

**INTRODUCTION**

The Service for Consultants Manual contains prices and related terms and conditions for standard products and services currently marketed to commercial customers by the National Accounts Division (NAD) and the National Marketing Division (NMD).

**ORGANIZATION**

The Service for Consultants Manual consists of ten sections with individual tabs. Each section has explanatory information, detailed data and, if applicable, footnotes. Each page within a section is identified with the section name, a page number, the month and year published. The section titles and contents are:

- Introduction
- Hardware Prices
- Hardware Terms & Conditions
- Software Prices
- Software Terms & Conditions
- Model Upgrade Purchase Prices
- Accessory Prices
- Pilot Test Plan Prices
- Service Offering Prices
- Measurement Value

**ORDERING INSTRUCTIONS**

The Service for Consultants Manual may be ordered through your local branch office. The base publication numbers for ordering The Service for Consultants Manual are:

- Binder                    S320-1070
- Pages                    SY20-0161
- Tabs                     S320-1071

Initial orders are placed through the local IBM Branch Office. Updates will be issued periodically.

**ADDITIONAL INFORMATION SOURCES**

Many publications or data base files contain information on products and services. A list of some of these other sources is provided for your reference. These additional sources are not maintained by Central Sales Manual Services.

- Announcement Letters
- Systems Selection Guide
- Software Directory (GB21-9949)
- Software Catalog (G320-6531 through 6537)
- Systems Supplies Division Sales Manual
- General Services Administration (GSA) Contracts

**HARDWARE PRICES**

**INTRODUCTION**

The Hardware Price List includes standard machine types, models, and features currently marketed by NAD and NMD. Only prices for billing plans currently marketed to commercial customers are included. The price list should be used in conjunction with the Hardware Terms and Conditions list.

**ORGANIZATION**

The list is presented in machine type sequence. Footnotes are kept to a minimum, and when practical, a single footnote reference is used for all exceptions in a data field. Some codes are used in data fields to indicate specific details. As example, a hyphen is used to indicate that a data field does not apply. Other fixed codes will be explained in the legend below.

**LEGEND FOR HARDWARE PRICE LIST**

Column Heading	Explanation
MACH TYPE	The identification number for each machine type. Machine type 9999 is used to identify other vendor's products that have a fixed trade-in price.
MDL/FEAT	The identification code for each model and feature of a machine type. When four asterisks (****) are in the MDL/FEAT column there will be a special message in the Description Column, such as, "All Models Withdrawn". Also appearing in this column is the term RPQ. Selected RPQ's have been included in the price list when they are an integral part of a specific product line, such as the 4978 Display Station.
DESCRIPTION	<p>Identification of the machine type, model, or feature shown on the same line. This field is also used to describe special situations or prices, such as: multiple lease base term prices, special maintenance prices, additional usage prices, etc. Each of these special description lines are identified with dot leaders (...) preceding the text. Abbreviations are used but they should be self-explanatory.</p> <p>Two asterisks (**) following the machine or feature description indicate that "Certain replaced parts become the property of IBM and must be returned."</p>
MONTHLY RENTAL	The dollar amount charged per month if a rental contract is offered on the machine type, model, or feature. An "s" printed after the dollar amount indicates that the charge is a Single Use Charge (SUC), not a monthly charge. Customers incur the SUC charges shown in this column for all billing plans including lease, pilot test, and academic lease.
MONTHLY LEASE	The dollar amount charged per month if a lease contract is offered for a machine type, model, or feature. Some machine types, models, or features will have multiple lease prices shown on separate lines due to multiple base term offerings.
PURCHASE PRICE	The dollar amount charged for purchase of the machine type, model, or feature. A number sign (#) in this field indicates that purchase prices are only issued upon request.
AMMCR/MMC	<p>The dollar amount for Additional Monthly Maintenance Charge Rate (for Plan Offering D lease/rental machines) or Minimum Maintenance Charge for purchased machines. If the dollar amount is other than a monthly charge, a code will be shown after the dollar amount. The codes used are:</p> <ul style="list-style-type: none"> <li>a = Annual Charge</li> <li>f = 5-year Maintenance Charge</li> </ul>
FIC/OTHER	<p>The dollar amount for the Field Installation Charge for purchased features, if applicable. This field is also used to identify other situations by use of codes after the dollar amount. The codes used are:</p> <ul style="list-style-type: none"> <li>* = Series/1 Academic Lease Plan Monthly Charge</li> <li>t = Trade-In Price</li> <li>+ = One-Time Charge</li> </ul>
BASE TERM	The number of months in the base term for the machine type, model, or feature shown on the same line. Some machine types, models, or features will have multiple base terms.

