"Truth omnipotent and Public Justice certain."

FOR PRESIDENT OF THE UNITED STATES,

# HENRY CLAY.

NEW-ORLEANS.
MONDAY MORNING, APRIL 10, 1843.

MAX BOHRER'S first concert drew out the fashionable world, last Saturday, and his performances upon the violoncello afforded the most lively gratification to all present. He is doubtless a perfect master of the instrument, and produced effects of which many had supposed the violoncello to be incapable. If there was any [illegible] in execution, it was on account of the pleasure the artist took in bewildering the audience with sounds not naturally belonging to the instrument; but which, though beautiful it is true in themselves, were exacted from it by consummate skill. It may have been from this cause that the impression was made upon our mind that his playing lacked force and volume—the two greatest qualities of the violoncello. The adagio of the second of the performance, was executed in masterly style. There was more of the natural tones of the violoncello in it. Yet in this even, the instrument was not powerful enough at times—owing, we suppose, to some want of adaptation in the room to the development of sound. As a whole, Mr. BOHRER'S performance was exquisitely skillful and evinced consummate taste, a thorough knowledge of the instrument and had been perfect, but for the defects noticed, which may be more our fault than his or that of the room.

Mr. RAKEMAN, as pianist, was much applauded, for no other reason that we could perceive, than that his playing, like DOGBERRY'S homilies, was "too wise to be understood." He is a "proficient" doubtless, and the pieces he played were extremely difficult—the only fault we found with them was that they were not impossible. The first piece he executed was a sort of desert of sound in which no traces of time, harmony, or melody were found vegetating. Some of the *dilettanti* appeared to be in exstacies, but vastly the largest portion of the audience, thought that he was tuning the piano until he was applauded at the conclusion,—the first intimation they had that the rumbling sounds that fatigued them so thoroughly were advertized in the bills. It was so long as the first act and just about as great a bore. Mr. RAKEMAN'S second piece was not quite so transcendental. There were vestiges of music dimly adumbrated in portions of it, which were really delightful; whether from their intrinsic merit or from their neighborhood is a matter of speculation. It is a mystery to us that performers capable of gratifying an audience should pounce upon these "exercises" for public display, which, however valuable in assisting the executor, should be only indulged in in private parties, or before a select coterie of amateurs. From what we heard of Mr. R. last Saturday night, we are only warranted in saying that he can execute some very incomprehensible and difficult pieces.

Madame BAMBERGER sung two pieces from the opera of Romeo and Juliet and the Jewess, in fine style. This lady's powers of execution are familiar to our readers, and require no encomium from us. She richly merited the applause with which her singing was greeted.

TARGET SHOOTING.—The Washington and Harrison Guards went yesterday to Carrollton, for the purpose of deciding who should be the possessor of two splendid silver pitchers, which had been awarded to each of the companies on former occasions.

The victory was won by the Washington Guards, with the following result: out of 75 shots, 61 were hits and 14 missed.

The Harrison Guards although vanquished were not easily beaten as the following result will prove. Out of 75 shots, 60 were hits and 15 missed.

The New Orleans Grenadiers and Louisiana Greys had also a trial of skill at target shooting, which resulted in favor of the Grenadiers.

☞ In the case of J. B. Phillips, indicted for child-stealing and infanticide, Recorder VIAVANT, on Saturday, pronounced his opinion, fully exonerating Mr. Phillips from these charges. He was accordingly honorably acquitted.

Letters from Basse Terre, Guadaloupe, under date of the 14th ult., received here on Saturday, make mention of the second shock of an earthquake, which the northern papers say was experienced there in the early part of last month.

SUFFERERS OF GUADALOUPE.—A meeting of the French residents of Mobile, was held on the 5th inst., and a Committee of Collection appointed to obtain contributions for the relief of the sufferers by the disastrous earthquake at Point à Pitre.

