

**CATALOG FOR**

INTERNAL CATALOG GUIDELINES

JANUARY 3, 1983

Customer ordering instructions will be found on the first few pages of this catalog. Internal ordering instructions are listed below. See the reverse side for a sample order.

EMERGENCY ORDER PROCEDURES: All orders of an emergency nature will be charged an additional \$25.00 as an expedite fee. All orders sent by TWX or marked RUSH or ASAP will be charged this amount in addition to freight costs. Only emergency TWX orders will be accepted by LDS. All TWX orders must state the reason the TWX is necessary as well as the complete "Ship To" address and department number to be charged. A maximum of 5 line items per TWX per day.

Phone orders are discouraged unless next day delivery is required and approved by LDS Management.

No phone or TWX orders will be accepted from the Minneapolis/St. Paul area.

BACKORDER PROCEDURE: If a requisitioner requires an item to be back-ordered, they must so indicate on the Literature and Stocked Forms Request (AA1538-2). Place a "B" in the column marked "B" if you wish manuals or binders to be backordered. Brochures and Data Sheets are not backordered due to ever changing marketing emphasis which delays reprint cycles.

RETURN TO STOCK: Only books that are unused and at the current level stocked by LDS may be returned for credit. Please obtain proper approval and return procedures for LDS before returning any books. No returns accepted for material 90 days after original purchase.

AUTOMATIC DISTRIBUTION PROCEDURE FOR INTERNATIONAL SUBSIDIARIES: If, as an International Subsidiary, you are not familiar with the Automatic Distribution Service (A/D), please contact LDS and we will send you a copy of the guidelines. Domestic Customer A/D procedures are found in this catalog.

MANUALS ON MICROFICHE: Publication numbers prefixed by a GF indicates the manual is available in microfiche form.

LITERATURE ORDERING PROCEDURE: See example on reverse side of this page.  
PLACE ALL ITEMS IN NUMERICAL SEQUENCE.

Product Data Sheets (INTERNAL USERS ONLY)	271 - 286
Section V - Other Sources of Literature (INTERNAL USERS ONLY)	287
MPI/Oklahoma City Publications	288 - 300

## MANUAL DEFINITION

The following general description of manuals, operator guides and handbooks is provided to allow the catalog user to more quickly identify categorically, the type of book he requires. With this information the user can then relate more easily to the section of this catalog which contains the required manual.

Hardware Reference Manual - This manual provides functional and operational descriptions and general programming capability information on Control Data hardware products and systems. This manual is written to the level of a knowledgeable prospective customer, professional programmer, and equipment operator.

Customer Engineering Manual Or Hardware Maintenance Manual - This manual provides the technical information necessary to maintain Control Data hardware products. Categories of information presented, in one or more volumes, are: General Description, Operation and Programming, Installation and Checkout, Theory of Operation, Diagrams, Maintenance, Maintenance Aids, Parts Data, Wire Lists, and Equation Summary {or equivalent}.

Hardware Reference/Customer Engineering Manual Or Hardware Reference/Maintenance Manual - This combined manual, usually for less complex devices that require minimal programming information, contains the same information as that in separate Reference and Customer Engineering manuals.

Site Preparation Manual - This manual presents technical information with which to plan and prepare sites for computer installation. Three sections make up this manual:

Section I: General Information - Two Section I manuals are available: One for small systems; the other covers large and medium-scale systems.

Section II: System Information - Section II manuals cover site planning information for specific systems; e.g., 3300, 6400, etc.

Section III: Peripheral Equipment - Section III provides site planning data on all Control Data peripheral equipment.

Hardware Diagnostic Reference Manual - This manual provides a functional description and detailed operating instructions for diagnostic programs.

System Operator's Manual - This manual provides operating instructions to the system operator. Instructions in this manual normally include system start-up, message formats, error recovery procedures, and general system information. This manual is written to the level of computer operators who do not have a detailed knowledge of programming.

System Reference Manual - This manual describes the system in terms of function, applications, and capabilities. Provides a configuration of the hardware that makes up the system with a brief description of the system function of each product. May also include a description of the software available with the system. Written to the level of the prospective customer who does not have a detailed knowledge of either the hardware or software.

Software General Information Manual - This manual provides introductory descriptions of functional and operational characteristics of Control Data software products.

