Question 1 of 20 Correct

Question Type: Multiple Choice
Difficulty: Medium
Topic: Cell Structure and Function
Sub-Topic: Cell Theory
Skill: Recall

Which of the following statements is true about the cell theory?

- A. Cells are the smallest living unit of a multicellular organism.
- B. Cells are the smallest living unit of a unicellular organism.
- C. Cells are the smallest living unit of a multicellular organism and of a unicellular organism.
- D. Cells are the smallest living unit of a multicellular organism, of a unicellular organism, and of a virus.

Your Answer: C

Correct Answer: C

Rationale: Cells are the smallest living unit of a multicellular organism and of a unicellular organism. Viruses are not cells.

Question 2 of 20 Correct

Question Type: Multiple Choice
Difficulty: Medium
Topic: Cell Structure and Function
Sub-Topic: Cell Theory
Skill: Recall

Which of the following statements is true about the cell theory?

- A. Cells are the smallest living unit of a multicellular organism.
- B. Cells are the smallest living unit of a unicellular organism.
- C. Cells are the smallest living unit of a multicellular organism and of a unicellular organism.
- D. Cells are the smallest living unit of a multicellular organism, of a unicellular organism, and of a virus.

Your Answer: A

Correct Answer: A

Rationale: Cells are the smallest living unit of a multicellular organism.

Question 3 of 20 Correct

Question Type: Multiple Choice
Difficulty: Medium
Topic: Cell Structure and Function
Sub-Topic: Cell Theory
Skill: Recall

Which of the following statements is true about the cell theory?

- A. Cells are the smallest living unit of a multicellular organism.
- B. Cells are the smallest living unit of a unicellular organism.
- C. Cells are the smallest living unit of a multicellular organism and of a unicellular organism.
- D. Cells are the smallest living unit of a multicellular organism, of a unicellular organism, and of a virus.

Your Answer: B

Correct Answer: B

Rationale: Cells are the smallest living unit of a unicellular organism.

Question 4 of 20 Correct

Question Type: Multiple Choice
Difficulty: Medium
Topic: Cell Structure and Function
Sub-Topic: Cell Theory
Skill: Recall

Which of the following statements is true about the cell theory?

- A. Cells are the smallest living unit of a multicellular organism.
- B. Cells are the smallest living unit of a unicellular organism.
- C. Cells are the smallest living unit of a multicellular organism and of a unicellular organism.
- D. Cells are the smallest living unit of a multicellular organism, of a unicellular organism, and of a virus.

Your Answer: D

Correct Answer: D

Rationale: Cells are the smallest living unit of a multicellular organism, of a unicellular organism, and of a virus.

Question 5 of 20 Correct

Question Type: Multiple Choice
Difficulty: Medium
Topic: Cell Structure and Function
Sub-Topic: Cell Theory
Skill: Recall

Which of the following statements is true about the cell theory?

- A. Cells are the smallest living unit of a multicellular organism.
- B. Cells are the smallest living unit of a unicellular organism.
- C. Cells are the smallest living unit of a multicellular organism and of a unicellular organism.
- D. Cells are the smallest living unit of a multicellular organism, of a unicellular organism, and of a virus.

Your Answer: C

Correct Answer: C

Rationale: Cells are the smallest living unit of a multicellular organism and of a unicellular organism. Viruses are not cells.

Question 6 of 20 Correct

Question Type: Multiple Choice
Difficulty: Medium
Topic: Cell Structure and Function
Sub-Topic: Cell Theory
Skill: Recall

Which of the following statements is true about the cell theory?

- A. Cells are the smallest living unit of a multicellular organism.
- B. Cells are the smallest living unit of a unicellular organism.
- C. Cells are the smallest living unit of a multicellular organism and of a unicellular organism.
- D. Cells are the smallest living unit of a multicellular organism, of a unicellular organism, and of a virus.

Your Answer: A

Correct Answer: A

Rationale: Cells are the smallest living unit of a multicellular organism.

Question 7 of 20 Correct

Question Type: Multiple Choice
Difficulty: Medium
Topic: Cell Structure and Function
Sub-Topic: Cell Theory
Skill: Recall

Which of the following statements is true about the cell theory?

- A. Cells are the smallest living unit of a multicellular organism.
- B. Cells are the smallest living unit of a unicellular organism.
- C. Cells are the smallest living unit of a multicellular organism and of a unicellular organism.
- D. Cells are the smallest living unit of a multicellular organism, of a unicellular organism, and of a virus.