CONNECTICUT.—The election in this State took place on Monday. The Whigs were active and in good spirits. The *Tribune* says—"The whigs are perfectly united, earnest and at work. Tylerism has done its worst, and by deception has seduced a portion of those who were Conservatives into the camp of the adversary, but not a hundred Whigs in the whole State. If we are beaten, it will be through the machinations of those who wear Abolition on their faces but carry Locofocoism in their hearts. Should these be able to divert so many as fifteen hundred whigs into voting a Third Party ticket, while they secretly pat on Locofocoism, our Friends may be beaten—we trust not otherwise."

THE TRIAL OF YOUNG MERCER for the murder of Heberton, is going on at Woodbury, N. J. The statement made by the prosecuting counsel is one which, if true, stamps Heberton, as one of the most atrocious scoundrels that ever disgraced humanity. The details are of course unfit for publication, but it would appear that the poor victim of Heberton, was not even seduced to him but a cruelly and forcibly robbed of her honor, while screaming and struggling. This, said the counsel, would be fully proved by Miss Mercer herself, by persons to whom she told the story, and by women who heard her screams. The remainder of the statement made by the counsel tallies with the stories already published.

The New York American thus explains the means by which the Tyler party is kept up—"When the Union newspaper was established in this city, the custom house and post office employees were required to subscribe for it and pay one year in advance. A few days since a subscription paper was handed round among the custom-house officers, headed for the *political support of the present Administration*, and all who refused to contribute were threatened with being reported. Of course, all who were *afraid* of being *reported* subscribed five dollars. We have since learned that this subscription was for the purpose of paying the debts of the Union. It is surmised that more than $3000 have been thus collected from officers of the customs, of which *one half is unaccounted for*.—What says Mr. Tyler to this *tampering with the press*?"

LOSS OF LIFE BY SHIPWRECK.—A Boston paper in the course of an article on the advantages of life-boats, furnishes the astounding statement that since the 6th November, 1842, *one thousand four hundred and fifty one* lives were lost by shipwreck and swamping of common boats, in the United States, and a part of the coasts of England and France. In no one instance was a life boat at hand.

CANDIDATE FOR CONGRESS.—Mr. Harmanson, of Avoyelles, is spoken of as the locofoco candidate for Congress, in the Third District. He has consented to run, if General DAWSON does not. Put General DAWSON out of the way, and we believe that either Judge SAUNDERS or the Hon. EDW. SPARROW, both good Whigs, could carry the district.

☞ The N. Y. *Albion* states that the British Commissioners, for running the boundary line in accordance with the treaty of Washington, are Lieut. Colonel Estcourt, two Astronomers, (Capt. Robinson and Lieut. Pipps, R. E.) two Surveyors, (Capt. Broughton, R. E., and Mr. J. Featherstonhaugh,) and Mr. Scott, Secretary, with 12 sappers and miners. They will leave England in the next steamer for Boston, April 4th.

COMPLIMENTARY.—The Washington *Globe* says—"In our opinion, John Tyler, Daniel Webster, John C. Spencer, J. M. Porter and Charles A. Wickliffe, taken together, make the most abominable compound of ingredients with which it was possible for the Harrisburg Convention to drench the country."

VERMONT.—The Montpelier *Watchman* estimates that the maple sugar produced in that State the present season, at the low price of five cents per pound, will amount to $1,000,000. This will make the quantity of sugar about 20,000 hhds. In 1840, the quantity was but 5,500 hogsheads.

Mr. HARDING, the gentleman who was shot in the streets of Augusta on the 30th ult., by W. H. Platt, has since died of his wounds.

SNOW.—On the 25th March, snow fell at Natchitoches to the depth of six or eight inches.

☞ The late Baron de Lederer, Austrian consul general for the United States, possessed a very valuable collection of American minerals, probably the most perfect that has ever been made. A negociation was commenced during his life for the sale of the collection to Yale College, and was continued with his executors. The price demanded was $3500, which was $500 more than the College would pay, and the collection is to be taken to Europe.

MURDER BY NEGROES.—The Columbus, (Mo.) Statesman, of 24th inst., says:

"On Monday last, the 20th inst., about sunset in the evening, Mr. Hiram Deasley, for many years a resident of this county, was murdered by five of his negroes.—On that evening the deceased and [illegible] negroes were in the act of [illegible] about three quarters of a mile from home, a stroke with an axe, by a female slave, the work of death was commenced. The three negroes, three men and another woman, then rushed to complete what the first had begun, and did so. On Tuesday all five were arrested, brought before Justice Woodson, confessed their guilt, and were committed for further trial."

