

Accountant in Business (FAB/F1) December 2011 to January 2013

This syllabus and study guide is designed to help with teaching and learning and is intended to provide detailed information on what could be assessed in any examination session.

THE STRUCTURE OF THE SYLLABUS AND STUDY GUIDE

Relational diagram with other papers

This diagram shows direct and indirect links between this paper and other papers preceding or following it. Some papers are directly underpinned by other papers. These links are shown as solid line arrows. The links between papers where there is only an indirect link and no required underpinning are shown as dotted line arrows. The relational diagram therefore indicates where you are expected to have underpinning knowledge and where it would be useful to review previous learning before undertaking study.

Overall aim of the syllabus

This explains briefly the overall objective of the paper and indicates in the broadest sense the capabilities to be developed within the paper.

Main capabilities

This paper's aim is broken down into several main capabilities which divide the syllabus and study guide into discrete sections.

Relational diagram of main capabilities

This diagram illustrates the flows and links between the main capabilities (sections) of the syllabus and should be used as an aid to planning teaching and learning in a structured way.

Syllabus rationale

This is a narrative explaining how the syllabus is structured and how the main capabilities are linked. The rationale also explains in further detail what the examination intends to assess and why.

Detailed syllabus

This shows the breakdown of the main capabilities (sections) of the syllabus into subject areas. This is the blueprint for the detailed study guide.

Approach to examining the syllabus

This section briefly explains the structure of the examination and how it is assessed.

Study Guide

This is the main document that students and learning and content providers should use as the basis of their studies, instruction and materials respectively. Examinations will be based on the detail of the study guide which comprehensively identifies what could be assessed in any examination session. The study guide is a precise reflection and breakdown of the syllabus. It is divided into sections based on the main capabilities identified in the syllabus. These sections are divided into subject areas which relate to the sub-capabilities included in the detailed syllabus. Subject areas are broken down into sub-headings which describe the detailed outcomes that could be assessed in examinations. These outcomes are described using verbs indicating what exams may require students to demonstrate, and the broad intellectual level at which these may need to be demonstrated (*see intellectual levels below).

Learning Materials

ACCA's Approved Learning Partner - content (ALP-c) is the programme through which ACCA approves learning materials from high quality content providers designed to support study towards ACCA's qualifications.

ACCA has one Platinum Approved Learning Partner-content which is BPP Learning Media. In addition, there are a number of Gold Approved Learning Partners - content.

For information about ACCA's Approved Learning Partners - content, please go ACCA's Content Provider Directory.

The Directory also lists materials by Subscribers, these materials have not been quality assured by

ACCA but may be helpful if used in conjunction with approved learning materials. You will also find details of Examiner suggested Additional Reading which may be a useful supplement to approved learning materials#

ACCA's Content Provider Directory can be found here – http://www.accaglobal.com/learningproviders/alpc/content_provider_directory/search/.

Relevant articles will also be published in Student Accountant.

LEVEL OF ASSESSMENTS – INTELLECTUAL DEMAND

ACCA qualifications are designed to progressively broaden and deepen the knowledge and skills demonstrated by the student at a range of levels on their way through each qualification. These relate to intellectual levels as designated by the UK qualifications and credit framework (QCF) and other qualifications frameworks. As a benchmark, these levels progress from GCSE equivalent at the Introductory level of the Foundations in Accountancy (FIA) programme, to A level, or its equivalent, at the Intermediate level and to first year degree level at the Advanced level. The Advanced Diploma (the Skills module plus professional Ethics Module) within the ACCA Qualification is equivalent to undergraduate degree level and the Professional level is benchmarked at Masters level.

Throughout, the study guides assess both knowledge and skills. Therefore a clear distinction is drawn, within each subject area, between assessing knowledge and skills and in assessing their application within an accounting or business context. The assessment of knowledge is denoted by a superscript^K and the assessment of skills is denoted by the superscript^S.

VALUE OF ASSESSMENTS – GUIDED LEARNING HOURS

For the FIA syllabuses the approximate number of standard learning hours that a candidate needs to commit to each examination is based on the credit value of the Qualifications and Credit Framework (QCF) UK, units which make up the syllabus. For FAB, Foundations of Accounting and Business, the total learning hours or credit value of the syllabus is 18 credits or 180 hours which includes direct

tuition time, self study, revision and assessment time.

