ST. LOUIS INSTITUTION.

Boarding and Day School for Young Ladies,

Establishment Founded by

Madlle Anna, and directed by Madlle Dunas,

No. 143, St. Louis street, between Dauphine and Bienville streets.

MADAME BERTHELON (Sister Mary Hilot) has the honor to inform families that this Institution, directed by her and founded by Madame Anna, is located pleasantly situated in the fore bounds of Bienville street, between Dauphine and Bienville streets. This establishment has been removed to No. 143 St Louis street, between Dauphine and Bienville streets.

The site chosen for the Institution is well known and unexceptable as one of the most beautiful, convenient, spacious and salubrious dwellings in the city of New Orleans. The house covers half a square, in a central and extremely healthy situation, and commands an extensive view of the Mississippi, looking over several gardens, large and superb apartments, lofty and airy rooms, dormitories, nursery, and chambers on opening on an interior balcony, and the extensive premises in the rear, arranged, and a half sheltered from the sun and rain, and a magnificent terrace.

To these material improvements, Madame Berthelon has added several intellectual ameliorations, which place the Institution St Louis on the first class of educational establishments.

The recent collective instruction and moral welfare, so important in an institute of this nature, have received the most ample development in that of Madame Dunas.

The parties thus formed by the Directress and Mlle. Dunas, with Mlle. Dunas, Sous and Mlle. Dunas, both devoted to the career of educating, has elected the Institution on a basis of unquestionable solidity.

Madames and Mlle. Dunas will devote their attention to the French language, to which is given a high or superior attainment and a distinguished Professor, Mr. Ogier, will be entrusted with the various branches of the English language and literature.

The general system of instruction at the Institution, is equally well proportioned, sufficient, complete and progressive that can be applied to young ladies. It comprises four divisions, viz:

1st, Elementary Classes.

2d, Classes of Belles Lettres.

3d, two Preparatory Classes.

4th, two Classes of Superior Studies.

The system embraces all the various branches which constitute a really finished education, viz: Reading, Grammar, Rhetoric, Composition, Reading, Recitation; Ancient, Medieval, Contemporaneous and modern History; Geography and Chronography, Arithmetic, the higher Mathematics, Astronomy, Experimental Philosophy, Zoology, Botany (Phanerogamous), the Elements of Philosophy, the Principles of Logic, and the study of the Etymological relations between the Ancient and Modern Languages.

Lessons in Embroidery, and Lineal Drawing form an essential part of the general system, and are also cultivated as extra charges.

Madame Dunas has added a section superior to the first of seven classes, organized by Madame Anna, and for which she has procured the talents of Class of Perfection, from the Institution of the Legion of Honor, "Rolon St Denis," in which she was herself educated, and where she subsequently became instructress. For the pupils of this class there is held in an apartment specially destined for the purpose, a conference of complementary lessons, proposed of two oral lessons, by M. E. Dunas, and two conferences by the Mesdames Dunas per week. This figure may be attended by persons who are not pupils of the Institute.

A music mistress, possessing an excellent method of teaching and remarkable execution, is specially attached to the Institution for the Piano and Harp.

Mesdames Boyer and Tavill hereafter will continue to give lessons on the Piano and Harp.

LONG experience and constant observation are the only means to ascertain truth. Thus it is that the Syrup of Dauphine is justly recommended as a specific for diarrhoea and dysentery. MISCELLANEOUS.

DR. TOWNSEND'S SARSAPARILLA

THE MOST ... MEDICINE

THIS valuable medicine is now fully established as the most powerful and effectual blood purifier, and consequently the most powerful and effectual purifier, cleansing or purifying the system.

Great Spring and Summer Medicine.

This season will be found invaluable. Dr. Townsend's Sarsaparilla, over all other medicines, is pre-eminently adapted to eradicate disease, it invigorates the body, it is not the very, least, sealing and scurvy, rendering over known, it not only purifies the whole system and strengthens the nervous, but it creates new pure and rich blood, a power possessed by no other medicine. And in the last, the great and secret of its wonderful success. It has been found within the past two years more than 20,000 cures of severe cases of disease, at least 500 of these were considered incurable.—More than

3,000 cases of Chronic Rheumatism;

2,000 cases of Dyspepsia;

400 cases of General Debility and want of Energy;

7,000 cases of the different Female Complaints;

2,000 cases of Scrofula;

2,500 cases of the Liver Complaint;

2,500 cases of disease of the Kidneys and Dropsy;

3,000 cases of Consumption;

And thousands of cases of diseases of the blood, Ulcers, Erysipelas, Skin Rheum, Pimples on the face &c. &c. &c. Also, with numerous cases of Sick Headache, Pain in the Side and Chest, Spinal Affections, &c. &c.

Now, in the street, what superior incredible, but true have been the Dr. Townsend and our agents from all parts of the United States, informing us of astonishing cures. R. Van Buskirk, Esq., one of the most respectable druggists in New York, N. Y., informs us that he has sold more than 1000 bottles in one year, and that the cures are thousands and thousands. There are thousands of cases in the city of New York, which we will refer to with pleasure, and to men of character. It has been the means of the prevention of thousands of deaths, it undoubtedly saved the lives of more than 3,000 children the past season, as it removed the cause of disease, and prepared them for the summer season. Dr. Townsend informs Capt. H. W. McLean, of the U. S. Navy, late Member of the New Jersey Legislature, has kindly sent us the following certificate. It tells the story.

RAHWAY, Jan. 24, 1847.

A year since I was taken with the influenza, and my whole system left in a debilitated state. I was induced to try Dr. Townsend's Sarsaparilla, and after taking one bottle I was very much relieved, and with the use of three bottles I felt well. I have continued taking it, and find that I improve every day. I believe it saved my life, and would not be without it under any consideration.

G. W. McLEAN, late U. S. N.

Dr. Townsend.—My wife being greatly distressed, by weakness and nervous affection, I was induced to try your Sarsaparilla and a secretion of leucorrhoea ceasing, and strength returning, the use of the medicine, and weak nervous affections, and I have decided, I have discarded, I obtained a bottle of your Elixir of Sarsaparilla, and follow the directions you gave me.