## FROM JAMAICA.

By the arrival of the barque *Archibald Gracie*, from Kingston, we have received a file of Jamaica papers to the 25th ult. They contain a few items of intelligence, but little of special importance.

The *Standard* of the 25th says:—A report was promulgated about town a day or two since, that BOYER had visited the late residence of a gentleman who has recently left the Island, and agreed to purchase the plate, furniture, &c. at a valuation. Upon examination, however, we are told, that BOYER considered the establishment far too luxurious and expensive, to be in accordance with his *republican* habits;—he merely required a few beds, chairs, and tables, to the value, perhaps of some fifty or sixty pounds, and therefore declined that purchase. It is also understood that he is taking up his residence in Jamaica, the Ex-President "has an eye" to coming events in Hayti; and it is even asserted he does not entirely despair of being able to return there, and again assume the sceptre. On this latter point, we confess ourselves somewhat sceptical—however, *nous verrons*."

The absurd doctrines of the fanatic MILLER have been propagated by zealous disciples as far as the Island of Jamaica; and there, as elsewhere, have excited great alarm and consternation among the ignorant and superstitious—so much so, indeed, that the editor of the *Standard* gravely undertakes, in an elaborate article, to disprove the hypothesis that the world will be destroyed during the present year.

It is rumored that Mr. JOHN MULHOLLAND has been appointed agent to Ex President BOYER.

It is also reported that among the treasure brought by the latter from Hayti, is the crown worn by CHRISTOPHE—which, it is asserted, will be offered for sale.

The Kingston *Journal* furnishes some interesting particulars respecting the late battle of Leogane in Hayti, which led to the flight of President BOYER. It appears that the troops of the Provisional Government encountered the army of BOYER on the 7th March. The insurgent General addressed the latter, informing them that the soldiers of the people desired no war; that their quarrel was only with one man, (the President,) who had enslaved Hayti, demoralized her citizens and reduced them to poverty; and that it was necessary for the safety and happiness of the country, that he should be removed. This peaceful address was answered with a discharge of cannon from BOYER'S Life Guards. The battle then commenced, and had continued but for a short time, when several regiments of the President's troops marched over to the Provisional army, which opened to receive them. The Life Guards immediately took to flight, and the President himself, with his household, immediate friends, and some scanty supply of furniture and money, embarked on board the British man-of-war *Scylla*, for Jamaica. The Provisional Committee then proceeded to the capital. Their future conduct is thus described in the *Journal*:

"Their first measure, we learn, will be to revise the constitution. The President in future is to be elected for three years only, but may be re-elected, if his policy and government are approved of. The army is to be abolished, and a strong police substituted. The old Generals, it is expected, will be pensioned off, and every effort made to employ the soldiery in agriculture.—All religions are to be tolerated, and capitalists encouraged. Seminaries of learning will be established, and the public allowed expression of their own opinions through the medium of the press. It is expected that Mr. Ferry, a gentleman of great talents, a civilian, and also a very popular man, will be elected to the Presidential chair. The greatest difficulty will be in disposing of the old Generals, and leaving the soldiers to habits of agricultural industry. The mass of the population is represented to be in a state of the grossest ignorance, and it will be the work of time to diffuse knowledge, education, and religion, among the people of this benighted country."

New York, March 31st.

## LATER FROM CANTON.

We have been favored by the consignees of the ship Charleston, from Canton, with papers to the 26th November, seven days later than per the Great Western. We make the following extracts:

*Proclamation.*—Her Britanic Majesty's Plenipotentiary and Chief Superintendent of the trade of British subjects in China, deems it proper, in consequence of applications having been lately made to him, to proclaim, for general information, that no British merchant vessel can be allowed to go to any of the ports (Canton excepted) that are to be opened in accordance with the late treaty, until the tariffs and scale of duties shall be fixed and consular officers appointed, and of which arrangements due notice will be published.

