COMMERCIAL.

SALES OF COTTON YESTERDAY.

44 bales Mobile 10

REMARKS.

We discover very little change in business since our last weekly review; every thing remains at a stand, with nothing, on a wholesale scale, that we are aware of, transpiring in any branch.

We learn that the banks, are sufficiently organized to allow the any extension of discounts, consequently very limited. Although business is conducted on so limited a scale holders are firm as to prices we quote, and will confidence is more than at present, the transactions against be large as sales are principally for cash.

We still continue making quotations of each, as there are not sufficient to form any conclusion even as to prices.

The weather during the week has been dry, and extremely warm; and we seem to be regularly on the eve of a visible change, those persons who have their crops out are doing of so fast as their arrangements will permit, and no doubt many who a year back had their hopes, happiness, and pleasure by an excursion to the country, will be disappointed; owing to the peculiar circumstances in which the whole country is placed.

The latest accounts of the Ohio River was that there was plenty of water, that may cause some additional supplies of Western Produce, but not sufficient it is thought to cause any reduction from present going rates.

COTTON—The transactions in this article have been more regular for the last two weeks than for months past, and we again affix what is thought fair quotations the current prices to which we refer, as being to be the actual sales for the week ending, the aggregate of during the week amount to 4072 which were as follows viz: 776 bales Mississippi 11 1/8 41 a 12 1/2 a 10 1/8, 209 a 91 180 a 91, 38 a 8 7/16 a 7 3/4, 1 unknown; 29 a 8, 15 a 7, 126; Miss & La 1 a 2; 27 Louisiana 114 146 a 11, 54 11 3/8; 342 a 101, 101, 21 a 91, 33 Arkansas 8; 129 Tennessee a 8 1/4; Alabama a 9, 147 Mobile a 12, 170 a 11; 45 a 11; 42 a 101, 106 a 10, 109 a 9, 21 a 84, 124 a 91, 316 a 8, 18 a 8, 70 once not known; 78 Florida a 8 1/4. The highest quotations are 14c, at which price some sales were was understand have been sold during the week, but the quantity of the option left on hand is very small, and those sales have not been particularly reported to us there however is no doubt of there having been made.

We understand that some sales have been made at our lowest quotation, but as regards transactions in this article for some time past, they have been so in private a manner, that we have been unable to arrive at them with any degree of accuracy, and report as far as has come to our knowledge.

Owing to the way shipments are made, we are enabled to calculate by far exceed the sales we have to.

The rate of freight for some time past has no doubt caused many shipments to have been made PROVIDENCE—The present low rate of freight has caused a demand for this article, of a common quality, about 600 hhds of good X crossed were sold last week, and a selection of fine at 6 3/8 a 5 1/2 c.

The price continues about the same as at last, and in small demand.

Sugar—Cane is principally of an inferior quality and which there is no demand.

HOGSHEADS—There is no demand for Vessels, some have taken up, at the rates quoted.
