, and Professor Gilbert of the Mathematical branches.
Mr. Gendbrel has been engaged as a Teacher of Vocal Music.
For terms apply at the institution. Parents are permitted to visit the institution on Sundays.

ST. LOUIS INSTITUTION.
DIRECTED BY
Madame E. Deron,
No. 145 St. Louis street, between Dauphine and Burgundy streets, New Orleans.
SCHOLASTIC YEAR, 1851-1852.
THIS institution which for the last twelve years, has followed a constant career of progress and prosperity, has resumed its usual course of studies since the first September.
Madame Deron, formerly a pupil and professor of the "Maison Royale of St. Denis," and a graduate of the University of France, has endeavored to profit by the experience which she has acquired in the United States, to place her Institution in the first rank of educational establishments in America.
Madame Deron, exclusively devoted to her pupils, applies herself not only to the cultivation of the mind, but also to the formation of the heart. She strongly desires that the young ladies confined to her care, may be remarked for all those valuable qualities which constitute a really good education, such as the spirit of order and decorum, amiability of temper, and solidity of judgment, mildness of manners and a sympathising disposition, and finally, easy grace and reserved elegance of manners. In order to obtain those results, Madame Deron has always employed as auxiliaries both firmness and mildness, the constant use of emulation, and especially rewards for application and regularity in study. She is seconded by her sister-in-law, Mademoiselle Deron, who, like herself, has always followed the career of instruction: these two ladies watch with the greatest zeal over the daily progress of the pupils.
The locality of the institution well known and appreciated in New Orleans, as one of the most suitable and salubrious in the city, is perfectly well arranged; the class and study rooms and dormitories are spacious and airy, looking over several gardens, and there are besides a handsome yard and a terrace sheltered from the sun and intended for the recreation of the pupils.
The general instruction is given both in French and English; it embraces all the branches which constitute a finished education for young ladies. The English language is the object of especial care, the Creole pupils are required in their communications with each other, and with their professors, to speak the English language exclusively.
Mr. Orton, who has been attached to the Academy from its foundation, devotes a great part of his time to impart to the pupils of the higher classes, a thorough knowledge of the English language and literature, the other classes are entrusted to well qualified American governesses.
Madame Deron has reserved to herself the direction of the French classes. She has besides secured the assistance of an excellent Professor of the higher sciences, Monsieur H. Aspen, who divides with Monsieur H. Deron and Madame Deron, the care of the French department.
The Spanish language forms a part of the system of study.
With respect to religious instruction M. l'Abbe Theissere, whose zeal is so justly appreciated, continues to prepare the pupils for their first communion in the chapel of the institution.
MUSIC.
The study of Music is the object of particular care. Madame Levillebeuvre, an artist of the higher order is attached to the institution as Professor of the Piano and Harp. A course of Vocal Music by one of the best Professors of the city.
As a means of emulation, the institution has adopted monthly musical examinations at which parents are invited to be present.
A Professor of Dancing is attached to the establishment. d30

JEFFERSON ACADEMY,