**INTRODUCTION**

The Hardware Terms and Conditions list includes standard machine types currently marketed by NAD and NMD. The list should be used in conjunction with the Hardware Price List. Only terms and conditions presently marketed are included.

**ORGANIZATION**

The list is presented in machine type sequence. A single line entry contains all information for a machine type unless terms and conditions vary between models. Footnotes are kept to a minimum and, when practical, a single footnote reference is used for each data field. As example, all footnotes related to Lease Base Term can be found in a single footnote. Footnotes are identified by a lower case alphabetic character, such as (b).

Some codes are used in data fields to indicate specific details. As example, a hyphen is used to indicate that a data field does not apply. Other fixed codes will be explained in the legend below.

**LEGEND FOR HARDWARE TERMS AND CONDITIONS LIST**

Column Heading	Explanation
<b>MACH TYPE</b>	The machine type assigned to each hardware product. This field will also contain model codes when terms and conditions vary within a machine type. When a field does not apply to a machine type, a hyphen(s) will be shown. This helps to prevent omissions and improves the readability of each line of information. When multiple lines apply to a machine type all unchanged data will be repeated to ensure complete information.
<b>PCU</b>	A machine type that is a Processor Complex Unit (PCU) will have an asterisk in this field. These machines require a three-month notice of discontinuance.
<b>R/L PO</b>	The type of Plan offering will be reflected or an indication that the machine type is "purchase only". The codes found in this column are: <ul style="list-style-type: none"> <li>A = Plan Offering A</li> <li>B = Plan Offering B</li> <li>C = Plan Offering C - See Hardware Prices for applicable Monthly Use Charge Rates (MUCR) for lease/rental machines and Additional Maintenance Charge Rates (AMCR) for purchased machines under IBM Maintenance Agreement.</li> <li>D = Plan Offering D - See Hardware Prices for Additional Monthly Maintenance Charge Rates (AMMCR) which apply if the customer elects Optional Periods of Maintenance Service following expiration of the Initial Period of Maintenance Service for lease, rental or Pilot Test Plan machines. <b>NOTE:</b> All plan offering D machine types, serviced on site, have an Initial Period of Maintenance Service of 3 months.</li> <li>U = Usage Plan - See Hardware Prices for Usage Charges applicable to lease/ rental machines and to purchased machines under IBM Maintenance Agreement II.</li> <li>N = Non-Usage Plan</li> <li>PO = Purchase Only</li> </ul> <p>All machine types covered by the IBM Maintenance Agreement are considered as Machine Group A. Maintenance charge may vary with optional period selected. See Maintenance Agreement for specifics. Optional periods do not apply to Plan C machine types.</p>
<b>AUC</b>	The Additional Use Charge (AUC) percent for Plan Offering A machines will be shown in this column. The rate will be 10 or 30 percent.
<b>AC</b>	The additional charge percent for rental features added to a Plan Offering A lease machine will be in this column. The rate will be 5, 10, or 15.
<b>MTR</b>	An asterisk in this column will indicate that the machine type is metered in some way - details on the type of metering can be found in the text of the machine write-up in the Sales Manual.
<b>BASE TERM</b>	The length of the base term available under lease plan will be shown in this column. The term will be expressed in months and may reflect two base terms such as: 12/24. If more than two base terms are available for a machine type, a referral to a footnote will be indicated. All lease machines have an upper limit percent. The upper limit percent is 5% per year except for copiers. The upper limit percent for copiers is 0% in the first year and 5% in subsequent years.
<b>TERM % / MO</b>	The termination percent and number of months applicable to a lease term will be shown. Referral to a footnote may be necessary, if multiple base terms apply.
<b>PUR OPT</b>	The current percent of rental/lease charges that can be applied to a purchase option transaction. Certain machines, when installed under rental, only accrue for a specified number of months. Some machines accrue toward purchase option at a fixed dollar rate per month. These exceptions will be contained in footnote C.
<b>WARRANTY</b>	The warranty category applicable to each machine type will be shown. The category codes used are: <ul style="list-style-type: none"> <li># = 5 year warranty</li> <li>A = 1 year warranty</li> <li>B = 3 months warranty</li> </ul> <p>An asterisk beside the B indicates that warranty service is provided during IBM's normal business hours only. (8:00 am to 5:30 pm)</p>
<b>CSU</b>	If a machine type is designated as Customer Set-Up (CSU), the number of days allowed or "yes" will be displayed. Features for these machine types may or may not be designated as Customer Set-Up when field installed. Refer to the feature description in Sales Manual Volumes 2, 4 and 5 for further details. If a feature is designated as CSU, the CSU allowance provided in the Agreement for Purchase of IBM machines is one month following the later of the scheduled or actual ship date.

