FRIDAY MORNING, Nov. 17, 1848.

Heartless Devices.

It appears that every possible species of fraud and forgery was employed by the Locofoco party, at the late election for President in the hope of defeating Gen. TAYLOR. In this quarter, we had a letter from Mr. HALLETT, of Boston, a no obnoxiously profligate politician, professing to be well versed certain information from Gen. TAYLOR, to the effect that he was in favor of the Wilmot Proviso. Then, there was another piece of forgery from one WILLIS LAMBERT, of Connecticut—an individual whom no one ever heard of, imparting the same intelligence to the world. Again, just before the election, the Locofocos here published a cock and bull story about some body from Catahoula having arrived in town, and in the North, heard the Locofocos there declare that Gen. TAYLOR was pledged not to veto the Wilmot Proviso, instead of having repeated this important intelligence to the people of Catahoula, on his return. Whereat, the aforesaid citizens of Catahoula waxed so indignant that they determined to vote en masse for Cass and to give him 300 majority, in resolution, however, which they have strangely abandoned and contented themselves with giving him only 60.

Twice North, the same ominous game was played on us, very soon after the canvass. Gen. TAYLOR's portrait side were paraded in every Locofoco town North of Mason & Dixon's line, with mottoes, quotations and purchase money, in the most conspicuously displayed. On the eve of the election, a letter is received by a prominent Northern Whig from a prominent Southern Locofoco, in which the latter protests that Gen. TAYLOR is a violent opponent of the Wilmot Proviso, and wonders that the North can think so him. And thus North and South, East and West, this dishonest and discreditable game was carried out, and the most despicable means, that ingenuity and unscrupulousness, could suggest, were put in requisition to delude and delude the people.

The Cincinnati Gazette furnishes us with one more proof of the system of fraud and falsehood. We copy the following from that paper:

"Some days since, a young man, who is regarded as a busy and active partizan, presented to us for publication what he said was a letter of a friend just received from Gen. Taylor on the Wilmot Proviso, in reply to a letter addressed to him by several gentlemen in this city, on the 5th of October. That copy reads thus:

BATON ROUGE, LA., Oct. 16.

GENTLEMEN—I received yours of the 5th inst. today only, the Post has not yet arrived. Slavery may be abolished in internal improvements by Congress and the Executive, in relation to the constitutional Union.

Yours, Z. TAYLOR.

Messrs. A. Comly, M. Hoge, G. A. W. Morris.

We were not quite satisfied with the letter. We were informed that a very bad hand had furnished the address, and that it was not at that office. We consulted our friends as to the effect of publishing them, but we not to publish it. He (the friend) The next morning we sent to him for the original letter, but he had determined to publish it. We then called on Gen. Taylor's friends, and asked to see for ourselves the handwriting, to satisfy us that it was genuine, or a forgery, we suspected. The young man said he was well acquainted with the handwriting of the gentleman, and could find him, though we should have to search. Mr. Hooton, the Postmaster, was called in, who gave the same opinion. We then sent for the young man, who, on being shown the letter, was at first so taken aback that he could not reply from him. We then told the young man now, that we had no other alternative, but to consider it a forgery, and asked him if he was willing to be considered with them. We have no doubt whatever that the letter is a forgery; though we cannot see what motives but what Gen. Taylor, in other respects, is supposed to be a honest, yet this is a forgery."

Gen. TAYLOR and the NEW YORK CARTOON. Many will doubtless remember the gallant letter made by the Whig committee of New York, some time ago, in favor of Gen. Taylor. It was issued in the form of a Whig cartoon. The following correspondence, which we copy from the Albany Evening Journal, is a sufficient explanation of the Whig cartoon, which was thrown out by the Whig committee of New York, and which was known unto they have placed you in the chief state.

Feeling assured that the flag which you have so gallantly borne to victory and glory on our frontiers, and in the enemy's country, will receive no dishonor at your hands in the capital.

With high respect and regard,

Your obedient servant,

THOMAS PRIME, Secretary.

GENTLEMEN—Your letter, enclosing to me copy of a resolution lately adopted at a mass meeting of the citizens of New York, has been duly conveyed to me through the courtesy of Hosea L. Williams, Esq.

