PRESIDENTIAL ELECTION.
PENNSYLVANIA.

THIS State has gone for the locofocos by about the same majority which SHUNK received in October. We subjoin the return promising that they vary in almost every paper. We select those which appear to us most authentic.

Polk's majority in these counties is 1,984. The New York *Tribune* furnishes a few more returns which we append.

Bradford,	599	—
Susquehanna,	250	—

This would give Polk 2557 majority.

VIRGINIA.

What we have from Virginia don't amount to much, but looks well for the Whigs. In Richmond city and the adjacent counties, it has gained heavily, so that the polls were kept open three days. The following is the result so far as heard from:

HANOVER.

At the Court House at Hanover, Clay was 19 ahead and a probability of its being increased to 30. A whig gain.

Cool Harbor, where 13 majority at 1 o'clock.

TALLOHOMEY, 1 o'clock, P. M.
Whig 75. Locos 23

HENRICO COURT HOUSE.

Whigs 200 majority at the close of the polls.

NEW MARKET.

Clay 24. Polk 62.

Short Pump to hear from.

CITY OF RICHMOND.

Whigs 418 ahead at the close of the Polls for the day.

CHESTERFIELD—Polls closed.

Polk 597. Clay 336.

Charles city, 12 o'clock, we understand the whigs are about 140 ahead.

PETERSBURG.

Clay's majority 10.

In Lee Hunter gains 1 Congressman to Van Buren. Hunter is to Harrison, Richmond city 404 for Harrison, Chesterfield 90 for Van Buren, and Petersburg 17 for Van Buren. What positive, therefore, is that the whigs have gained over 100 in Hanover, 140 in Richmond, 90 in Chesterfield and 55 in Petersburg.

We learn from the Norfolk papers have the result in that county. Clay's majority is 253. A loss in our estimate. In Elizabeth city and county (Wise's District) gives Clay 53 majority—loss 15 votes.

NORTH CAROLINA.

We have nothing from the Old North State save the vote of Wilmington in the county of Hanover:

	CLAY.	POLK.
Wilmington,	354	—

The Charleston *Courier* says this vote shows a whig gain.

GEORGIA.

The Savannah *Georgian* (L. L.) contains additional returns from some 14 counties, which, according to that paper, show a whig gain of only 10 votes. If these returns prove correct, we apprehend the state has gone for the locofocos by a small majority. We shall give the details as soon as the returns arrive in an authentic shape. The Savannah *Republican* (w) did not come by yesterday's mail.

MARYLAND SAFE FOR CLAY.

The Baltimore papers received yesterday render it certain that the Whigs have carried Maryland by a greatly increased majority—probably THREE THOUSAND. In the City of Baltimore there were 17,969 votes cast, being 141 more than were polled at the Governor's election. The Locofoco majority is only 175, and the net whig gain since October is 746. The vote stood in Baltimore.

POLK,		8957
CLAY,		8482
		475

Five districts have been heard from in Baltimore county, viz: the 1st, 3d, 9th, 11th and 12th. They exhibit 141 locofoco majority. In October the majority for Carroll was 460—next Whig 361. One precinct in Prince George shows a whig gain of 30, and a precinct in Montgomery a Whig gain of 77. The State Central Committee have issued a circular in which they say: "These results authorize us to assure our friends that Maryland has given a majority for CLAY and FRELINGHUYSEN of near THREE THOUSAND VOTES, and perhaps even more.

OHIO ERECT.

The returns from Ohio are of the most auspicious character. Nearly every county shows a heavy whig gain. The indications are that the whigs have carried the State by not less than 5300, and probably 7000.—We append the returns as far as received.

In addition to these returns, we learn that Coshocton gives Polk 337—Whig gain 56; Morgan gives 44—Whig loss 16; Delaware 564 for Clay—gain 120; Gallia 673—150; Union 393—gain 51. Partial returns from other counties prove that the Whigs gain nearly everywhere.

LOUISIANA.

We have received nothing more from the interior.—The majority in St. John is still uncertain. In Tensas the official majority for Clay is 50. If any returns come in before we go to press, we will give them.

FROM HAVANA.

By the arrival of the brig *Ocean*, we have received our files of Havana papers to the 5th inst, inclusive.—We can scarcely find in the papers a single any paragraph worth translating.