Software Reference Manual - This manual provides complete descriptions of external functional and operational characteristics of Control Data software products.

Software Operator's Guide - This manual provides detailed instructions for operating Control Data software systems.

Software Diagnostic Handbook - This manual provides the messages issued by all programs in a software product set, together with the recommended action.

Software Installation Handbook - This manual provides installation and modification instructions for Control Data software products.

Software User's Guide - This manual provides the layman with the instructions on how to use a software product.

Software Instant Manual - This pocket-size manual provides summary information {deck structures, etc.} for system programmers and operators of software systems.

## CUSTOMER ORDERING POLICY AND PROCEDURES

Please read these policies and procedures prior to ordering to avoid confusion and mistakes and also to expedite the handling of orders.

PURCHASE ORDERS - Orders directed to LDS should include, a numbered purchase order, a money order or personal check, or a Cybernet charge number. All orders less than \$25.00 must be cash in advance.

DOMESTIC ORDERS - All purchase orders from domestic customers should be forwarded directly to:

LITERATURE AND DISTRIBUTION  
CONTROL DATA CORPORATION  
308 NORTH DALE STREET  
ST. PAUL, MINNESOTA 55103

INTERNATIONAL ORDERS - International customer orders should be directed to the nearest Control Data Sales Office. The Control Data Sales Office will then process your order through LDS.

PRICING - The prices contained in this catalog for domestic customers only and are subject to change without notice.

FOB - All prices are F.O.B. Destination. Premium freight such as air freight will be invoiced as a separate item.

TERMS: NET 30 DAYS

SHIPPING REQUIREMENTS - Shipping instructions as given by the customer will be followed whenever possible. However, when the instructions cannot be adhered to, LDS reserves the right to determine the mode of transportation.

PRICE QUOTES - Price quotes are available upon request and are valid for 30 days only.

TELEPHONE ORDERS - Orders accepted for emergency requirements only. LDS will accept telephone orders, but each order must reference a purchase order number. All telephone orders must be of a critical nature as to warrant the use of premium freight. (See FOB above) A purchase order must follow confirming the phone order, and should be marked "confirmation, do not duplicate".

IDENTIFICATION OF MANUALS NEEDED - When ordering, you must specify whether you require a specific revision packet to a manual or if you desire the complete manual with all applicable revision packets updating the publication to its current revision level.

NOTE: In some cases, the revision packet required is not available. However, the manual itself may have been reprinted through the revision which you require. If the packet is not available and you wish LDS to send you the updated manual, please specify same on your order.

LITERATURE ORDERING POLICY AND PROCEDURES (CONT.)

BACK ORDERS - All out of stock items will be automatically backordered and routed to you upon resupply of the item to stock.

DISCOUNTS - A 10% discount is given when ordering 25 or more copies of a single document.

RETURNS FOR CREDIT - Manuals which customers have ordered in excess of their needs may be returned within 120 days of purchase, if the publications are still current and in an unused condition. IT IS IMPORTANT THAT YOU CONTACT AND RECEIVE FROM LDS WRITTEN APPROVAL BEFORE ANY MANUALS ARE RETURNED TO LDS. All return to stock items will be discounted by Control Data Corporation by 10% as a restocking charge.

AUTOMATIC SOFTWARE REVISION PACKET DISTRIBUTION SERVICE - The customer is requested to return a copy of the shipping document which will be provided by Literature and Distribution and indicate on the document which Software publications they wish to have placed on the A/D Service. A cover memo will be sent with each shipment indicating the guidelines you must follow. The packets will then be supplied to the customer in the same quantity as the manuals purchased under the original manual purchase order. The packets will continue to be distributed as long as packets are published or until the customer notifies LDS that the distribution should stop. You must establish eligibility by the purchase of a manual; as a customer will not be placed on the listing if he purchases only a revision packet. Not all customers will want this service as some manuals are purchased for a short duration use, such as orders by educational institutions for class use. International customers should contact their area Sales Office for this service.

# **SECTION 2**

The manuals in this section are listed by Product or System Number. Many entries include a product to equipment cross reference; e.g. 1742 {CL309-A/B, FF511-A/B}. Since Hardware Manuals for equipment developed after November, 1967 are categorized by equipment designator, always look up the equipment designator in Section 1 as well as the Product Number.

