Per steamer Missouri Mail, Leblanc; Blanchard; Dechen Schlosser; McMinney, England, Burgess.

SANDS' SARSAPARILLA,

For the removal and permanent cure of all Diseases arising from an impure state of the Blood, or Habit of the System.

IF we read the history of Diseases we are astonished at what they, all of Cures, we are still more astonished that they do. All yet on the human system have a common origin, viz: in the organs which prepare and modify the blood, with a remedy, directed to the seat of disease, will remove a host of the phenomena. But the peculiar characteristic of Sands' Sarsaparilla, that its searching operation reaches the cause of disease, and the cures it performs are therefore radical and thorough. The health of the human system depends almost entirely upon the state of the blood. If the vitalizing fluid, which permeates every tissue, every membrane, tube, filament, gland, or other organ, be pure, healthy, or healthy, it will be found to be charged with the elements of disease, sickness must be the result, and mostly the cause of disease existing in the blood, are such, that no power of Medicine can be expected. It is known that the powerful health restoring properties of Sands' Sarsaparilla are universally, but the true reason, in Scrofula, Salt Rheum, all eruptive diseases, as well as in all disorganments of the secreting organs, it is considered infallible.

The following interesting case is presented, and the reader invited to its careful perusal. Comment on such evidence is unnecessary.

Neptune Sands—Sirs: I consider it an act of justice to you to state the following facts in reference to the great good I have received in the cure of an obstinate Cancer, on my nose.

I was attended eighteen months by a regular and skilful physician, assisted by the efforts of a dozen other of the most able and experienced surgeons, without the least benefit whatever. All the various methods of treating cancer were tried for five weeks in succession by Brandreth, was bathed with caustic three times a day, and for six it was dressed with a weak solution of nitric acid, and the cavity or internal ulcer was so large that it held over half an ounce of solution. The Doctor probed the ulcer and found the bone exposed. The disease was advancing rapidly to the lungs, and I did not get speedy relief by means of an operation I should be dead in a week. I was advised to have the breast laid open and the bones examined "Nothing but relief from what had been done, and feeling the rapidly getting worse, I almost despaired of recovery considered my case nearly hopeless

A sign of miscellaneous and certificates of cure by the use of "SANDS SARSAPARILLA," to cases similar to my own, I enclose to you. A few bottles, several of which were taken, but from the long deep rooted character of my disease protracted no very decided change; considering this a fair, probable cure for my case, I persevered, until the disease was entirely cured. It is now over three years since the cure was completed, there is not the slightest appearance of a recurrence. Yours, truly, respectfully, will and the cure entirely affected by "Sands' Sarsaparilla" as I took no other medicine, and my Bodbuting the time I was using it, nor have I taken any since. Please accept my sincere and heartfelt acknowledgment, which I think it my duty to make. Your valuable Sarsaparilla cured me, with the blessing of Divine Providence, when nothing else could. And I feel myself under lasting obligations to you. Yours, as many things I cannot write, and do most respectfully invite inquiry, or reference to me.

NANCY J. MILLER, 215 Bullivan st.

Nantucket, Mass, 8th mo 31, 1846.

A S & D Sands—Respected Friends—Although an obscure stranger to you I do not feel at liberty any longer to delay in the performance of a duty I owe to the cause of your invaluable Sarsaparilla, which has been restored under a kind Providence, of my inexpressible relief. I am sincerely to that effect long and painful, I have had many testimony hundreds of sufferers, miserable as I have been, encouraged to try this remedy, and experience a cure as speedy and happy as mine. For ten years I have been suffering on or a scrofulous affection of the Bones in my head, and during a great part of this time, my pain in suffering, were so severe, that but for a reliance on the Divine Mercy, I should have ended my days, and much preferred death itself. At different periods during my sickness, I have tried almost every medicine in the Materia Medica, but for a release on the proper part, remaining the mutilation of tool quite impossible. After spending about one hundred dollars for medical aid, I had recourse to your justly celebrated Sarsaparilla, and within the last three months, a portion of a twelve bottles has, with the most beneficial operation, completely eradicated the disease, the healing process is going forward, and I am in a fair prospect of a perfect cure. Being extremely anxious that others labouring under similar complaints, may have the advantage of my experience, I shall be most happy at any time to communicate to them or to you such further and more minute particulars as may be desired. Please accept my sincere and obligations and regard.

BENJAMIN M. HUSSEY.

Nantucket, 9th Mo. 3d, 1844.

Respected friends: Benjamin M Hussey is a person of perfect respectability, his statement is relative to the wonderful effects of your Sarsaparilla upon him, may be completely relied upon. His case here is considered very extraordinary, and the cure altogether is such as to entitle the Sarsaparilla to be ranked as a great blessing to the human body. Yours, &c.

WILLIAM MITCHELL,
Cashier of the Pacific Bank, Nantucket.

For further particulars and conclusive evidence of its superior virtues and efficacy, see pamphlets, which may be obtained gratis.

Prepared and sold wholesale and retail,

A S & D SANDS, Druggists, 79 Fulton st, N. Y.