For QCF registered learners in England, Wales and Northern Ireland, passing the exam related to the above syllabus gives credit for the following QCF units:

- Work effectively in accounting and finance
- Principles of internal control
- Evaluating accounting systems
- Professional ethics in accounting and finance
- Professional values and basic business legislation
- Business environment, structure and governance
- Leadership, management and communication

GUIDE TO EXAM STRUCTURE

The structure of examinations varies within and between modules and levels.

The FIA examinations contain 100% compulsory questions to encourage candidates to study across the breadth of each syllabus.

All FIA examinations are assessed by two-hour paper based and computer based examinations.

The pass mark for all FIA examination papers is 50%.

GUIDE TO EXAMINATION ASSESSMENT

ACCA reserves the right to examine anything contained within any study guide at any examination session. This includes knowledge, techniques, principles, theories, and concepts as specified.

For the financial accounting, audit and tax papers, except where indicated otherwise, ACCA will publish *examinable documents* once a year to indicate exactly what regulations and legislation could potentially be assessed within identified examination sessions.

Examinations regulation **issued** or legislation **passed** on or before 30th September annually, will be assessed from June 1st of the following year to May 31st of the year after. Please refer to the examinable documents for the paper (where relevant) for further information.

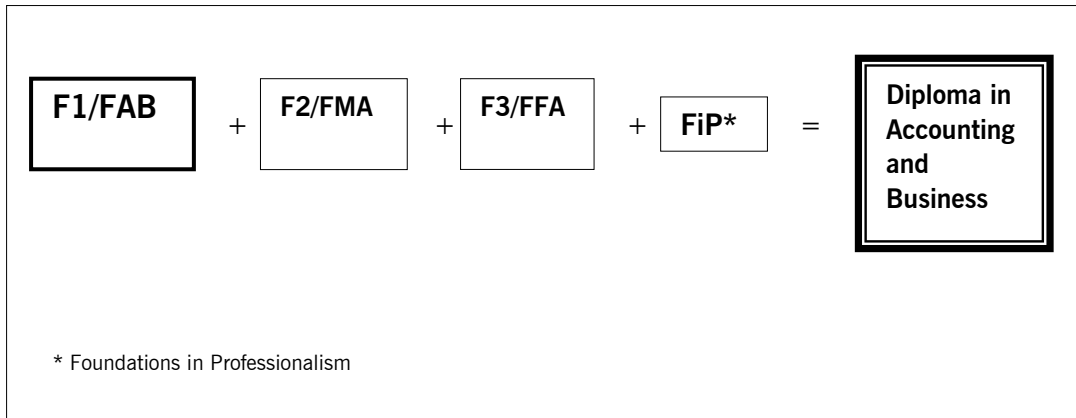

Regulation issued or legislation passed in accordance with the above dates may be examinable even if the **effective** date is in the future. The term issued or passed relates to when regulation or legislation has been formally approved.

The term effective relates to when regulation or legislation must be applied to entity transactions and business practices.

The study guide offers more detailed guidance on the depth and level at which the examinable documents will be examined. The study guide should therefore be read in conjunction with the examinable documents list.

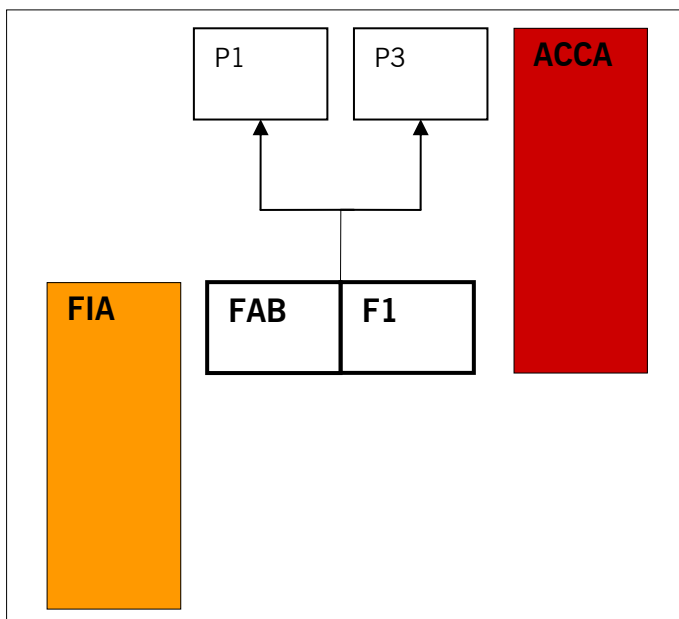

Qualification structure

The qualification structure requires candidates who wish to be awarded the Diploma in Accounting and Business to pass the F1/FAB, F2/FMA and the F3/FFA examinations and successfully complete the Foundations in Professionalism module.