The *Diario de la Havana* furnishes a list of the exports for the year 1843. The total amount of the exports is $23,472,096 3½, against $24,537,527 2 in 1842. Deduct $1,215,620 6½. The exports for 1843, were $22,256,475 7—against $23,054,701 7—difference $1,054,226 2½.

It is ascertained that the recent Mormon war, will cost the State of Illinois $20,000. The aggregate expense incurred during the year on account of the Mormons, will not fall short of $50,000.

ARRIVAL OF THE HIBERNIA.

ONE WEEK LATER FROM EUROPE!

The steamship *Hibernia*, Capt. RYNE, arrived at Boston at 12 o'clock on Saturday night, 2d inst. Among the passengers is Mr Charles K. Wilmer, son of the enterprising proprietor of the European *Times*.

The news by this arrival is not of much importance; The demand for cotton throughout the week had been considerable, and the quantity offering was larger. Prices, however, had been reduced to within ¼d of the lowest price of last year.

The Money Market continued buoyant, and the rage for railway investments as great as ever.

There had been more incendiarism in the agricultural districts in the vicinity of London.

Mr O'Connell seems to be making progress with his scheme of federal association. It meets with hearty opposition from the *Standard* and its party.

Among the recent deaths in Europe, we notice that of the Duchess of Marlborough, at Blenheim Palace; Mr Gordon, English Consul at Paris; and Admiral J. P. Beresford.

Louis Philippe terminated his visit on the 14th, and the next day reached Calais, by way of Dover, where he was enthusiastically received by the people. The Queen, who had been anxiously awaiting the arrival at Treport, learning his destination, met him at Calais.

Mr Everett, the American Minister, who had been absent for some time on the Continent, had returned in England.

Mr Clemson, the newly appointed American charge d'affaires in Belgium, has arrived in Brussels.

IRELAND.

Mr O'Connell's letter, read at the Repeal Meeting in Dublin, 14th Oct., concludes—"Let us be active, energetic, conciliatory. Let us, if possible, combine all classes, but let us not forget that we have already more than moral force enough to render a long resistance to a peaceable and legal repeal of the Union impossible.—It is a mere question of time. The repeal itself is certain. Hurrah then for repeal." Rent for the week £106 17s. 4d.

Rumors are afloat that Mr Sharman Crawford, Lord Charlemont, and others of the Irish Liberals, who would not connect themselves with repeal, are about to declare their adhesion to federalism.

Some unknown persons at Limerick have bored holes in the bottoms of ships about to put to sea from Welsh vessels were thus scuttled.

FRANCE.

The Moniteur announces that despatches were received by the Minister of Marine and Colonies from the governor of the French establishments in the Pacific Ocean. These despatches are dated the 11th of May, but they do not mention the incident relative to a British naval officer which several Paris journals of the 9th copied from the London papers.

The Univers states, that a plan for fortifying the city of Rouen is being at present prepared at the War office. The Government have determined that Rouen and Havre (those two gates of Paris) shall be fortified. A bill for that purpose is to be presented to the Chamber of Deputies in the ensuing session. Treport has been rendered exceedingly strong, and a similar precautionary defensive system is in contemplation in respect of all the seaports of France.

From an article in the Journal des Debats, referring to the speech of Captain Brunt from Tahiti, it seems clear that the French Government are determined to remove him from command.

SPAIN.

Public tranquillity has not been disturbed since last advices. The semi-official papers will propose some important constitutional improvements, namely, suppression of that part of the constitution which treats of the prerogatives of the people. Members of the Chamber of Peers to be appointed for life. The trial by jury to be suppressed. The article of the constitution relative to the National Guards to be expunged, and an organic law on the subject to be submitted to the Congress.—Should the ministers succeed in obtaining the assent of the Congress to this abolication of the constitution, they will ask leave to introduce bills to regulate the municipal corporations, the provincial deputations, the election of deputies, the National Guard, the liberty of the press and public instruction.

BELGIUM.

A provincial committee has just been formed in Antwerp, with a view to co-operate by subscriptions on the completion of the Cathedral of Cologne. A brilliant fête is preparing at Antwerp, to celebrate the first anniversary of the opening of the railway by which the Scheldt is connected with the Rhine.

RUSSIA.

Letters of 27th ult., announce the death of Count Alexander de Benkendorff, first aide de-camp of the Emperor of Russia. On the 7th June, in the district of Ekaterinoslaw, Government of Taurida, a tract of land, equal to the entire surface of Belgium, covering a space of 21 acres of cultivated land, the hamlet composed of two houses and three mills, was driven, together with its inhabitants, half a werst further. Fortunately no lives were lost.