**HARDWARE TERMS AND CONDITIONS****EDUC**

This column contains an indication of special pricing for educational customers. Educational discounts cannot be combined with Volume Procurement Discounts. The codes contained in this field are:

EA = Educational Allowance - all available billing plans  
EA RL = Educational Allowance - Rent/Lease only  
EP = Educational Price - all available billing plans -See separate State & Local Government Price List for educational prices

**T&M**

A code will indicate the rate classification for time and material service. The actual rate associated with the indicated rate classification can be found in the Service Offering Section in this volume. The codes used are: 1, 2, 3, #, \*, where # is baseline, and \* is non-baseline.

**SPECIAL OFFERING**

This column will contain acronyms or codes for special agreements, maintenance plans, testing allowances, etc.

AFP = Alternate Finance Plan  
CD = Cash Discount  
CFMS = Central Facility Maintenance Service  
CSD = Customer Service Division  
CU = Copier Upgrade (without lease termination charge)  
ICC = IBM Credit Corp. (Financing)  
IIP = Installation Integration Program  
IPP = Introductory Placement Plan  
MMP = Multiple Machine Plan  
NRC = National Repair Center  
OSA = On-Site Allowance  
PITA = Pre-Installation Test Allowance  
PTP = Pilot Test Plan  
RP = Retainer Plan  
SI = Schedule Improvement  
SSA = PC Service Agreement Amendment  
SECS = Service/Exchange Center Services  
SSD = Systems Supplies Division (Kit/pac available)  
SSQD = Single Shipment Quantity Discount  
STR = Short Term Rental  
TPA = Trial Period Amendment  
TPF = Third Party Financing  
TR = Temporary Rental  
VAR = Value Added Remarketer  
VL = Vendor Lease  
VPA = Volume Procurement Agreement

If the number of Special Offerings exceeds the space available on one line, multiple lines will be used. Footnotes may apply to Special Offerings codes as well. They would be noted as follows: VPA(a), PITA(d), etc.

**HARDWARE TERMS AND CONDITIONS**

**FOOTNOTES**

**a. BASE TERM**

Copier Models 6802, 6803, 6808, 6852 have three Base Terms; 12, 24, and 36 months.

**b. TERMINATION PERCENTAGE, MONTHS**

Machine types 6211, 6212, 6441, 6443, 6640, 6670, and 6671 have varying Termination Percentages and Months determined by the Lease Base Term. They also have different Termination Months if the lease is terminated in an Extension Period.

BASE TERM	TERMINATION PERCENTAGE	TERMINATION MONTHS	EXTENSION MONTHS
12	25	2	2
24	25	4	2
36	25	5	2

**c. PURCHASE OPTION ACCRUAL RATES**

Some machine types and features have a fixed dollar amount accrual per month:

MACHINE TYPE	MONTHLY AMOUNT
6801	\$175.00
6802 (for 36 month lease)	275.00
6802 (for rental, 12 & 24 month leases)	400.00
6803 (for 36 month lease)	325.00
6803 (for rental, 12 & 24 month leases)	485.00
6808	580.00
6852-003	108.00
6852-004	458.00

FEATURE	MONTHLY AMOUNT
#3155 (for mach type 6801)	\$175.00
#5978 (for mach types 6805/06/08)	60.00
#A132 (for mach types 6802/03)	2.50
#A151 (for mach type 6808)	35.00
#A238 (for mach types 6805/06/08)	18.00
#A895 (for mach types 6801/02/03/05/06/08)	7.50

Some machine types have a maximum number of Accrual Months if installed under Rental or Lease.

MACHINE TYPE	MAXIMUM #	PERCENTAGE
3262-C01	6 months	50%
3290	6 months	65%
3370-A02,A12	6 months	20%
3370-B02,B12	6 months	20%
3430	6 months	20%
3725	6 months	65%
3726	6 months	65%
3727	6 months	65%
3800	12 months	20%
3866	6 months	65%
3868	6 months	65%
4245	6 months	50%
4250	6 months	60%
4681	6 months	20%
4701	6 months	65%
4704	6 months	65%
4710	6 months	65%
4720	6 months	65%
4730	6 months	50%
4994	6 months	65%
5080	6 months	65%
5219-B01,B02	12 months	40%
5229	12 months	40%
5253	12 months	50%
5258	12 months	50%
5321	12 months	45%
5360	6 months	50%
5525	12 months	55%
8150	6 months	55%
8815	6 months	50%

**d. CUSTOMER SET UP**

The CSU Allowance varies by model in some instances:

MACHINE TYPE	MODEL(S)	CSU
3262	001, 002, 011, 012, C01	1 day
	003, 013	4 day
3268	001	1 day
	002,02C	4 day
3274	21C, 31C, 41C, 61C	4 day
3287	001, 002, C01, C02	4 day
	011, 012	1 day
3289	001, 002, 003	1 day
	004	4 day
