

SERVICE FOR CONSULTANTS -- DEC 1983 (#739)

This publication is intended for use by those members of the data processing community who need this information in their work as consultants in the field of data processing and/or for those who directly or indirectly assist the users of IBM data processing systems in the installation and application of such systems.

It is made available on a subscription basis at \$163.25 the first year (including up-to-date manuals, binders and 12 monthly supplements) and \$74.40 for subsequent years (12 monthly supplements only). Requests for subscription should be submitted to the nearest IBM Branch Office.

The material contained in this manual and the supplements thereto has been prepared primarily for the general guidance of consultants and technical personnel. It includes technical information relative to IBM equipment and programs, but is not designed to be all-inclusive or to necessarily represent the exact status of equipment or programs at any point in time.

All prices shown are for information purposes only, and are subject to change without notice. Applicable taxes are not shown. IBM products and services are provided under the terms of an applicable IBM agreement.

Machines which are shown in this manual as withdrawn are no longer available from IBM. Data concerning these machines is provided for information purposes only. If available, certain features may be ordered for withdrawn machines. A Request for Price Quotation (RPQ) is required before such a feature can be ordered.

References in this publication to IBM products, programs, or services do not imply that IBM intends to make these available in all areas in which IBM operates.

Scheduled release and/or distribution dates, or time schedules, are for information purposes only, and are subject to change without prior notice.

References to RPQs and PRQs are for information purposes only. The availability of such items should not be considered as a guarantee that they will be available in the future.

References to internal IBM procedures and departments are for the guidance of IBM personnel; users of the Service For Consultants manual are to make all contacts with IBM through the marketing representative assigned to the account.

It is the subscriber's responsibility to maintain the current status of the manual by incorporating the updated material as received from IBM. Subscribers are requested to contact the appropriate IBM Branch Office prior to incorporating material from this reference manual in their evaluation or recommendations since, of necessity, the material may not be complete.

Publishers who may wish to quote from this manual are invited to contact the IBM Department of Information for technical review of all such material prior to publication.