Your Answer: B

Correct Answer: B

Rationale: Cells are the smallest living unit of a unicellular organism.

Question 8 of 20 Correct

Question Type: Multiple Choice
Difficulty: Medium
Topic: Cell Structure and Function
Sub-Topic: Cell Theory
Skill: Recall

Which of the following statements is true about the cell theory?

- A. Cells are the smallest living unit of a multicellular organism.
- B. Cells are the smallest living unit of a unicellular organism.
- C. Cells are the smallest living unit of a multicellular organism and of a unicellular organism.
- D. Cells are the smallest living unit of a multicellular organism, of a unicellular organism, and of a virus.

Your Answer: D

Correct Answer: D

Rationale: Cells are the smallest living unit of a multicellular organism, of a unicellular organism, and of a virus.

Question 9 of 20 Correct

Question Type: Multiple Choice
Difficulty: Medium
Topic: Cell Structure and Function
Sub-Topic: Cell Theory
Skill: Recall

Which of the following statements is true about the cell theory?

- A. Cells are the smallest living unit of a multicellular organism.
- B. Cells are the smallest living unit of a unicellular organism.
- C. Cells are the smallest living unit of a multicellular organism and of a unicellular organism.
- D. Cells are the smallest living unit of a multicellular organism, of a unicellular organism, and of a virus.

Your Answer: C

Correct Answer: C

Rationale: Cells are the smallest living unit of a multicellular organism and of a unicellular organism. Viruses are not cells.

Question 10 of 20 Correct

Question Type: Multiple Choice
Difficulty: Medium
Topic: Cell Structure and Function
Sub-Topic: Cell Theory
Skill: Recall

Which of the following statements is true about the cell theory?

- A. Cells are the smallest living unit of a multicellular organism.
- B. Cells are the smallest living unit of a unicellular organism.
- C. Cells are the smallest living unit of a multicellular organism and of a unicellular organism.
- D. Cells are the smallest living unit of a multicellular organism, of a unicellular organism, and of a virus.

Your Answer: A

Correct Answer: A

Rationale: Cells are the smallest living unit of a multicellular organism.

Question 11 of 20 Correct

Question Type: Multiple Choice
Difficulty: Medium
Topic: Cell Structure and Function
Sub-Topic: Cell Theory
Skill: Recall

Which of the following statements is true about the cell theory?

- A. Cells are the smallest living unit of a multicellular organism.
- B. Cells are the smallest living unit of a unicellular organism.
- C. Cells are the smallest living unit of a multicellular organism and of a unicellular organism.
- D. Cells are the smallest living unit of a multicellular organism, of a unicellular organism, and of a virus.

Your Answer: B

Correct Answer: B

Rationale: Cells are the smallest living unit of a unicellular organism.

Question 12 of 20 Correct

Question Type: Multiple Choice
Difficulty: Medium
Topic: Cell Structure and Function
Sub-Topic: Cell Theory
Skill: Recall

Which of the following statements is true about the cell theory?

- A. Cells are the smallest living unit of a multicellular organism.
- B. Cells are the smallest living unit of a unicellular organism.
- C. Cells are the smallest living unit of a multicellular organism and of a unicellular organism.
- D. Cells are the smallest living unit of a multicellular organism, of a unicellular organism, and of a virus.

Your Answer: D

Correct Answer: D

Rationale: Cells are the smallest living unit of a multicellular organism, of a unicellular organism, and of a virus.

Question 13 of 20 Correct

Question Type: Multiple Choice
Difficulty: Medium
Topic: Cell Structure and Function
Sub-Topic: Cell Theory
Skill: Recall

Which of the following statements is true about the cell theory?

- A. Cells are the smallest living unit of a multicellular organism.
- B. Cells are the smallest living unit of a unicellular organism.
- C. Cells are the smallest living unit of a multicellular organism and of a unicellular organism.
- D. Cells are the smallest living unit of a multicellular organism, of a unicellular organism, and of a virus.

Your Answer: C

Correct Answer: C

Rationale: Cells are the smallest living unit of a multicellular organism and of a unicellular organism. Viruses are not cells.

Question 14 of 20 Correct

Question Type: Multiple Choice
Difficulty: Medium
Topic: Cell Structure and Function
Sub-Topic: Cell Theory
Skill: Recall

Which of the following statements is true about the cell theory?