# **SECTION 3**

## PLEASE NOTE:

A number of Software Manuals are listed in more than one location because of the fact that specific software products will run on various operating systems.

### Manuals in this section

The format in this section uses a machine line heading with a listing of manuals for each operating system version and the appropriate product set members printed beneath the heading.

If unable to locate required manuals in this section of the catalog, please refer to the Other Sources of Literature in Section 5.

## TABLE OF ABBREVIATIONS

All Titles for software manuals have been reviewed and standardized. The following table lists all abbreviations and their full wording.

ADB	Applications Development Bulletin
BIN	Binary
BSIPP	Simultaneous Peripheral Processor
COMPAT	Compatible
COMPARATIVE	Used with FORTRAN, notes the similarities and differences among the FORTRAN for 3000 and 6000 machine lines and USASI
EXT	Extended
FTN	FORTRAN
FUNCT	Functions
GENERIC	Algol, applicable to all 3/b machine line
HS	High Speed
IHB	Installation Handbook
LIB	Library
META	Procedure Oriented Source Language Assembler
MP	Memory Protect
MS	Mass Storage
MSIO	Logical Input/Output On Mass Storage
REF	Reference
OP	Operating System
REGINA 1	Linear Programming Package
RESPOND	Multiaccess Subsystem for Remote and/or Local Ter
SAINT	1401 Simulator and Interpreter
SASY	31/32 Satellite for Standard File Processing-3600
SDPS	Seismic Data Processing System
SFP	Standard Processor
SIPP	Simultaneous Peripheral Processor, Batch Execution
SMT	Summit
TSORT	Tape Sort
XLAT	Translator

\* CYBERNET PUBLICATIONS \*  
\*\*\*\*\*

CYBERNET MANUALS ARE LISTED UNDER TWO MAJOR HEADINGS - SYSTEM MANUALS AND APPLICATIONS MANUALS.

THE SYSTEM MANUALS ARE ARRANGED ACCORDING TO THE TYPE OF SERVICE - CYBERNET NOS COMPUTING SERVICE, CYBERNET REMOTE BATCH SERVICE, OR CYBERNET CYBER 76 SERVICE.

APPLICATION MANUALS ARE LISTED ALPHABETICALLY BY SPECIFIC APPLICATION NAME OR BY APPLICATION PRODUCT CATEGORY.

# SECTION 5

## OTHER SOURCES OF CONTROL DATA LITERATURE

This section was established to list literature of all types which are generated by individuals and departments within Control Data but which are referenced in any specific catalog. LDS wishes to make clear that the items contained in this section ARE NOT AVAILABLE THROUGH LDS but that they can be obtained by contacting those responsible individuals as shown in this section. LDS expects to enlarge this miscellaneous category as more people become aware of its existence and add to it. We are primarily looking to include that literature which may have meaning and value to other people within the Corporation regardless of subject matter. Because of the wide content span of this literature, most of the items have been listed alphabetically by their generating department or division.

FOR INTERNAL USERS ONLY

MAGNETIC PERIPHERALS INC.  
{OKLAHOMA CITY}

This document provides a catalog of all publications available from MPI-OKC Publications as of the catalog issue date.

Two listings are provided. The first is sorted by publication identity number (PUB ID SORT); the second by marketing identifier (MKT ID SORT). The information in each listing is identical, as described below.

LEGEND

- PUB ID - This column indicates publication identity. The number specified uniquely identifies the associated publication, and should be used in all reference to the document.
- REV - This column indicates current revision level of the document. An asterisk in this column indicates that the document is provided by a vendor, and current revision level is not tracked by MPI Publications.
- C - This column contains an asterisk if the publication applies to an OKC product in current production, and is blank otherwise. If the product is current, but the publication has been superseded by another, the column is blank.
- MKT ID - This column indicates the Marketing Identifier of the product or products to which the publication applies.
- PUB TYPE - This column indicates whether the publication is a Field Service Manual (FSM), Product Specification (Prod Spec), Application Note (Appl Note), Operator's Manual (Oper Man), Reference Manual (Ref Man), System Manual (Sys Man), Test and Diagnostic Manual (T&Ds), or Media Manual (Med Man).
- REMARKS - This column contains additional information concerning the publication and ordering requirements. In this column, note that certain publications require additional information when placing an order. For instance, references to TLA, TMA, and HPC No's (Top Level Assembly, Top Mechanical Assembly and Hardware Product Configurator respectively) indicate that, in addition to the PUB ID number, the TLA or TMA or HPC number is also required. These numbers can be found on the product ID plate.