PRUSSIA

The accounts from the country state that the King and his Ministers are sorely puzzled what to do with Teichmann, who attempted to assassinate the King. He has been ordered for execution. Application have been made to him to apply for a commutation of his sentence. Teichmann, however, obstinately refuses.

AUGIERS.

Letters received by the Valour, from the East, give certain news that the Duke d'Aumale was on route for Algiers, and that in all probability we would reach that city on the 5th, or the morning of the 9th. The affairs in the East continue unsatisfactory.

GREECE.

The elections terminated on the 15th September, Colettis has been returned by 6,412 votes, Mavrocordatos by 2,934, Delyannis by 1,646 and Blanchos by 1,500. Maurocordatos obtained 1,196, Kalergis 792 and Marinos 748 only three votes.

Dr. Wolf—Rev. Levi Hutchinson, who left Lagos, for Tripoli, in company with the late of Colonel Nedlart and Captain Cornelly, is himself in custody, and his life in imminent danger. One of his letters gives the reason as a result of his persuasion—"I am in the greatest danger. I cannot stir out of the house without a guard of three men. If I knew, the fellow sent with me to be the Assad Aghada, has shamefully robbed, deserted, and entrapped me. The Answer now at Sandy-land, and I do have awaiting for most fatal orders from the Kong daily expected, etc. It is true that poor Stoddart professed openly Christianity, after he had made a forced profession of Mahomedanism. Do for me what you can, as far as the honor of England is not compromised. All the inhabitants with that author Russia or England would take the country. Do not believe any former reports of my speedy departure, for I am in great danger." Another account, which states that the Answer had furnished him with money and a horse, is deemed unworthy of credit.

Mr Salomons, a member of the Jewish persuasion, and a partner in an extensive commercial house in the city, who was recently elected for the office of Alderman for the Ward of Portsokon, has been rejected by the Court of Aldermen of London. The rejection has given rise to a good deal of surprise and to some controversy.

THE STEAM SHIP GREAT BRITAIN.—A report is now current in England that this magnificent vessel is just now about to be released from her confinement. Our private accounts from Bristol this morning state, that an amicable arrangement had been made with the Bristol Dock Company for taking down the walls, to enable her to pass through the locks; and it is expected that she will float into the basin about the 20th inst., and into the river sometime in November. Her dates of sailing, when they are fixed, will be given in the columns of this paper. It is not more improbable, however, that during the winter months she may remain in a state of inactivity—either at London or Liverpool—ready to start on her Atlantic career with the early dawnings of Spring.

CITY INTELLIGENCE.

AMERICAN THEATER.—The thrilling drama of the *Carpenter of Rouen*, is announced for this evening, for the second and last time this season. The beautiful drama from the French of the *Maid of Malines*, will also be presented, in both of which, Mrs Kent and Mr N. B. Clarke, will appear.

UNITED STATES CIRCUIT COURT. The Grand Jury, yesterday, found a true bill for murder, against John Smith, charged with inflicting a wound with a knife which resulted in death, upon the person of Henry Bastelin, a steerage passenger upon the brig *Carlton* during the passage of that vessel from Bremen to this port.

☞ The notorious Ben. Rose, was yesterday, by order of Recorder Baldwin, provided for, with board and lodging for the ensuing six months, at Capt. Eldridge's well regulated establishment, at the foot of Hevia street.

THE COUNCIL OF THE SECOND MUNICIPALITY, last evening, passed a resolution appropriating the sum of $250, for the relief of the Catholic Boys' Orphan Asylum.

A resolution was adopted authorizing the Surveyor to close the contract with S. L. Forgey, for the repairing of the streets of the municipality, at the rate of $0,000 per annum, for three years.

A memorial was read praying for the doing away with all of the awnings and sheds in front of the buildings in the municipality—referred to the committee on streets and landings.

DISCHARGED.—William Hill, arrested upon a charge of being implicated in an attempt to rob Mary Ann Wilcox, on the evening of the 8th inst, was examined before Recorder Genois, on Monday last, and honorably acquitted.

☞ Pepete Perez, Sr., and Pepete Perez, Jr., arrested for assaulting and beating Mr. Juan Vidal, on Sunday evening, in St. Phillip street, were arraigned before Recorder Genois, and required to furnish bail in the sum of $1,000, for their appearance for further examination.

