Leeches—17,000.

THE subscribers have received a considerable but regular supply of Hungarian Leeches, which they offer to the trade at the lowest cash prices.

Having a great deal of experience in the importation, I have no certainty beyond of the utility of these two months, and I do unhesitatingly believe that a supply of uniform spanish Leeches has been still much preferred to Hungarian price.

I will be glad to receive orders, which will be filled at the lowest prices, which I am authorized to offer, and pledge myself to deliver with promptness. J. HURSON, Jun.

N. B—Cash advanced on Western produce.

Up To Lacadie's Landing, on the 15th Municipality, the Bridge across the Bayou Lacadie, near the Hospital and Old Levee.

ARCHITECTURE, CIVIL ENGINEERING AND SURVEYING.

HAVING removed my office to Banks' Arcade, on Magazine street, in New Orleans, I respectfully state that I shall continue to tender my professional service in every branch of Architecture, Civil Engineering and Surveying. Plans for private and public buildings of every kind and description, in Greek, Gothic, and all the varieties of modern style, with the most ample specifications, stability, comfort and beauty, accompanied with specific estimates, based on the local average prices of labor and materials.

To surveys and location of greater internal improvements and public works, as railroads, canals, projective lines, marks on rivers, as levees, jetties, works, &c., corresponding attention will be devoted. Having a sufficient number of show specimens of my design, I am now prepared to extend my business to a distance from New Orleans, if the objects be important enough, and to procure contractors and localities of the materials of construction, and to be the agent for the energetic execution of such. Elevations of maps, drawings of machinery, plans, specifications and estimates for country residences, drawings, warehouses, cottages, etc. will be the only models, which hereafter shall adorn our habitations. Specimens of the several kinds of buildings or other improvements. The great model and curiosities during the last two years, are a spectacle that our country never exceeded.

Letters must be addressed to me either in the English, French, Spanish or German language.

HENRY MINTCHAGNEN,
Architect and Civil Engineer.