In the meantime the ports of Tinghae (Chusan) and that of Koolongsoo (Amoy) are as heretofore open to all vessels wishing to visit them.

God save the Queen.

Dated on board the steamer frigate Queen, in Chusan harbor, this 14th day of November, 1842.

Signed, HY. POTTINGER, &c.

In Canton every thing is quiet, nor have we heard that the hostile spirit of its inhabitants, of which we spoke in our last, has again manifested itself. In trade, there is nothing to add.

Letters from Amoy state that accounts had been received there to the effect that only one person still existed of the many who were shipwrecked on the coast of Formosa, in the *Nerbudda* and the *Ann*, of whom Capt. Denham of the Ann is one, and that they were all to be sent home on the 29th November.

On the 19th October, Capt Morton, of the Maulmein, picked up a gin bottle, containing a paper, on which was written as follows:

Brig Mary Stewart, of Madras,
25th April, 1842.

Whoever may happen to fall in with this, will see the last writing of me, the unfortunate Captain.

We are now fast going down, having struck on a rock in the night, and our boats being totally unfit for use, we hourly expect death, which seems to me inevitable. Should this fall into the hands of any body, I would beg of them to report the loss of the vessel. I have not time for more. R. WILSON, Captain.

The Herculaneum, Transport, from Calcutta, for China, was lost 19th October, on the north part of Formosa. The crew were saved by a rope floated ashore by a cask. They fell into the hands of the Chinese, and were well treated until taken away by H. M. S. ship Serpent.

A FURIOUS MANIAC.—A Dr. Thorn, who keeps an apothecary's shop in New York, in a fit of derangement caused by *Melerism*, broke all the glass of his windows on Tuesday afternoon, then began to smash up his bottles, jars, show cases, &c. The police cooled him down by attaching a link of hose to a water plug at the door and playing upon him until he was two thirds drowned. He was then conveyed to the hospital. Poor old Dusty Miller! as much as we love fame, we would not take all his responsibilities for all his celebrity. What a terrible reckoning will be his, let the day of judgment come when it will!

From the Life of Sir Astley Cooper, which has been published in London by one of his relations, we take the annexed account of the professional income of this distinguished surgeon:

"My receipts," says he, "for the first year were 5l. 5s., the second, 26l., the third, 64, the fourth, 96l, the fifth 100l, the sixth, 200l, the seventh, 400l, the eighth 610, the ninth, (the year he was appointed to the hospital,) 1,100l." He himself appended a remark, which sufficiently shows his feeling on this subject—"Although I was a lecturer all the time on anatomy and surgery." The extent of practice which he subsequently obtained may be inferred from the fact that his professional income for the year 1815, exceeded 21,000l.—nearly a hundred thousand dollars.

A learned Theban of Gotham, says scientisee, in eradicating with caoutchouc plumbaginous impressions from a papyral surface, he perceived an adhesion of said surface to the papyral surface subjacent. In plain language, in rubbing pencil marks from a sheet of paper with India rubber, he found that the sheet stuck to the sheet beneath.

NATIONAL OBSERVATORY.—The U. S. Gazette says Lieutenant Gillis, U. S. N., has returned by the steamer Columbia from his mission to visit the observatories of Europe. He has purchased for the depot of Charts and Instruments at Washington, a complete set of Astronomical Instruments, which will not be surpassed by those of any Observatory extant, except the Imperial Russian Observatory at Polkova.

Mr. Gillis was every where welcomed by the savans of Europe with those marks of cordiality and consideration which were due to him as the representative of Astronomical Science from the United States.

The real National Observatory at Washington will be erected during the summer, under the modest name of the Depot of Charts and Instruments.

Lieut. Gillis visited the Royal Observatory at Greenwich on the 24 March, up to which date no rumor had been heard of the great comet of 1843, though seen in this country on the 28th of February at noon day; owing probably to the greater serenity of our atmosphere.