I have read the resolutions and the current proceedings of the meeting with great satisfaction, and beg to say, in reply, that I shall ever warmly cherish this free and enthusiastic demonstration made in my favor, by the citizens of our great commercial emporium, with feelings of pride and gratitude, and accord all the most acceptable and gratifying compliments paid to me by any assemblage of my fellow citizens.

Please to accept for the entire body of the very responsible working class my most profound acknowledgments, and for yourselves my thanks for the handsome terms with which, in your letter, the resolutions and proceedings have been accompanied.

I am, gentlemen,

With high respect and regard,

Your most obedient servant,

Z. TAYLOR.

To Messrs. E. Collin, Garnsey, Leonard, P. Washburn, Thomas Dring, Joseph Keen, Walter Spencer, Josiah Fanning, D. B. Andrews, Robert Mitchell, Hugh Barclay, and others, Committee of Arrangements.

CHINESE BARBER.—The itinerant barber's apparatus, in this city, the waiters ways boiling on a portable stand, while in his rear, on a pole balanced over his shoulder, are water, towels, razors, etc., if he is in requisition. He passes on a convenient spot, shaves the head, cleans the ears and eyes, cracks the joints and extirpates the bally in an incredibly short space of time. Hair is only worn on the crown of the head in the shape of a queue. The shaving is a matter of necessity to the mandarin and gentleman, while scarcely a laborer goes three or four days unshorn. This trade is in constant exercise, but the death of an emperor is sore holyday to the barber, shaving and mourning being impositant with each other.

Tinker, tailor, and shoemaker, each has his pack and basking in a sunny spot, plies his trade, finishes off one job, and enters his peculiar cry for another.

The Election.

MISSISSIPPI.—A report prevails that Mississippi has given a small majority to the Cass Electoral ticket. We think this probable enough, though the certainty could hardly yet have been ascertained. The Jackson *Southern* of the 11th, sends forth the following, which embraces the most authentic returns, we have seen from the State:

From the Southron Extra.

We give the gains from 29 of the 59 counties of Mississippi, as compared with the Polk and Clay vote of 1844, when the former carried the State by about 6,000. The vote of Lafayette county was 40 or 50 less. The Mississippian, of today, says the State has gone for Taylor and Fillmore, but, from the data before us, we are apprehensive they may be mistaken:

TAYLOR GAINS: Counties	Gains.	Counties.	Gains.
		Neshoba,	67
Attala,	37	Newton,	114
Bolivar,	36	Rankin,	81
Carroll,	29	Scott,	26
Claiborne,	103	Simpson,	96
Copiah,	116	Smith,	103
Franklin,	25	Washington,	13
Hinds,	100	Wilkinson,	72
Holmes,	43	Winston,	134
Jasper,	238	Yalabusha,	174
Jefferson,	60	Yazoo,	56
Kemper,	180		
Lafayette,	175	CASS GAINS: Adams,	23
Lauderdale,	182	Madison,	9
Leake,	105	Warren,	4—36
Lawrence,	158		

Showing a net gain of 2,507 for Gen. Taylor.

TENNESSEE.—The Memphis *Eagle* of the 11th inst., states that the returns from 22 counties exhibit a gain for Taylor over the last election for Governor, of 1,933 votes. A similar ratio of gain would ensure a majority not much below seven thousand. The returns from East Tennessee received by way of Charleston, evince still heavier gains. We think Tennessee and North Carolina will about equalize each other, and give each, some seven thousand five hundred or eight thousand majority to Old Zack.

ALABAMA.—Our despatch of yesterday stated that this State had gone for Cass by a majority of about 200. We had hoped to get Alabama, but to lose her by so insignificant a vote is of itself a triumph. It is sufficient glory to have reduced a majority of nearly 12,000, to less than 200. Had the Taylor men imagined for an instant that they stood the slightest chance of carrying the State, they would have polled all their strength and secured the Electoral vote by a round majority.

We subjoin the latest and most authentic advices from Alabama:

Last evening we received a telegraphic despatch from Montgomery, announcing that 46 counties had been heard from, in which Taylor's majority is 844. Five counties to hear from—10 more to hear from—Blount, Jefferson, Walker, Fayette and Dale. These gave an aggregate majority of 2333 for Polk in 1844. An average gain of nearly 300 in each county is required to give the State to Taylor. Result doubtful.—*Mobile Advertiser, Nov. 15th.*

ILLINOIS.—Our Montgomery correspondent surrenders Illinois to Cass. We suppose it is so, though the few actual returns which are before us look exceedingly Taylorish.

