

NOTE TO USER
FOR
ZEUS 3.21 UPGRADE

Document Number: 03-0395-01

Zilog, Inc.
August, 1985

Zilog

1.1. INTRODUCTION

This tape contains modifications and additions to Zeus 3.21.

2.1. DOCUMENTATION

The documentation to support ZEUS 3.21 are:

- ZEUS Administrator Manual (03-3246)
- ZEUS Languages/Programming Tools Manual (03-3249)
- ZEUS Utilities Manual (03-3250)
- ZEUS Reference Manual (03-3255)
- UNIX A Quick Reference Guide To Zilog's Enhanced Unix System (03-3269)
- User Guide, for System Models 12, 22, 32 (03-3286)
- SADIE Reference Manual (03-3264-02)
- SADIE Reference Manual 3.5 Update Package (U3-3264-A2)
- SADIE Reference Card, V 3.5 (03-3274)

3.1. DESCRIPTION OF SOFTWARE RELEASE

This release contains enhancements for ZEUS 3.21.

4.1. SYSTEM REQUIREMENTS

Refer to Note To User, ZEUS 3.21 00-0263-02.

5.1. INSTALLATION

This tape contains modifications and additions to Zeus 3.21. If it is loaded into tmp the following number of blocks will be required to install the changes.

root	20 blocks
/usr	1219 blocks
/tmp	2260 blocks

To install the special release tape.

1. Make a directory in tmp and move to that directory.

```
mkdir /tmp/3.21.update
cd /tmp/3.21/update
```

Zilog

2. Load the tape into this directory:

```
tar xv
```

3. Do an ls of the directory, the following files will appear:

```
3.21.update  
INSTALL
```

4. Run the INSTALL script (if all the files are not to be loaded, the INSTALL script must be modified before execution).

```
INSTALL
```

5. When the INSTALL script has completed successfully, do a sysgen and reboot the system.
6. The old files have been saved in a directory in tmp, /tmp/save. This directory and/or /tmp/3.21.update can be removed if more space is needed in tmp.