## A STRANGE STORY.

The good people of Philadelphia were thrown into a terrible state of excitement on Wednesday evening by a story told them by the conductor of the train from Baltimore. The incidents of the affair, as told there, are briefly these:

When the decision of the Naval Court Martial reaching Washington, it was found to be favorable to Com. Mackenzie, and a meeting of the Cabinet was called to consult upon it. Mr. SPENCER, Secretary of the Treasury, desired that the President should dismiss Commander MACKENZIE from the Navy. The President expressed an unwillingness to do so, and Mr. SPENCER said he should withdraw from the Cabinet if it were not done. Mr. UPSHUR said he would resign his seat as Secretary of the Navy if it *were* done. Thereupon arose a quarrel between Messrs. UPSHUR and SPENCER, which from words proceeded to blows! One account says Mr. Spencer was considerably injured; others that he was simply knocked down. Most of the Philadelphia Editors seem disposed to believe at least a portion of the story. It is scarcely possible, however, that it should be true, and is most likely a pure invention of some one who loves mischief much better than truth. Neither of the gentlemen implicated would be likely to mistake a council chamber for a pot-house, or themselves for street bullies. We understand also that the decision of the Court Martial did not leave this city until Tuesday evening, when it was sent on to Washington by F. S. Claxton, Esq., the Secretary of Com. Jones. The Washington papers of yesterday make no mention of the affair.—*New York Tribune.*

## BY AUTHORITY.

No. 60.

SPLENDID EXHIBITION OF DAGUERREAN PICTURES
Open every day opposite the St. Charles Theatre.

DAGUERRE'S CELEBRATED CHEMICAL PICTURES
FROM PARIS
(Oil Paintings.)

THESE splendid and extraordinary specimens of art which have excited general admiration on account of the marvellous effects produced by their imitation of nature from sunrise until sunset and night, thus producing two different subjects on the same canvass, results obtained by the decomposition of light, a new process invented by the celebrated Daguerre.

In order to render the exhibition as agreeable as possible MISS MOWBRAY will execute on the Piano Forte at intervals of the Pictures several airs and favorite songs.

The exhibition will consist of
FOUR PICTURES
Representing

1st. The Inauguration of Solomon's Temple, which, according to the bible, was the richest and most magnificent temple ever known.

2d. A Midnight Mass in the Church of St Etienne Dumont at Paris.

3d. The charming Valley of Goldeau in Switzerland.

4th. The magnificent Monastery of Mount Serrat, in Catalonia, Spain.

☞ The exhibition to commence at half past 7 o'clock, P. M. precisely.

☞ As the pictures are produced but once at each exhibition, the public are requested to be present punctually at the hour indicated in order to enjoy the spectacle of all the pictures.

AMAZONE BONNETS—The manufacture of this beautiful article is now brought to great perfection and ladies can be accommodated with bonnets of any style or color, on application at the Depot, 349 Broadway.

As to its qualities, they have been fully tested. They combine variety, lightness and durability. Indeed this last was urged as an objection by the interest that for a long time opposed the introduction of the article, but when it is considered that its price is now reduced to such a moderate amount that every lady may keep three or four bonnets, and exchange her habiliment every day in the week, the objection, if good at all at first, is of no import now.

The misstatements that have been made in regard to the article, and the practices resorted to in order to lower it in the estimation of the public, and throw it out of the general consumption, are rendered powerless now that it is fairly exhibited and submitted to inspection at the store specially opened for the purpose, at 349 Broadway.

Manufacturers and others at a distance, who prefer purchasing the material to be converted into such shapes as may suit the tastes of their customers are informed that A. CASELLI, 34 EXCHANGE PLACE, keeps constantly on hand a very large supply of AMAZONE BRAID of assorted colors, including a beautiful white, for sale in quantities to accommodate purchasers. a8 6t

RED SULPHUR SPRINGS, MONROE COUNTY VIRGINIA—FOR SALE.

