ANTI-GOUTY ELIXIR OF HEPOLYPE BRIEUGNE,

INVENTED OF THE ANTI-RHEUMATISMA

Tropical Balm.

TILL now all medical science has had no power over the gouty, this terrible disease which has ever made so many victims all over the earth, and still leaves daily no choice of remedies from these occupations to give them up to the most painful sufferings. It is useless to repeat here the minute details of this disease too well known to the numerous sufferers. It suffices to name them to appreciate the value of such a remedy against their terrors. Such is the effect of the ANTI-GOUTY ELIXIR, which is result of the laborious searches of Hippolyte Barruous, already known for the discovery of the anti-rheumatismal Tropical Balm, that has had such a long and great success. The Anti-Gouty Elixir, particularly designed for curing the fits of the gout, possesses a power no less great, warranted by a long and precious experience of the inventor, and by repeated essays upon the numerous victims.

The ANTI-GOUTY ELIXIR is easy to take, and its taste is no way disagreeable. It can be taken pure or mixed with wine, or in any other drink, the effects are felt after all in one few hours, whatever may be the intensness of the pains, in a few hours at most the sufferings disappear, and all its symptoms vanish away.