Literature and Distribution Services  
308 North Dale Street  
St. Paul, Minnesota 55103

February 1, 1983

Dear Customer:

Attached is the first (1) catalog supplement since the January 1983 catalog was published.

G. F. Moore  
Manager  
Literature and Distribution Services

## SECTION I

This section contains Hardware Manuals for Individual equipments arranged in equipment designator sequence. Product numbers are included in parenthesis after the equipment designator. Additional manuals may found in Section 2 by looking up the Product number.

LITERATURE DISTRIBUTION SUPPLEMENT  
INTERNAL - EXTERNAL CATALOG

The legend for columns one through six is as follows:

- 1-New or revised literature published since last edition
- N-New Publication
- R-Revision in packet form only
- RM-Revision in manual form only
- RMP-Revised manual/packet available
- R0-Revised publication obsoletes all previous editions
- 2-Publication number of literature, listed numerically
- 3-The latest revision level
- 4-Indicates size of hard cover binder that may be used for manuals
- 5-Publication division responsible for contents of literature
- 6-Price changes for External Customers only

\*FOR CONTROL DATA PERSONNEL ONLY

\*\*PRICE CHANGES IN COLUMN 6 ARE FOR EXTERNAL CUSTOMERS ONLY

## SECTION II

The manuals in this section are listed by Product or System Number. Many entries include a product to equipment cross reference; e.g. 1742 (CL309-A/B, FF511). Since Hardware manuals for equipment developed after November, 1967 are categorized by equipment designator, always look up the equipment designator in Section 1 as the Product Number.

### SECTION III

A number of Software manuals are listed in more than one location because of the fact that specific software products will run on various operating systems.

#### Manuals in this section:

The format in this section uses a machine line heading with a listing of manuals for each operating system version and the appropriate product set members printed beneath the heading.

If unable to locate required manuals in this section of the catalog, please refer to the Other Sources of Literature in Section 5.

308 North Dale Street  
St. Paul, Minnesota 55103

March 1, 1983

Dear Customer:

Attached is the second (2) catalog supplement since the January 1983 catalog was published.

G. F. Moore  
Manager  
Literature and Distribution Services

11

## SECTION I

This section contains Hardware Manuals for Individual equipments arranged in equipment designator sequence. Product numbers are included in parenthesis after the equipment designator. Additional manuals may be found in Section 2 by looking up the Product number.

LITERATURE DISTRIBUTION SUPPLEMENT  
INTERNAL - EXTERNAL CATALOG.

The legend for columns one through six is as follows:

- 1-New or revised literature published since last edition
  - N-New Publication
  - R-Revision in packet form only
  - RM-Revision in manual form only
  - RMP-Revised manual/packet available
  - RO-Revised publication obsoletes all previous editions
- 2-Publication number of literature, listed numerically
- 3-The latest revision level
- 4-Indicates size of hard cover binder that may be used for manuals
- 5-Publication division responsible for contents of literature
- 6-Price changes for External Customers only

\*FOR CONTROL DATA PERSONNEL ONLY

\*\*PRICE CHANGES IN COLUMN 6 ARE FOR EXTERNAL CUSTOMERS ONLY

## SECTION II

The manuals in this section are listed by Product or System Number. Many entries include a product to equipment cross reference; e.g. 1742 (CL309-A/B, FF511). Since Hardware manuals for equipment developed after November, 1967 are categorized by equipment designator, always look up the equipment designator in Section I as the Product Number.

R	3380X DISK MEMORY SBSYS. (BZ605/705/805) (33502) INSTALLATION MANUAL	83321400	N	3	NLD	

### SECTION III

A number of Software manuals are listed in more than one location because of the fact that specific software products will run on various operating systems.

#### Manuals in this section:

The format in this section uses a machine line heading with a listing of manuals for each operating system version and the appropriate product set members printed beneath the heading.

If unable to locate required manuals in this section of the catalog, please refer to the Other Sources of Literature in Section 5.