Syllabus structure

The Foundations in Accountancy suite of qualifications is designed so that a student can progress through three discrete levels; Introductory Certificate level, Intermediate Certificate level and the Diploma level. Students are recommended to enter FIA at the level which is most appropriate to their needs and abilities and to take examinations in order, but this is not a requirement.

Syllabus

AIM

To introduce knowledge and understanding of the business and its environment and the influence this has on how organisations are structured and on the role of the accounting and other key business functions in contributing to the efficient, effective and ethical management and development of an organisation and its people and systems.

RATIONALE

The syllabus for FAB/F1, *Foundations of Accounting in Business* introduces students who may not have a business background, to the business, which as an entity is made up of people and systems which interact with the environment and with each other. The syllabus begins with examining the purpose and types of business which exist, the key stakeholders and the rights and responsibilities that businesses have in connection with them, exploring the external influences that affect the business in its environment, including economic, legal, social and technological factors. The syllabus then examines the structure and functions of business, focusing on corporate governance and the specific accounting related roles in this process, particularly in financial reporting, assurance, control and compliance. The syllabus then introduces key leadership, management and people issues such as effective individual and team behaviour, motivation and personal effectiveness.

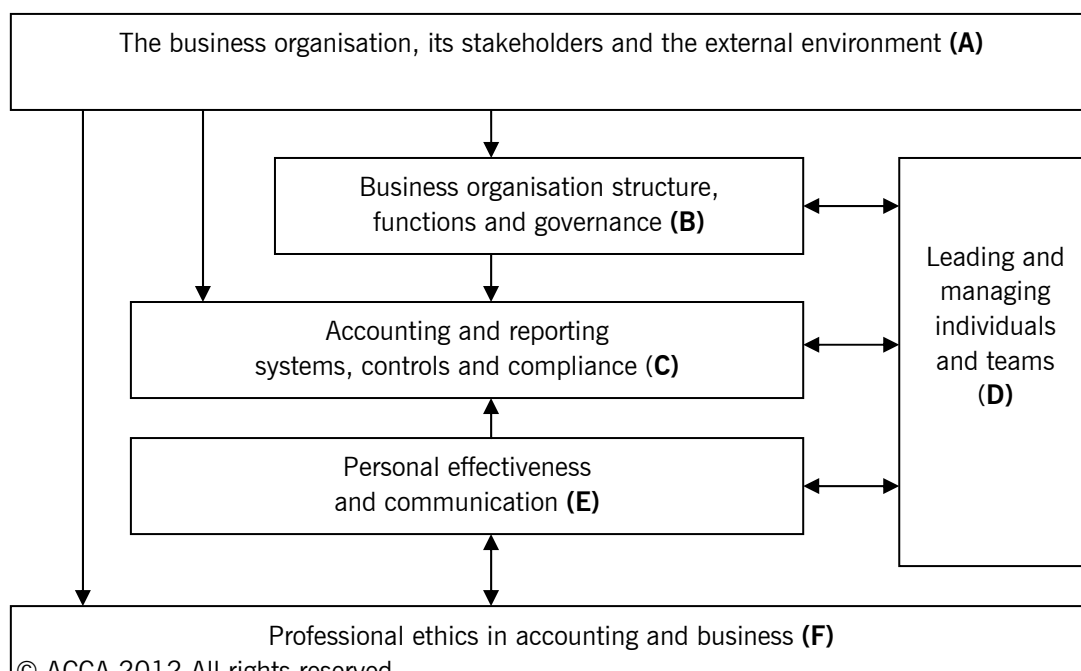

The final section of the syllabus examines how behaviour at all levels within business should be underpinned by accepted professional ethics and professional values.

MAIN CAPABILITIES

On successful completion of this paper, candidates should be able to:

- A** Understand the purpose and types of businesses and how they interact with key stakeholders and the external environment.
- B** Understand business organisation structure, functions and the role of corporate governance
- C** Recognise the function of accountancy and audit in communicating, reporting and assuring financial information and in effective financial control and compliance
- D** Recognise the principles of authority and leadership and how teams and individuals are recruited, managed, motivated and developed.
- E** Understand the importance of personal effectiveness as the basis for effective team and organisational behaviour.
- F** Recognise that all aspects of business and finance should be conducted in a manner which complies with and is in the spirit of accepted professional ethics and professional values
