ANTI-GOUTY ELIXIR

OF

HIPPOLYTE BREUGNE,

INVENTOR OF THE ANTI-RHEUMATISM

Tropical Balm.

TILL now all medical science has had no power over the gout, this terrible disease which has ever made so many victims all over the earth, and still keeps daily so many thousands from their occupations to give them up to the most painful sufferings. It is useless to recall to our minds the symptoms of this disease too well known to its numerous sufferers. It suffices to name them to appreciate the value of such a remedy against their return. Such is the effect of the ANTI-GOUTY ELIXIR, which is the result of the laborious searches of M. Hippolyte Breugne, already known by the discovery of the anti-rheumatismal Tropical Balm, that has had down to this day so great a success. The ANTI-GOUTY ELIXIR, particularly designed for curing the fits of the gout, possesses a power so large, great, warranted by a long and personal experience of the inventor, and by repeated essays upon its numerous victims.

The ANTI-GOUTY ELIXIR is easy to take, and its taste is to be very disagreeable. It can be taken pure or mixed with two or three spoonfuls of ten or coffee. Its effects are felt after a few hours, whatever may be the intensness of the fit. In twelve hours at most the suffering disappear, and all its symptoms vanish entirely.

For sale at the general depot, in New Orleans, at