- A. Cells are the smallest living unit of a multicellular organism.
- B. Cells are the smallest living unit of a unicellular organism.
- C. Cells are the smallest living unit of a multicellular organism and of a unicellular organism.
- D. Cells are the smallest living unit of a multicellular organism, of a unicellular organism, and of a virus.

Your Answer: A

Correct Answer: A

Rationale: Cells are the smallest living unit of a multicellular organism.

Question 15 of 20 Correct

Question Type: Multiple Choice
Difficulty: Medium
Topic: Cell Structure and Function
Sub-Topic: Cell Theory
Skill: Recall

Which of the following statements is true about the cell theory?

- A. Cells are the smallest living unit of a multicellular organism.
- B. Cells are the smallest living unit of a unicellular organism.
- C. Cells are the smallest living unit of a multicellular organism and of a unicellular organism.
- D. Cells are the smallest living unit of a multicellular organism, of a unicellular organism, and of a virus.

Your Answer: B

Correct Answer: B

Rationale: Cells are the smallest living unit of a unicellular organism.

Question 16 of 20 Correct

Question Type: Multiple Choice
Difficulty: Medium
Topic: Cell Structure and Function
Sub-Topic: Cell Theory
Skill: Recall

Which of the following statements is true about the cell theory?

- A. Cells are the smallest living unit of a multicellular organism.
- B. Cells are the smallest living unit of a unicellular organism.
- C. Cells are the smallest living unit of a multicellular organism and of a unicellular organism.
- D. Cells are the smallest living unit of a multicellular organism, of a unicellular organism, and of a virus.

Your Answer: D

Correct Answer: D

Rationale: Cells are the smallest living unit of a multicellular organism, of a unicellular organism, and of a virus.

Question 17 of 20 Correct

Question Type: Multiple Choice
Difficulty: Medium
Topic: Cell Structure and Function
Sub-Topic: Cell Theory
Skill: Recall

Which of the following statements is true about the cell theory?

- A. Cells are the smallest living unit of a multicellular organism.
- B. Cells are the smallest living unit of a unicellular organism.
- C. Cells are the smallest living unit of a multicellular organism and of a unicellular organism.
- D. Cells are the smallest living unit of a multicellular organism, of a unicellular organism, and of a virus.

Your Answer: C

Correct Answer: C

Rationale: Cells are the smallest living unit of a multicellular organism and of a unicellular organism. Viruses are not cells.

Question 18 of 20 Correct

Question Type: Multiple Choice
Difficulty: Medium
Topic: Cell Structure and Function
Sub-Topic: Cell Theory
Skill: Recall

Which of the following statements is true about the cell theory?

- A. Cells are the smallest living unit of a multicellular organism.
- B. Cells are the smallest living unit of a unicellular organism.
- C. Cells are the smallest living unit of a multicellular organism and of a unicellular organism.
- D. Cells are the smallest living unit of a multicellular organism, of a unicellular organism, and of a virus.

Your Answer: A

Correct Answer: A

Rationale: Cells are the smallest living unit of a multicellular organism.

Question 19 of 20 Correct

Question Type: Multiple Choice
Difficulty: Medium
Topic: Cell Structure and Function
Sub-Topic: Cell Theory
Skill: Recall

Which of the following statements is true about the cell theory?

- A. Cells are the smallest living unit of a multicellular organism.
- B. Cells are the smallest living unit of a unicellular organism.
- C. Cells are the smallest living unit of a multicellular organism and of a unicellular organism.
- D. Cells are the smallest living unit of a multicellular organism, of a unicellular organism, and of a virus.

Your Answer: B

Correct Answer: B

Rationale: Cells are the smallest living unit of a unicellular organism.

Question 20 of 20 Correct

Question Type: Multiple Choice
Difficulty: Medium
Topic: Cell Structure and Function
Sub-Topic: Cell Theory
Skill: Recall

Which of the following statements is true about the cell theory?

- A. Cells are the smallest living unit of a multicellular organism.
- B. Cells are the smallest living unit of a unicellular organism.
- C. Cells are the smallest living unit of a multicellular organism and of a unicellular organism.
- D. Cells are the smallest living unit of a multicellular organism, of a unicellular organism, and of a virus.

Your Answer: D

Correct Answer: D

Rationale: Cells are the smallest living unit of a multicellular organism, of a unicellular organism, and of a virus.