May 1, 1983

Dear Customer:

Attached is the fourth (4) catalog supplement since the January 1983 catalog was published.

G. F. Moore  
Manager  
Literature & Distribution Services

1

## SECTION I

This section contains Hardware Manuals for Individual equipments arranged in equipment designator sequence. Product numbers are included in parenthesis after the equipment designator. Additional manuals may be found in Section 2 by looking up the Product number.

LITERATURE DISTRIBUTION SUPPLEMENT  
INTERNAL - EXTERNAL CATALOG

The legend for columns one through six is as follows:

- 1-New or revised literature published since last edition
- N-New Publication
- R-Revision in packet form only
- RM-Revision in manual form only
- RMP-Revised manual/packet available
- R0-Revised publication obsoletes all previous editions
- 2-Publication number of literature, listed numerically
- 3-The latest revision level
- 4-Indicates size of hard cover binder that may be used for manuals
- 5-Publication division responsible for contents of literature
- 6-Price changes for External Customers only

\*FOR CONTROL DATA PERSONNEL ONLY

\*\*PRICE CHANGES IN COLUMN 6 ARE FOR EXTERNAL CUSTOMERS ONLY

## SECTION 2

The manuals in this section are listed by Product or System Number. Many entries include a product to equipment cross reference; e.g. 1742 (CL309-A/B, FF511-A/B). Since Hardware manuals for equipment developed after November, 1967 are categorized by equipment designator, always look up the equipment designator in Section 1 as the Product Number.

### SECTION 3

A number of Software manuals are listed in more than one location because of the fact that specific software products will run on various operating systems.

#### Manuals in this section:

The format in this section uses a machine line heading with a listing of manuals for each operating system version and the appropriate product set members printed beneath the heading.

If unable to locate required manuals in this section of the catalog, please refer to the Other Sources of Literature in Section 5.

## SECTION II

The manuals in this section are listed by Product or System Number. Many entries include a product to equipment cross reference; e.g. 1742 (CL309-A/B, FF511). Since Hardware manuals for equipment developed after November, 1967 are categorized by equipment designator, always look up the equipment designator in Section 1 as the Product Number.

### SECTION III

A number of Software manuals are listed in more than one location because of the fact that specific software products will run on various operating systems.

#### Manuals in this section:

The format in this section uses a machine line heading with a listing of manuals for each operating system version and the appropriate product set members printed beneath the heading. If unable to locate required manuals in this section of the catalog, please refer to the Other Sources of Literature in Section 5.

# CONTROL DATA

Literature and Distribution Services  
308 North Dale Street  
St. Paul, Minnesota 55103

June 1, 1983

Dear Customer:

Attached is the fifth (5) catalog supplement since the January 1983 catalog was published.

NOTE:

It is requested that all users and customers refrain from using a P.O. Box wherever possible. Please include a street address if you must reference a P.O. Box. Many carriers can not or have difficulty delivering to a P.O. Box and only delays your shipment.

G.F. Moore  
Manager  
Literature and Distribution Services

## SECTION I

This section contains Hardware Manuals for Individual equipments arranged in equipment designator sequence. Product numbers are included in parenthesis after the equipment designator. Additional Manuals may be found in Section 2 by looking up the Product number.

LITERATURE DISTRIBUTION SUPPLEMENT  
INTERNAL - EXTERNAL CATALOG.

The legend for columns one through six is as follows:

- 1-New or revised literature published since last edition
  - N-New Publication
  - R-Revision in packet form only
  - RM-Revision in manual form only
  - RMP-Revised manual/packet available
  - RO-Revised publication obsoletes all previous editions
- 2-Publication number of literature, listed numerically
- 3-The latest revision level
- 4-Indicates size of hard cover binder that may be used for manuals
- 5-Publication division responsible for contents of literature
- 6-Price changes for External Customers only

\*FOR CONTROL DATA PERSONNEL ONLY  
\*\*PRICE CHANGES IN COLUMN 6 ARE FOR EXTERNAL CUSTOMERS ONLY

## SECTION 2

The manuals in this section are listed by Product or System Number. Many entries include a product to equipment cross reference; e.g. 1742 (CL309-A/B, FF511-A/B). Since Hardware manuals for equipment developed after November, 1967 are categorized by equipment designator, always look up the equipment designator in Section 1 as the Product Number.

