

STD-BUS FAMILY PRODUCTS

CPUE	Z-80A CPU, 6 X 28 pin memory sockets	£82
CPU2	Z-80A CPU, 6 X 28 pin memory sockets & CTC	£129
SLAVE	Z-80A CPU, 64K RAM, 2 serial ports	£412
68K	68000 CPU, 24 pin memory socket	£329
DRAM64	64Kb dynamic memory	£183
DRAM128	128Kb dynamic memory	£287
DRAM256	256Kb dynamic memory	£495
SIO4	4 channel serial interface, prog baud rate	£237
PIO2	4 X 8 bit ports plus handshake, 6 timers	£187
SPIO	2 serial ports, 2 X 8 bit ports, 3 timers	£204
FLP2	Programmable floppy disc DMA interface	£287
SASII	SASI disc & tape interface	£104
CRT	Video display interface	£270
WORDS	Voice synthesis & audio amplifier	£204
CC10	10 slot STD-Bus CARD CAGE	£152

SYSTEMS

SCEPTRE 820	Z-80A CPU, 128Kb RAM, Two 760 Kb floppy discs drives, Two RS-232C ports, Centronics printer port, 6 spare STD-Bus slots. Including CP/M Licence.	£2328
SCEPTRE 850	Z-80A CPU, 128Kb RAM, 760 Kb floppy disc drive, 10Mb Winchester disc drive, Two RS-232C ports, Centronics printer port, 5 spare STD-Bus slots. Including CP/M licence.	£3995
SCEPTRE 3200	68000 CPU, 512Kb RAM, 760 Kb floppy disc drive, 10 Mb Winchester disc drive, Two RS-232C ports, centronics printer port, 4 spare STD-Bus slots. Including UNIX System 3 or CP/M-68K licence	£4995

QUANTITY DISCOUNT - Boards per annum total

STD-Bus & VME-Bus Products 12/06/84

- STD-CPUE 280A CPU, six 28 pin Memory sockets
STD-CPU2 280A CPU, six 28 pin Memory sockets & CTC
STD-SLAVE 280A CPU, 64Kb RAM, two RS-232C ports
- STD-68000 68000 CPU, 24 pin Memory socket
- STD-DRAM64 64Kb dynamic RAM
STD-DRAM128 128Kb dynamic RAM
STD-DRAM256 256Kb dynamic RAM
- STD-SIO4 4 channel RS-232C with Programmable Baud rate
STD-PIO2 40 bit Parallel Input/Output port
STD-PSIO 2 channel RS-232C & 20 bit Parallel I/O
STD-FLP2 Programmable Floppy Disc DMA interface
STD-SASI1 SASI Disc & Tape interface
STD-CRT Video Display Controller & Keyboard interface
STD-CMOS Battery Backed Clock & 32Kb CMOS RAM
STD-WORDS Voice synthesizer & amplifier
- STD-EXTEND Extender card
STD-WW1 Wire-wrap prototype board 0.1 matrix
STD-WW2 Wire-wrap prototype board with power & ground
STD-CC10 10 slot STD-Bus card cage
- VME-80186 iAPX186, 128Kb Memory, two 28 pin EPROM Sockets, two RS-232C ports, SASI interface, Centronics printer port, three counter/timers, Dual DMA channels, Battery backed Clock.
- VME-SYSCON iAPX186, 128Kb Memory, two 28 pin EPROM sockets, two RS-232C ports, SASI interface, Centronics printer port, three counter/timers, Dual DMA channels, Battery backed Clock, Graphics controller & Keyboard interface.
- VME-68KMMU 68010 CPU with 68451 Memory Management Unit and 256Kb Parity memory.
- VME-UNIX Package comprising: VME-SYSCON, VME-68KMMU, UNIX S/W Licence including Documentation & Distribution media.
- VME-XFLP SASI to Floppy disc controller/interface
VME-XRAM1 128Kb Expansion RAM for VME-80186 & VME-SYSCON
VME-XRAM2 256Kb Expansion RAM for VME-MMCPU
VME-XRAM3 512Kb Expansion RAM for VME-80186 & VME-SYSCON
VME-CC3 3 Slot VME card cage
- COLEX-2020 VME-SYSCON based portable development system including CRT display, Keyboard, Dual IBM compatible floppy discs and MS-DOS operating system licence.
- COLEX-2050 VME-SYSCON based portable development system including CRT display, Keyboard, 10Mb winchester disc drive and IBM compatible floppy disc and MS-DOS operating system licence.

STD-Bus System products

- COLEX-820 Z80A CPU, 128Kb RAM, Dual 760Kb floppy disc drives, two RS-232C ports, two Centronics printer ports, 6 STD-Bus Expansion slots.
CP/M PLUS operating system licence.
- COLEX-850 Z80A CPU, 128Kb RAM, 10Mb Winchester disc drive, 760Kb floppy disc drive, Two RS-232C ports, two Centronics printer ports, 5 STD-Bus Expansion slots.
CP/M PLUS operating system licence.
- COLEX-881 Z80A CPU, 128Kb RAM, 10Mb Winchester disc drive, 760Kb floppy disc drive, two RS-232C ports, two Centronics printer ports, 5 STD-Bus Expansion slots.
TurboDOS (CP/M compatible) Multi-user operating system licence.
- COLEX-882 TWO Z80A CPU's, 192Kb RAM, 10Mb Winchester disc drive, 760Kb floppy disc drive, four RS-232C ports, two Centronics printer ports, 4 STD-Bus Expansion slots.
TurboDOS (CP/M compatible) Multi-user operating system licence.
- COLEX-883 THREE Z80A CPU's, 256Kb RAM, 10Mb Winchester disc drive, 760Kb floppy disc drive, six RS-232C ports, two Centronics printer port, 3 STD-Bus Expansion slots.
TurboDOS (CP/M compatible) Multi-user operating system licence.
- COLEX-884 FOUR Z80A CPU's, 320Kb RAM, 10Mb Winchester disc drive, 760Kb floppy disc drive, eight RS-232C ports, two Centronics printer port, 2 STD-Bus Expansion slots.
TurboDOS (CP/M compatible) Multi-user operating system licence.
- COLEX-885 Five Z80A CPU's, 384Kb RAM, 10Mb Winchester disc drive, 760Kb floppy disc drive, ten RS-232C ports, two Centronics printer port, 1 STD-Bus Expansion slots.
TurboDOS (CP/M compatible) Multi-user operating system licence.
- COLEX-886 SIX Z80A CPU's, 448Kb RAM, 10Mb Winchester disc drive, 760Kb floppy disc drive, twelve RS-232C ports, two Centronics printer port,
TurboDOS (CP/M compatible) Multi-user operating system licence.
- COLEX-3240 68000 CPU, 256Kb RAM, 10Mb Winchester disc drive, 760Kb floppy disc drive, Two RS-232C ports, Centronics printer port, 5 STD-Bus Expansion slots.
CP/M-68K operating system licence complete with Assembler & "C" compiler.
- COLEX-3250 68000 CPU, 512Kb RAM, 10Mb Winchester disc drive, 760Kb floppy disc drive, Two RS-232C ports, Centronics printer port, 4 STD-Bus Expansion slots.
UNIX operating system licence including Assembler and "C" compiler.