GEORGIA.—We have seen returns, embracing in most instances the full vote, of 63 counties. In these, Taylor gains about 2500 over the vote of October last, when the Locofoco majority in the State was 251. We presume Old Zack's majority will not fall much, if any, short of 3000.

VIRGINIA.—Our Richmond, Pittsburg and Norfolk exchanges are filled with election returns, which thus far show an average gain of about 50 votes in each county—a ratio sufficient to carry the State. It appears, however, from later telegraphic advices, that the gain has not been maintained, and that Cass gets Virginia by a thousand majority.

IOWA AND WISCONSIN.—No reliable information whatever has been received from either of these States. The few returns we have seen from Wisconsin indicate an immense Van Buren vote.

THE CONGRESSIONAL DELEGATION OF NEW YORK.—Just look at the following list of Congressmen elected in New York on the 7th, and say whether the Empire has not done her whole duty:

I—John A. King, Whig gain.
II—David A. Boker, Whig gain.
III—J. Philips Phoenix, Whig gain.
IV—Walter Underhill, Whig gain.
V—George Briggs, Whig.

*Elected to fill a vacancy.

Louisiana.

We have received returns from five more Parishes, viz. Caldwell, Ouachita, Union, Morehouse and Jackson. In Caldwell Cass has 59 majority, in Jackson 66, and in Ouachita 8. In Morehouse Taylor has 77 majority, and in Union 70. Jackson is a new Parish. The other gave, in 1844, an aggregate majority to Polk of 156 votes. Now they give 14 to Taylor—gain 170.

A careful footing up of the returns from 41 Parishes shows that Gen. Taylor has 3,208 majority. The Parishes to be heard from are Caddo, Claiborne and Bienville, De Soto, Bossier and Sabine. They gave 390 majority to Polk. They will probably give Cass 250 now, leaving Taylor with from 2,900 to 3,000 majority in the State.

MORMONS.—The St. Louis *Republican*, of the 8th inst., says:—The steamer *Grand Turk*, on her last trip from New Orleans, brought up 225 English emigrants, who profess the Mormon faith, and are destined for Salt Lake. It is said that between 300 and 400 more are on their way from Liverpool, having taken passage in the ship John Prince, which sailed about the 1st of October.

DEBUT OF CHARLES BRAHAM.—Mr. Charles Braham, son of the great English vocalist, made his debut at the Princesses Theatre, in London last month, in the new Opera of Leoline. He is thus spoken of by the *Illustrated News*:

In a biography of Graham, in allusion to his marriage, there is the following passage: "In 1816, Braham was married to Miss Bolton, of Ardwick, near Manchester, who has blessed him with a fine family; and perhaps one of his sons.

At some not distant period, may
Become the Braham of his day.

This prophecy will not exactly be fulfilled by his son Charles; but he has, by his singing in the new opera of "Leoline," at once established himself in the favor of the public as a tenor, having a remarkably sweet and sympathetic organ. His reception on his first entrance was most animated—the house rang with the repeated burst of cheering, and his execution of the first cantabile passage in a duo fully responded to the anxious wishes of his hearers, and it was encored rapturously. His romance in the second act, "My boyhood's love," a charming melody, created such a sensation that it was doubly encored. His power of sustaining the notes, of swelling and diminishing the tones, reminded the hearer of his father's style. As an actor he is a complete novice, and has everything to learn.

TO NEWSPAPER BORROWERS.—The following excellent remarks of the Charleston *Courier*, in relation to newspaper borrowers, coincide so well with our views on the subject, that we take the liberty of adopting them as our own. We trust our subscribers will attend peripatetically to the request contained in the last paragraph.