☞ An old offender, known by the cognomen of "French Jack," was arrested yesterday by the police of the second municipality, charged with stealing a ships compass from on board the sloop *Jane and Jesse*. He will be examined this morning before Recorder Baldwin.

☞ Charles McDaniel, was examined yesterday, before Recorder Baldwin, on a charge of passing a counterfeit silver dollar at an oyster stand on the Levee, and in default of bail, was committed to the Parish Prison to await his trial before the Criminal Court. This is the third time that McDaniel, has been committed for similar offences.

CRIMINAL COURT.—Hanna Lockhart, charged with stealing eleven sovereigns and three dollars in silver, from the house of James Keenan, in Common street, on the 27th October, was yesterday put upon trial and found guilty.

William Bateman, charged with assault and battery, was tried and acquitted.

The following persons were arraigned and severally pleaded not guilty.

Patrick C. Daily and Ebenezer Hix, charged with assault and battery.

Patrick Dunn, Jean Henry Judler, Andrew Vaughan, James Smith, Jane Hamilton, alias Jane Scott and John Francis, f. m. c., charged with larceny.

Philip Tardif and William Amorosso, charged with larceny, were also arraigned and pleaded not guilty.

Bills of information were filed by the District Attorney against Patrick Martin, for attempting to rob; Jack Roberts, Barth Donovan and John Hughes, for larceny.

The trial of Robert Sanders, charged with larceny, is fixed for this morning.

FATHER RITCHIE of the Richmond *Enquirer*, put forth an estimate of the Presidential election in Virginia on the morning of the 5th inst., which even if compared with the few actual returns received, shames the sagacity of the senior of politics. Thus for example, he puts down Norfolk Borough at 150 whig majority—the majority is 230. Fairfax is considered a tie, while the partial returns from the county indicate a whig majority of 50. Chesterfield is cyphered out at 300 for Polk—it gives 283; Henrico at 100 for Clay—it gives 150—Petersburg at 20 for Clay, it gives 40, Elizabeth City at 10 for Polk; it gives 9 for Clay. Mr. RITCHIE is 276 votes behind his reckoning in 6 counties. Now, there are 130 counties in Virginia, and if his predictions fall as wide of the mark in all the counties as in the above mentioned, the whigs will run ahead of his calculation 5980 votes. The wisdom of being neither over sanguine, nor too easily depressed before the election, is abundantly exemplified in the illustration before us.

☞ A schooner called the *Rider*, to be fitted with Ericsson's propellers, was recently built at New York, and is intended for the Chinese trade—being the first vessel of the kind built in the United States, intended for trade beyond the Cape of Good Hope. She is spoken of as a well built craft.

DIED—Last evening at half past 8 o'clock, P. M. Mr Amedee Vincent. The friends and acquaintances are invited to attend the funeral which will take place this day at 4 o'clock, P. M. from the residence of Mr Lavergne, Royal street, between St Peter and Toulouse.

COMMERCIAL.

NEW-ORLEANS, TUESDAY NIGHT.

NOVEMBER 12, 1844.

The market has not displayed any novel features since our last and business has progressed rather slowly. We now look for a speedy improvement, as advices from abroad led us to expect that the Cotton river will be soon navigable on the largest scale. This will give a great impetus to business in Western Cotton, which for some time past has languished for want of such communication. We have now received this morning, a gain to favorable for Cotton.

The weather since our last has been rainy and has somewhat interfered with our dull transactions.

ARRIVAL—Arrived since the rise of Louisiana and Mississippi 11,870 bales, Tennessee 1,611, Arkansas 1,364, Lake 1,0, Texas 12—together 20,826 bales. Cleared in the same time for Liverpool 1,647 bales, Vera Cruz 1,842, Boston 370, Baltimore 200—together 4,700 bales—making an addition to stock of 15,961 bales, and leaving on hand inclusive of all the shipboard not cleared this day a stock of 105,170 bales.

We reported the Cotton market as having closed firmly in our review of Friday night last. There was a good demand on Saturday, and yesterday, which resulted in sales to the extent of 9,000 bales, the greater portion of which was taken by one buyer, and placed in some instances were a shade dearer. To day the market was extremely flat, in addition to the discouraging issue of the Hibernia's accounts, the major part of the previous day's purchases were cancelled amounting to nigh upon 3,000 bales, which could not fail to have some effect. The business at the close reduced to 4,000 bales, and that at the top dollar excepting and we left the market with a decided drooping tendency. The foreign advices, to which we have this briefly alluded will be found in another column.