BY virtue of five deeds of trust made to John H. Vanderveer and Conway Robinson, as trustees, to wit:—The first bearing date the 23d, of September, 1834; the second the 1st of November, 1834; the third, the 26th of January, 1837; the fourth, the [illegible] of February, 1839; and the fifth, the 5th day of September, 1840, the four first of which deeds are from William Burke and wife, and the fifth from said Burke, and all of which are recorded in the office of the Court of Monroe county, in Virginia—the said trustees, or one of them, will, on Wednesday, the 16th day of August next, at the Red Sulphur Springs, in the said county of Monroe, sell at public auction, to the highest bidder, three parcels of land, in the said county of Monroe, on the waters of Indian creek, containing, by the patents, one of them 100 acres, another 39 acres, and the other 152 acres, making them, together, 291 acres, and being the same lands which were conveyed by James and John Harvey to the said Burke, and known as the Red Sulphur Springs Tract, with all the buildings and waters or privileges of water thereon or thereto belonging and the appurtenances thereto; also such personal property as is embraced in the deed of the 23th of September, 1834, including much valuable furniture, one or more slaves and a carriage and harness.

And by virtue of the said third, fourth and fifth deeds, the said trustees, or one of them, will, at the same hour and place, sell at public auction such other lands adjoining those before mentioned, that is to say, all the lands conveyed by the said three first deeds, which are not included in the two first—also, such of the personal property conveyed by the said deeds, as is not embraced in that of the 24th of September, 1834, consisting of horses, cattle, sheep, hogs, wagons and furniture.

And by virtue of the said fourth and fifth deeds, the said trustees, or one of them, will, at the same hour and place, sell at public auction, such of the personal property conveyed by the said two last deeds, as is not embraced in the three first.

And by virtue of the fifth deed, the said trustees, or one of them, will, at the same hour and place, sell at public auction, such of the personal property conveyed thereby, as is not embraced in the rest.

The sale will be for ready money, according to the terms of the said deeds, except as to one-half of such part of the purchase money of the lands, as will be for the creditors secured by the four first deeds, as to this last the creditors consent that there may be a credit of one and two years, bearing interest, the purchaser executing bonds and a deed of trust on the premises to secure the same. The trustees, or one of them, will convey such title as is vested in them by the said deed.

FIRE PROOF IRON SAFES—There can be no greater evidence of the high estimation by the public of Wilder's Patent Salamander Safe than the fact, that since the invention of these Safes not their subsequent trials and tests, almost every thing made for the purpose of holding books and papers are called by the makers and vendors by the name of Salamander Safes.

The following gentlemen composed a Committee of Merchants at the trial of safes in a blast furnace near the foot of Wall street, and decided in favor of Wilder's Patent Safe which was the only one that stood the test, viz:

Messrs. WADSWORTH & SMITH,
BALDWIN & CO,
MINTURN & CO,
CHAS H. MARSHALL, Esq.

Wilder's Salamander Safes, which have never failed to preserve their contents in case of fire, are to be had only of

INVALUABLE REMEDY FOR DISEASES OF THE CHEST.—Pectoral syrup and paste of Calve's Lights, by Degenetais, Druggist and Chemist at Paris.

Of all the preparations intended to cure diseases of the chest, none has obtained so brilliant a success as the Pectoral Paste above indicated.

This Paste immediately removes all irritations of the breast, facilitates expectoration, instantaneously assuages paroxysms of coughing, saves a hooping cough. Catarrhs and inveterate cold yield immediately under its influence, in a word it is a most prompt and effectual remedy for acute and chronic affections of the chest and air passages.

Be cautious not to confound Degenetais' Paste with that of Iceland Moss.

The Paste and Syrup of Calves Lights may be found at all the Druggists in New Orleans. General depot for whole sale at J. Tardos, No. 339 Royal street, whose signature is affixed to every box.

MAGNOLIA CHRISMADORA.

To whiten, soften and smooth the Hands. Every composition hitherto invented for the preservation of the hands up to the present time, has left something wanting, and has failed to satisfy in all respects the wishes of its inventor.

The Manufacturers of the Magnolia Chrismadora, believe they have discovered in this Queen of Louisiana flowers, the necessary substances for the preservation of the hands.

This composition possesses the advantages of giving the hands a whiteness, freshness and velvety feel unequalled by any other invention.

It may be equally employed for the nourishment and preservation of the hair, which it softens while it removes dandruff.

The Magnolia Chrismadora may be found at the discoverers, NORMANDIN & BROTHERS, corner Royal and Maine streets and M. Moubeet, 239 Royal st.