### SECTION 3

A number of Software manuals are listed in more than one location because of the fact that specific software products will run on various operating systems.

#### Manuals in this section:

The format in this section uses a machine line heading with a listing of manuals for each operating system version and the appropriate product set members printed beneath the heading.

If unable to locate required manuals in this section of the catalog, please refer to the Other Sources of Literature in Section 5.

July/August 1983

Dear Customer:

Attached is the sixth (6) catalog supplement since the January 1983 catalog was published. We are combining July and August into one (1) supplement.

LDS will not publish a July catalog in 1983, but continue with supplements.

Please take special note of the new prices listed on pages 33 and 34 of this supplement. The majority of the instant manuals have been reduced in price for external customers.

G. F. Moore  
Manager  
Literature & Distribution Services

## SECTION I

This section contains Hardware Manuals for Individual equipments arranged in equipment designator sequence. Product numbers are included in parenthesis after the equipment designator. Additional manuals may be found in Section 2 by looking up the Product number.

LITERATURE DISTRIBUTION SUPPLEMENT  
INTERNAL - EXTERNAL CATALOG

The legend for columns one through six is as follows:

- 1-New or revised literature published since last edition
  - N-New Publication
  - R-Revision in packet form only
  - RM-Revision in manual form only
  - RMP-Revised manual/packet available
  - R0-Revised publication obsoletes all previous editions
- 2-Publication number of literature, listed numerically
- 3-The latest revision level
- 4-Indicates size of hard cover binder that may be used for manuals
- 5-Publication division responsible for contents of literature
- 6-Price changes for External Customers only

\*FOR CONTROL DATA PERSONNEL ONLY  
\*\*PRICE CHANGES IN COLUMN 6 ARE FOR EXTERNAL CUSTOMERS ONLY

## SECTION 2

The manuals in this section are listed by Product or System Number. Many entries include a product to equipment cross reference; e.g. 1742 (CL309-A/B, FF511-A/B). Since Hardware manuals for equipment developed after November, 1967 are categorized by equipment designator, always look up the equipment designator in Section 1 as the Product Number.

### SECTION 3

A number of Software manuals are listed in more than one location because of the fact that specific software products will run on various operating systems.

Manuals in this section:

The format in this section uses a machine line heading with a listing of manuals for each operating system version and the appropriate product set members printed beneath the heading.

If unable to locate required manuals in this section of the catalog, please refer to the Other Sources of Literature in Section 5.

Literature and Distribution Services  
308 North Dale Street  
St. Paul, Minnesota 55103

September 1, 1983

Dear Customer:

Attached is the seventh (7) catalog supplement since the January 1983 catalog was published.

PLEASE NOTE: Error in July/August Supplement. The following publications were listed as being manuals printed at revision B, when in fact they were revision B packets.

15190076, 15190077, 15190079, 15190080 and 15190081.

G. F. Moore  
Manager  
Literature & Distribution Services

## SECTION I

This section contains Hardware Manuals for Individual equipments arranged in equipment designator sequence. Product numbers are included in parenthesis after the equipment designator. Additional manuals may be found in Section 2 by looking up the Product number.

LITERATURE DISTRIBUTION SUPPLEMENT  
INTERNAL - EXTERNAL CATALOG

The legend for columns one through six is as follows:

- 1-New or revised literature published since last edition
  - N-New Publication
  - R-Revision in packet form only
  - RM-Revision in manual form only
  - RMP-Revised manual/packet available
  - RO-Revised publication obsoletes all previous editions
- 2-Publication number of literature, listed numerically
- 3-The latest revision level
- 4-Indicates size of hard cover binder that may be used for manuals
- 5-Publication division responsible for contents of literature
- 6-Price changes for External Customers only

\*FOR CONTROL DATA PERSONNEL ONLY

\*\*PRICE CHANGES IN COLUMN 6 ARE FOR EXTERNAL CUSTOMERS ONLY

## SECTION II

The manuals in this section are listed by Product or System Number. Many entries include a product to equipment cross reference; e.g. 1742 (CL309-A/B, FF511). Since Hardware manuals for equipment developed after November, 1967 are categorized by equipment designator, always look up the equipment designator in Section I as the Product Number.