[*Ed. Bee.*]

"TO NEWSPAPER BORROWERS.—We address ourselves especially to this class of the community, for the reason that we are great sufferers from the prevalence of the detestable habit. We have daily complaints, from paying subscribers, that they cannot obtain the reading of their own paper on account of some kind, good natured, annoying neighbor, who sends to rags—black bonnet about a tavern—carry a in washing—take up a country school—sell horse-meal from one village to another—set up a rope-walk—do anything rather than become the Editor of a newspaper. And bear in mind, that this advice is from one who has had ten years' experience in the editorial life.—*Jonesboro Whig.*

FIRST DISTRICT COURT.—Charles Wilson and James Smith were yesterday tried in this Court for larceny, and found guilty.——*Nolle prosequi* were entered in the cases of John Scott and John Burke, accused of assault and battery.—John Smith, arraigned on a charge of larceny, pleaded guilty.

STEALING A GUN.—Pierre Victor was yesterday brought to the Third Municipality guardhouse, by Patrice Abrier, who charges him with stealing his gun.

CORN STEALING.—Dray No. 4155 was seized by the police of the Third Municipality yesterday, the driver being charged by Francois Jury with stealing six bags of corn from the Levee, in the Second Municipality, on the 13th inst. The dray, it is alleged, belongs to Thomas McGuire.

VAGRANTS.—Patrick Manly and Nicholas Griffin, were yesterday sent to the work-house for thirty days, by Recorder Baldwin, for vagrancy.——John Coleman, arrested for robbery, the prosecutor failing to appear, was yesterday sent, by Recorder Genois, before the First District Court, on a charge of vagrancy.

DEATH OF MARIA TURNER.—We announced yesterday that a woman named Maria Turner had died in the Third Municipality, from the effects of a wound in the head, given, it was alleged, by a Mrs. Bridget Welch, who was arrested on the charge. Our information, obtained from the police record of the Third Municipality, was incorrect, as, on a Coroner's inquest being held, it was found that she had died of apoplexy. No notice of this fact appeared on the Coroner's slate, and we were not so fortunate as some of our more favored cotemporaries to obtain the information verbally from the Coroner or his deputy. On the result of the inquest being known, Mrs. Welch was discharged.

THE CIRCUS STREET AFFAIR.—The examination of the charge against James Mulgrove and Harry Brooks, of firing in the Democratic torch light procession, was to have been continued yesterday, before Recorder Baldwin, but on the case coming up, a Deputy Sheriff appeared with a *capias* from the First District Court, and took these prisoners to appear before that tribunal. In consequence of this, Recorder Baldwin postponed the further examination of the case until Tuesday next. We have been unable to obtain an inspection of the affidavit filed in the First District Court, but understand that the charge is the same as that made against them before Recorder Baldwin of shooting at the procession.

CHARGE OF LARCENY EXAMINED.—Elias Tateau and Susana Dauheny, were yesterday arraigned before Recorder Baldwin, charged with stealing a piece of calico from the store of J. P. Palmer, on Gravier street. At the request of the prosecutor, Mrs. Tateau was discharged, she having had no part in, or knowledge of the theft, until she was arrested. Susana Dauheny, after an examination of the charge against her, was sent before the First District Court for trial.

THE BEEF STEALING CASE.—A warrant was issued on Wednesday to search a grocery store at the corner of Barracks and Burgundy streets, for the three tierces of pickled beef stolen from the Levee on Monday night, by Tuesday morning. The tierces were found in the yard of the store, and were identified by Mr. Owings, the Clerk of the steamer Buena Vista, from which they had been landed. John McDonald, Jeremiah McDonald and John McCarthy, said to be proprietors of the store, were all arrested as receivers of stolen goods, and will be examined this morning before Recorder Genois.

MARYLAND.—Nearly complete returns have been received from Maryland. Taylor's majority will reach 3500—a gain of several hundred over the vote of 1844.

NEW JERSEY.—Taylor's majority in this State will exceed 2500. Mr. Clay carried it by only 911. The Legislature is largely Whig in both branches—7 majority in the Senate, and 20 in the House. Four Whigs and one Loco are elected to Congress.

PENNSYLVANIA.—The *Pittsburgh* publishes returns from 45 counties, which exhibit a majority for Taylor of 17,881, and a gain of 31,773 over Johnson. The majorities are mostly reported—the official returns may vary them one or two thousand.