SUGAR—The weather during the greater part of the last three days has been very unfavorable for out door business, and has consequently interfered with business in the sugar market. The demand continues tolerably good, and some further parcels have been taken for shipment to the North and West, principally in the qualities ranging from 6@6½c. Prices have not varied, and we quote Interior at 5@5½c. Ordinary 5½@6½c. Common 6@6½c. Fair 6½@7½c. Prime 8@9½c. Strictly prime and choice lots 9½@10 ⅌ lb. Some lots of Attakapas Sugar have been sold since our last at 2½@4½ ⅌ lb. but the quality was somewhat inferior. We have not learned as yet of any sales on Plantation.

HAVANA SUGARS—The enquiry for box Sugars continues very limited, we quote Brown 6@6½c. Yellow 7@7½. White 8@10½ cents ⅌ lb.

MOLASSES—The market continues to experience a fair demand for molasses, and prices remain steady at 12@12½c per gallon—the latter figure for small parcels. The sales have been chiefly for the North. We are not informed of any transactions in Plantation.

FLOUR—The Four market has exhibited a firm appearance since our last, the sales having been chiefly confined to the wants of consumption. We quote Ohio $4 50@4 75. Genesee $4 18@4 38 for favorite brands.

WESTERN PRODUCE—No change of any note has taken place in the Provision market since our review of Tuesday last, and as then noticed, the stocks continue too light for any extensive transaction of any importance. Pork remains very steady and a shade dearer. We quote M—$10 00; M Prime $8 75@9 00 ⅌ barrel. A small parcel of Bone Pork freshly packed, has arrived and is held at $7 50 ⅌ bbl. In Bacon, the transactions are limited to small lots. Hams in barrels have been sold since our last at $11 cents to ⅌ lb. and a few half barrels at 8c (ex ship). Prime Beef is dull at $4 50 per bbl. The transactions in Lard have been limited, a lot of 500 kegs new Lard has been received since our last, out of which small sales were made at 7c ⅌ lb. The range of prices are from 6½@6½c, according to quality. Bacon is quiet and prices remain unaltered, we quote Hams 6@6½c, Sides and Shoulders at 4½@5c ⅌ lb.

WHISKEY—The demand since our last has been confined to small parcels, which are selling at 23 cents per gallon for Rectified. There is no Common in market.

BAGGING AND BALE ROPE—The market for these articles continues in a state of great confusion, and in the face of an accumulating stock holders hold firm, utterly refusing sales without submitting to a decline. We quote Kentucky Bagging 11½@12½ cents, and 13½@13½c. for Kentucky Bale Rope, according to terms, quality, &c.

COFFEE—The demand is confined entirely to small lots, and not yet assumed a general character. Prices remain unchanged, and we quote Havana middling to prime 7½@7½c; Rio 6½@6½c; Laguayra 7½; Java 10@11c ⅌ lb.

GROCERIES—A very active demand has existed for Liverpool Salt since our last, and such arrival has been bought up quickly at advanced rates. Two large sales have been made during the past few days—one at $1 06 and $1 09, and the other at $1 10 and $1 25 for coarse and fine, leaving one cargo unsold, which is held at a higher advance. Havana Sugars are obtaining for small lots from the Levee $1 15 to $1 25 for coarse, and $1 40@1 50 per sack for fine. Two cargoes of Turks Island salt have arrived since our last, but there is no demand for this description at present. We quote from 70 to 80c per sack, or two bushels for small lots.

RICE—Small lots are selling slowly at $3 75@3 00 per 100 lbs. according to quality.

FOREIGN MARKETS.

[CORRESPONDENCE OF THE BEE.]

Per steamship Hibernia.

LIVERPOOL, October 19, 1844.

Since our respects of the 3d inst, there has been little or no change in our Cotton Market. The sales for the week ending the 11th were 32,640 bales, of which upwards of 5,000 were taken by speculators and for export, leaving 27,640 bales, and the arrival of the Britannia, with 2,200 bales, which makes the total supply of Cotton offering, the sales for the week ending this day sum up 34,840 bales, and we consequently have a very quotable reduction in prices.

The state of Trade continues most excellent. In Manchester on Tuesday, a very