### SECTION III

A number of Software manuals are listed in more than one location because of the fact that specific software products will run on various operating systems.

#### Manuals in this section:

The format in this section uses a machine line heading with a listing of manuals for each operating system version and the appropriate product set members printed beneath the heading. If unable to locate required manuals in this section of the catalog, please refer to the Other Sources of Literature in Section 5.

 CONTROL DATA

Literature and Distribution Services  
308 North Dale Street  
St. Paul, Minnesota 55103

October 3, 1983

Dear Customer:

Attached is the eighth (8) catalog supplement since the January 1983 catalog was published.

G. F. Moore  
Manager  
Literature and Distribution Services

## SECTION I

This section contains Hardware Manuals for Individual equipments arranged in equipment designator sequence. Product numbers are included in parenthesis after the equipment designator. Additional manuals may be found in Section 2 by looking up the Product number.

LITERATURE DISTRIBUTION SUPPLEMENT  
INTERNAL - EXTERNAL CATALOG

The legend for columns one through six is as follows:

- 1-New or revised literature published since last edition
  - N-New Publication
  - R-Revision in packet form only
  - RM-Revision in manual form only
  - RMP-Revised manual/packet available
  - RO-Revised publication obsoletes all previous editions
- 2-Publication number of literature, listed numerically
- 3-The latest revision level
- 4-Indicates size of hard cover binder that may be used for manuals
- 5-Publication division responsible for contents of literature
- 6-Price changes for External Customers only

\*FOR CONTROL DATA PERSONNEL ONLY  
\*\*PRICE CHANGES IN COLUMN 6 ARE FOR EXTERNAL CUSTOMERS ONLY

## SECTION II

The manuals in this section are listed by Product or System Number. Many entries include a product to equipment cross reference; e.g. 1742 (CL 309-A/B, FF 511). Since Hardware Manuals for equipment developed after November, 1967 are categorized by equipment designator, always look up the equipment designator in Section 1 as the product Number.

### SECTION III

A number of Software manuals are listed in more than one location because of the fact that specific software products will run on various operating systems.

Manuals in this section:

The format in this section uses a machine line heading with a listing of manuals for each operating system version and the appropriate product set members printed beneath the heading.

If unable to locate required manuals in this section of the catalog, please refer to the Other Sources of Literature in Section 5.

Literature and Distribution Services  
308 North Dale Street  
St. Paul, Minnesota 55103

November 14, 1983

Dear Customer:

Attached is the ninth (9) catalog supplement since the January 1983 catalog was published.

G. F. Moore  
Manager  
Literature and Distribution Services

11/18

0  
D

SECTION I

This Section contains Hardware Manuals for Individual equipments arranged in equipment designator sequence. Product Numbers are included in parenthesis after the equipment designator. Additional manuals may be found in Section 2 by looking up the Product Number.

LITERATURE DISTRIBUTION SUPPLEMENT  
INTERNAL - EXTERNAL CATALOG

The legend for columns one through six is as follows:

- 1-New or revised literature published since last edition
  - N-New Publication
  - R-Revision in packet form only
  - RM-Revision in manual form only
  - RMP-Revised manual/packet available
  - RO-Revised publication obsoletes all previous editions
- 2-Publication number of literature, listed numerically
- 3-The latest revision level
- 4-Indicates size of hard cover binder that may be used for manuals
- 5-Publication division responsible for contents of literature
- 6-Price changes for External Customers only

\*FOR CONTROL DATA PERSONNEL ONLY

\*\*PRICE CHANGES IN COLUMN 6 ARE FOR EXTERNAL CUSTOMERS ONLY

SECTION II

The manuals in this section are listed by Product or System Number. Many entries include a product to equipment cross reference; e.g. 1742 (CL309-A/B, FF511). Since Hardware manuals for equipment developed after November, 1967 are categorized by equipment designator, always look up the equipment designator in Section 1 as the Product Number.

### SECTION III

A number of Software manuals are listed in more than one location because of the fact that specific software products will run on various operating systems.

#### Manuals in this section:

The format in this section uses a machine line heading with a listing of manuals for each operating system version and the appropriate product set members printed beneath the heading. If unable to locate required manuals in this section of the catalog, please refer to the Other Sources of Literature in Section 5.