☞ Thirty-three counties in Virginia, show a Whig gain of 1,115 *over* the vote of 1844—his ratio is not sufficient to carry the State for Taylor. Orange county, where Old Zack was born, and which has always been a Locofoco, gave him 30 majority.

☞ Our Taylor friends must not forget that the performances this evening, at the Armory Hall, are for the benefit of POPE OLDHAM. The Fallmore Rangers alone will give him a number, if they turn out with any thing like their wonted strength.

FROM TAMPICO.—The schooner *Oregon*, Capt. Treuin, arrived yesterday morning from Tampico, having sailed on the 8th inst. She has brought no papers. The Government troops, numbering in all 500 men, are still at Pueblo Viejo, the city remaining under the rule of the pronunciados of the 30th of September.

The *Oregon* brought to this city $96,566 in specie.

☞ The London correspondent of the New York *Commercial* says Henry Russell, the vocalist, is accumulating a fortune in the great metropolis. His net gains a week average $500. The writer says he has partially abandoned that simple yet beautiful style of old English melody which rendered him popular in the United States, for a new dramatic one, of which he is the only representative.—His subjects are adapted to the taste of his audience, such as "There's a good time coming boys," in which a portion of them join in chorus. In the concluding part of his entertainment, he relates negro anecdotes, and sings a few Ethiopian melodies.

NEWPORT, Ky., Nov. 7.

Gen. Taylor, of Newport, died to-day, half an hour after voting.

MEMPHIS, Nov. 7.

Levi North, belonging to Stickney's Circus was dangerously wounded by a shot in a rencontre near Hernando, Miss., on Sunday evening last.

Major F. B. Flournoe, of Arkansas, challenged Borland, for a duel. It would not surprise. There is much excitement in Little Rock, in consequence. It is supposed they will have a street fight.

LOUISVILLE, Nov. 7.

This evening a fight took place between the Hope and Washington fire companies, in which a man named Brunsker was killed.

IS NOT SUCH A SON ACCURSED?—In an English paper we find the following:

In the Taunton County Court, Mr. Combe applied for the discharge of an insolvent, named George Day, an old man upwards of 70 years of age, who had been imprisoned eight years at the suit of his son, Frederick Day. The old man stated that some years ago he had signed off the whole of his property, of the value of about £1000, to his children, and having given a note of bond for £250 to Frederick, which he failed to meet at the proper time, he was proceeded against, notwithstanding that he had lent various sums to the son, amounting in the whole to nearly £250, but of which no account had been kept. The result was that the unfortunate old man was thrown into prison, where he remained eight years. The Judge immediately ordered the insolvent's discharge, observing that he ought to have had it eight years ago.

☞ Dr. Dickson, the celebrated and popular author of the Chronothermal system, applies himself principle of time and heat, to the treatment cholera. He gives chloroform in the early stages, as an anaesthetic. He also recommends the cautious use of kreosote, phosphorus, and strychnia; also, hydrocyanic acid. He pronounces calomel, cayenne and ammonia as powerful agents in attacks of the disease.

TREASURE TROVE.—A person in England, lately rummaging among his family documents, found written on the back of an old deed some words indicating that a pot of gold was buried in a certain place in the garden. It was at first regarded as a hoax, but on digging up the spot an iron pot came to light containing 15,000 guineas, and a scrap of parchment, much decayed, on which was written, "The devil shall have it sooner than Cromwell."

AN EDITOR'S LIFE A DOG'S LIFE!—Of all the lives ever lived by mortal man that of an Editor is the most uncomfortable. He is expected to know everything—he is required to tell everything—and the indolent, who will not read, go to him "for the news," as regularly as to their meals. Even in advance of an occurrence, they demand of him in detail what will come to pass. As to subscribers, they praise him to the skies, or promise him money and provisions, at no distant day, and intend him to live on these!

Young man, if this brief, article meets your eye, do not become the Editor of a newspaper. If you have not chosen a profession. Rather than do so, beg—clean out stables—work in gardens—keep ledgers—attend a saw mill—take in washing—take up a country school—sell rags—black boots about a tavern—carry a horse-meal from one village to another—set up a rope-walk—do anything rather than become the Editor of a newspaper. And bear in mind, that this advice is from one who has had ten years' experience in the editorial life!—*Jonesboro Whig.*
